Strange things are happening near Granite Creek, Colorado, all in the space of less than twenty-four hours. A Ute shaman dreams of being buried alive and hears the hooting of an owl, signaling impending death. A man walks into Spirit Canyon and disappears, leaving his battered wife both relieved and devastated. A private museum is burgled. An Apache is arrested for assaulting a police officer. And a sniper takes a shot through an antique store window, wounding the proprietor. Part-time Ute tribal investigator Charlie Moon would rather be tending to his duties on the Columbine Ranch than playing detective with this puzzling collection of seemingly unrelated events. But when the local

police and the FBI—including the beguiling Special Agent Lila McTeague—can't seem to put it all together, Charlie must connect the dots before anyone else dies. In *The Witch's Tongue*, James D. Doss's complex and absorbing crime novel set on the Ute reservation in Southern Colorado, Charlie Moon's cleverness and his aunt Daisy Perika's intuition—not to mention the spellbinding story behind this hell of a day—share the limelight with the vibrant details of Native life and custom.

The Witch's Tongue: A Charlie Moon Mystery Moon Travel

Finalist for the Pulitzer Prize and the National Book Critics Circle Award *A New York Times Notable Book* *Winner of the Texas Book Award and the Oklahoma Book Award* This New York Times bestseller and stunning historical account of the forty-year battle between Comanche Indians and white settlers for control of the American West "is nothing short of a revelation...will leave dust and blood on your jeans" (The New York Times Book Review). Empire of the Summer Moon spans two astonishing stories. The first traces the rise and fall of the Comanches, the most powerful Indian tribe in American history. The second entails one of the most remarkable narratives ever to come out of the Old West: the epic saga of the pioneer woman Cynthia Ann Parker and her mixed-blood son Quanah, who became the last and greatest chief of the Comanches. Although readers may be more familiar with the tribal names Apache and Sioux, it was in fact the legendary fighting ability of the Comanches that determined when the American West opened up. Comanche boys became adept bareback riders by age six; full Comanche braves were considered the best horsemen who ever rode. They were so masterful at war and so skillful with their arrows and lances that they stopped the northern drive of colonial Spain from Mexico and halted the French expansion westward from Louisiana. White settlers arriving in Texas from the eastern United States were surprised to find the frontier being rolled backward by Comanches incensed by the invasion of their tribal lands. The war with the Comanches lasted four decades, in effect holding up the development of the new American nation. Gwynne's exhilarating account delivers a sweeping narrative that encompasses Spanish colonialism, the Civil War, the destruction of the buffalo herds, and the arrival of the railroads, and the amazing story of Cynthia Ann Parker and her son Quanah—a historical feast for anyone interested in how the United States came into being. Hailed by critics, S. C. Gwynne's account of these events is meticulously researched, intellectually provocative, and, above all, thrillingly told. Empire of the Summer Moon announces him as a major new writer of American history.

The basis of the 2014 award-winning feature-length documentary! A revealing and dramatic look at the inside of the American Space Program from one of its pioneers. Eugene Cernan was a unique American who came of age as an astronaut during the most exciting and dangerous decade of spaceflight. His career spanned the entire Gemini and Apollo programs, from being the first person to spacewalk all the way around our world to the moment when he left man's last footprint on the Moon as commander of Apollo 17. Between those two historic events lay more adventures than an ordinary person could imagine as Cernan repeatedly put his life, his family and everything he held dear on the altar of an obsessive desire. Written with New York Times bestselling author Don Davis, *The Last Man on the Moon* is the astronaut story never before told - about the fear, love and sacrifice demanded of the few men who dared to reach beyond the heavens for the biggest prize of all - the Moon.
