 Jazz Play-A-Long for All Music

According to Larry Teal, the best method of learning to play the saxophone is to study with a competent teacher. Teal's studies were mostly of instruments other than the saxophone, but as a student at a Chautauqua summer session, he came under the influence of Georges Barrère, the eminent French flutist.

He played bass clarinet with the Detroit Symphony, but he continued to be absorbed by the saxophone. As a result of his acquired expertise and growing reputation, he was appointed to a full-time faculty position as a saxophone teacher by the University of Michigan -- the first ever to receive such an appointment from a major university. During his 21-year tenure, he attracted students from all over, thus exerting an ever widening influence on saxophone teaching and performing.

This collection of ten jazz etudes with accompanying audio provides intermediate to advanced alto sax students with a fun and effective way to learn to play in the specific odd meters: 3/4, 5/4, 7/4, and 9/4. Each etude is based on the chord progression of a different jazz standard, and includes an in-depth analysis of the melodic, harmonic, and rhythmic devices used. The addition of the

odd-time ingredient, along with completely original melodies and improv lines, converts what would be mere academic etudes to a delightful jazz listening and playing experience. If you want to improve your fluency in reading, performing, and improvising in odd time signatures, this is the book for you! A generous number of preparatory exercises gradually introduce the student to not only reading music, but also “hearing how phrases land within a measure” of odd time. Play-along audio tracks featuring a professional rhythm section (piano, bass, and drums) minus the sax track allow you to play as the soloist. Includes access to online audio.
