This volume brings together twenty-two of the most diverse and stimulating journal articles on classical and romantic performing practice, representing a rich vein of enquiry into epochs of music still very much at the forefront of current concert repertoire. In so

doing, it provides a wide range of subject-based scholarship. It also reveals a fascinating window upon the historical performance debate of the last few decades in music where such matters still stimulate controversy.

This well-illustrated and innovative book analyses convent culture in sixteenth-century Italy through the medium of three unpublished nuns' chronicles. It uses a comparative methodology of 'connected differences' to examine the intellectual and imaginative achievement of these nuns, and to investigate how they fashioned and preserved individual and convent identities by writing chronicles. The chronicles themselves reveal many examples of nuns' agency, especially with regard to cultural creativity, and show that convent traditions determined cultural

priorities and specialisms, and dictated the contours of convent ceremonial life.

A tradutora se utilizou da versão em inglês do respectivo trabalho, traduzida do italiano por J.C. Griffith em 1877 com uma edição também de G.Schirmer. Eu achei necessário, muitas vezes, usar material do original em italiano, apesar de não ser o proposito da tradutora. Na versão em inglês, além de perdermos grandes definições do original, o tradutor omite partes, que talvez não considerasse necessárias. Então, como complemento deste trabalho, aconselho todos os alunos a utilizarem o original em italiano para quaisquer consultas e duvidas. Vale aqui também uma breve “Bio” do autor , para que os leitores saibam de sua relevância como tratadista e Maestro di Canto. Francesco Lamperti nasceu em Savona. Foi professor desde 1859 no conservatório de Milão, onde ficou por um quarto de século. Dirigiu o Teatro Filodrammatico in Lodi. Em 1875, ele deixa de ser um escolar e se dedica ao ensino privado. Entre os Pupilos de sua escola de canto, podemos citar: Sophie Cruvelli, Emma Albani, Gottardo Aldighieri, Desirée Artot, Sona Aslanova, David Bispham, Italo Campanini, Virgilio Collini, Franz ferenczy, Friedeike Grum , Teresa Stolz, Marie van Zandt, Maria Waldmann, Herbert Witherspoon, e Lizzie Graham. Seus métodos de canto foram todos embasados na velha escola Italiana, sendo seu material didático muito importante para compreensão dessa escola , principalmente no século XIX. Seu filho Giovanni Battista Lamperti, também se tornou um grande mestre de canto.

A study of the networks of opera production and critical discourse

that shaped Italian cultural identity during and after Unification. Opera’s role in shaping Italian identity has long fascinated both critics and scholars. Whereas the romance of the Risorgimento once spurred analyses of how individual works and styles grew out of and fostered specifically “Italian” sensibilities and modes of address, more recently scholars have discovered the ways in which opera has animated Italians’ social and cultural life in myriad different local contexts. In *Networking Operatic Italy*, Francesca Vella reexamines this much-debated topic by exploring how, where, and why opera traveled on the mid-nineteenth-century peninsula, and what this mobility meant for opera, Italian cities, and Italy alike. Focusing on the 1850s to the 1870s, Vella attends to opera’s encounters with new technologies of transportation and communication, as well as its continued dissemination through newspapers, wind bands, and singing human bodies. Ultimately, this book sheds light on the vibrancy and complexity of nineteenth-century Italian operatic cultures, challenging many of our assumptions about an often exoticized country.

A safe and sure method of acquiring a practical knowledge of French, by Chrysostôme Dagobert Oxford University Press

Adelina Patti was the most highly regarded singer in history. She

earned nearly \$5,000 a night and had her own railway carriage. Yet a minor comic singer would perform for the cost of his food and a pair of shoes to wear on stage. John Rosselli's wide-ranging study introduces all those singers, members of the chorus as well as stars, who have sung Italian opera from 1600 to the twentieth century. Singers are shown slowly emancipating themselves from dependence on great patrons and entering the dangerous freedom of the market. Rosselli also examines the sexist prejudices against the castrati of the eighteenth century and against women singers. Securely rooted in painstaking scholarship and sprinkled with amusing anecdote, this is a book to fascinate and inform opera fans at all levels.

