• What is easy Turkish Grammar? easy Turkish Grammar is a self-study reference and practice book for learners who want to study Turkish for the first time but are not sure where to start. It teaches all the grammar and vocabulary they need for speaking and writing in Turkish. Not only does it explain the rules, it also shows how the language works and gives plenty of practice. It can also be used by lower-intermediate learners who want to revise their knowledge of Turkish. • Which Turkish does easy Turkish Grammar teach? It teaches modern standard Turkish, the dialect you read in newspapers and hear on TV channels. • How is easy Turkish Grammar organised? The grammar To help you have a feel for how Turkish works the book starts with a brief introduction about Turkish spelling, pronunciation, word order and parts of speech such as verbs, nouns and adjectives. After the introduction you will study 36 units presented in order of difficulty. First three units, which deal with spelling and pronunciation, come with online audio. Each unit covers one part of grammar explained by making references to English so that you can compare relevant areas of grammar. Areas where you may have difficulty have been treated with particular care and attention. Each topic is illustrated by plenty of real-life examples written by using the equivalents of 2000 basic English words. And each and every example in the book is translated into English. In the book some unique conventions are used for spelling, pronunciation and grammar in order to help with the learning

process. Each set of suffixes in Turkish, which might be mind-boggling for speakers of European languages such as English, is highlighted with a different colour throughout the book so that you can easily spot the order and function of every suffix. You can find the colour-legend at the bottom of the pages. Besides grammar, easy Turkish Grammar teaches lots of everyday phrases and expressions so that it may also make a useful handbook for daily Turkish. The exercises As practice makes perfect, the utmost care has been devoted to writing the exercises. At the end of the units you can find an extensive set of exercises. The appendices The appendices include 11 supplementary lessons, which you are referred to while you are studying the units. The key The key includes the answers to all the exercises. Online audio for the answers is also available. The index The index is unique in that the entries include only titles in English so that you can compare relevant areas of grammar. For example, if you want to know how to say must or express obligation in Turkish, all you need to do is refer to these titles. Here you will find information not only about how to say must in Turkish but also how Turkish suffix for must is also used to mean should. Or if you want to add -ness to an adjective or -ship to a noun, you will be referred to the relevant page where you will find that Turkish only has the suffix -lik for both. The bibliography If you buy this book, you can get the title 'Turkish Vocabulary Booster: Word formation in Turkish' by the same author for free.
