International Society for Technology in Education Dot is feeling a bit underappreciated. After all, Dot is only a dot, and what good is a dot? It looks like Dot could use a reminder of his important place in the world. How could a person see if he only had one dotted eye? And what would a dalmatian be without all its spots? More importantly, how could children ask for sweet treats without the dot in a question mark? Dot is about to get a big lesson on just how important he is—because there's a special spot for every dot in this world! From author/illustrator Loryn Brantz comes a witty story about confidence and value. Here is a story of Alice Coachman, the first African-American woman to win an Olympic gold medal. When Alice Coachman was a girl, most White people wouldn't even shake her hand. Yet when the King of England placed an Olympic medal around her neck in 1948, he extended his hand to Alice in congratulations. Standing on a podium in London's Wembley Stadium, Alice was a long way from the fields of Georgia where she ran barefoot as a child. With a record-breaking leap, she had become the first African-American woman to win an Olympic gold medal. This inspirational picture book is perfect to celebrate Women's History Month or to share

any day of the year. *Mathematics for Machine Learning* Harry N. Abrams

#1 New York Times Bestseller Over 10 million copies sold In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. "F**k positivity," Mark Manson says. "Let's be honest, shit is f**ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. *The Subtle Art of Not Giving a F**k* is his antidote to the coddling,

let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f**k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-

by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, *The Subtle Art of Not Giving a F**k* is a refreshing slap for a generation to help them lead contented, grounded lives.

Features an audio read-along! A creative spirit learns that thinking "ish-ly" is far more wonderful than "getting it right" in this gentle new fable from the creator of the award-winning picture book *The Dot*. Ramon loved to draw. Anytime. Anything. Anywhere. Drawing is what Ramon does. It's what makes him happy. But in one split second, all that changes. A single reckless remark by Ramon's older brother, Leon, turns Ramon's carefree sketches into joyless struggles. Luckily for Ramon, though, his little sister, Marisol, sees the world differently. She

opens his eyes to something a lot more valuable than getting things just "right."

Combining the spareness of fable with the potency of parable, Peter Reynolds shines a bright beam of light on the need to kindle and tend our creative flames with care.

"It sounds like a simple thing, to say what you see," Mark Doty begins. "But try to find words for the shades of a mottled sassafras leaf, or the reflectivity of a bay on an August morning, or the very beginnings of desire stirring in the gaze of someone looking right into your eyes . . ." Doty finds refuge in the sensory experience found in poems by Blake, Whitman, Bishop, and others. *The Art of Description* is an invaluable book by one of

Make Your Mark Gallery: A Coloring Book-ish National Geographic Books

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and

admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.