The fields of performance studies, empirical musicology, and the musicology of recordings have seen a tremendous development in recent years, shedding new light on the recent history of our performing tradition and conveying essential information to music practitioners, critics and audiences. This innovative work considers the notion of bel canto and the manner in which this

vibrant tradition lives in the records of Luisa Tetrazzini (1871-1940), one of the most celebrated sopranos ever. Tetrazzini, whose discographic career includes about 120 recordings, belongs to that generation of inspirational performers who heralded the dawn of a new era of music appreciation, alongside such iconic figures as Enrico Caruso, Adelina Patti and Nellie Melba. Drawing on a vast body of scholarship and a number of contemporary reviews, Massimo Zicari establishes Tetrazzini's role in the Italian operatic tradition and its much disputed set of performing conventions. His transcriptions of her recorded interpretations from Rossini, Donizetti, Bellini and Verdi will prove invaluable to singers and conductors interested in a tradition that goes back to legendary figures such as Jenny Lind and Maria Malibran. The author also discusses her voice quality and technique, tempo flexibility, her use of vibrato and portamento—features of musical performance that question several widely-held, normative views about aesthetics and interpretative tradition. The volume includes eighty-eight musical examples and its closing section consists of the vocal scores of thirteen operatic arias. The musical material (both examples and transcriptions) is entirely original. This unique approach seeks to combine an academic perspective with the making of the music, in the hope that the plea for originality may be enhanced by models from the past.

Lamperti - A ARTE DO CANTO (The Art of singing) Рипол Классик
 Ars canendi es una expresión acuñada en el XVII por Giacomo Carissimi que resume todo un mundo de teorías, técnicas y sensaciones. Este libro –que quiere ser ante todo guía, prontuario y pequeño compendio de nociones relacionadas con la voz, su producción, técnica y empleo– propone un recorrido por la voz como fenómeno físico y fuente de creación de sonidos, por los problemas que determina su emisión e higiene, por los aspectos que surgen a su alrededor, y por su inmediata conexión con el canto y los diversos estilos que han ido desarrollándose. ARTURO REVERTER, conocido crítico musical, analiza los distintos tipos vocales de acuerdo con los modernos criterios de clasificación y realiza un estricto y clarificador repaso a la terminología específica. Se estudian las diversas fases, pasos y mecanismos del proceso que convierte un fenómeno físico en artístico, y se

explican conceptos cuyo significado se desconoce o se conoce deficientemente con la inestimable ayuda de numerosos ejemplos musicales en el texto y grabaciones en el CD adjunto, breves muestras ilustrativas de los más grandes cantantes de la era del fonógrafo. Conceptos como messa di voce, sfumatura, portamento, fiato, ataque o coloratura quedan meridianamente claros. Un texto, en definitiva, que permitirá a muchos aficionados introducirse en los misterios de las distintas escuelas de canto y en los fundamentos vocales de los más grandes operistas.

Nuns' Chronicles and Convent Culture in Renaissance and Counter-Reformation Italy Rusconi Libri

How did castrati manage to amaze their eighteenth-century audiences by singing the same aria several times in completely different ways? And how could composers of the time write operas in a matter of days? The secret lies in the solfeggio tradition, a music education method that was fundamental to the training of European musicians between 1680 and 1830 a time during which professional musicians belonged to the working class. As disadvantaged children in orphanages learned the musical craft through solfeggio lessons, many were lifted from poverty, and the most successful were propelled to extraordinary heights of fame and fortune. In this first book on the solfeggio tradition, author Nicholas Baragwanath draws on over a thousand manuscript sources to reconstruct how professionals became skilled performers and composers who could invent and modify melodies at will. By introducing some of the simplest exercises in scales, leaps, and cadences that apprentices would have encountered, this book allows readers to retrace the steps of

solfeggio training and learn to generate melody by 'speaking' it like an eighteenth-century musician. As it takes readers on a fascinating journey through the fundamentals of music education in the eighteenth century, this book uncovers a forgotten art of melody that revolutionizes our understanding of the history of music pedagogy.

This 2004 Companion is a collection of specially commissioned essays on one of the most influential opera composers in the repertoire. The volume is divided into four parts, each exploring an important element of Rossini's life, his world, and his works: biography and reception; words and music; representative operas; and performance. Within these sections accessible chapters, written by a team of specialists, examine Rossini's life and career; the reception of his music in the nineteenth century and today; the librettos and their authors; the dramaturgy of the operas; and Rossini's non-operatic works. Additional chapters centre on key individual operas chosen for their historical importance or position in the present repertoire, and include *Tancredi*, *Il barbiere di Siviglia*, *Semiramide*, and *Guillaume Tell*. The last section, *Performance*, focuses on the history of Rossini's operas from the viewpoint of singing and staging, as well as the influence of editorial work on contemporary performance practice.
