This is the inspiring story of an ordinary guy who achieved two great goals that others had told him were impossible. First, he set a record for the longest automobile journey ever made around the world, during the course of which he blasted his way out of minefields, survived a breakdown atop the Peak of Death, came within seconds of being lynched in Pakistan, and lost three of the five men who started with him, two to disease, one to the Vietcong. After that-although it took him forty-seven more years-Albert Podell set another record by going to every country on Earth. He achieved this by surviving riots, revolutions, civil wars, trigger-happy child soldiers, voodoo priests, robbers, pickpockets, corrupt cops, and Cape buffalo. He went around, under, or through every kind of earthquake, cyclone, tsunami, volcanic eruption, snowstorm, and sandstorm that nature threw at him. He ate everything from old camel meat and rats to dung beetles and the brain of a live monkey. And he overcame attacks by crocodiles, hippos, anacondas, giant leeches, flying crabs-and several beautiful girlfriends who insisted that he stop this nonsense and marry them. Albert Podell's Around the World in 50 Years is a remarkable and meaningful tale of quiet courage, dogged persistence, undying determination, and an uncanny ability to extricate himself from one perilous situation after another-and return with some of the most memorable, frightening, and hilarious adventure stories you have ever read.

"National Geographic Explorer-in-Residence Enric Sala takes readers on an unforgettable journey to 10 places where the ocean is virtually untouched by man, offering a fascinating glimpse into our past and an inspiring vision for the future. From the shark-rich waters surrounding Coco Island, Costa Rica, to the iceberg-studded sea off Franz Josef Land, Russia, this incredible photographic collection showcases the thriving marine ecosystems that Sala is working to protect. Offering a rare glimpse into the world's underwater Edens, more than 200 images take you to the frontier of the Pristine Seas expeditions, where Sala's teams explore the breathtaking wildlife and habitats from the depths to the surface--thriving ecosystems with healthy corals and a kaleidoscopic variety of colorful fish and stunning creatures that have been protected from human interference. With this dazzling array of photographs that capture the beauty of the water and the incredible wildlife within it, this book shows us the brilliance of the sea in its natural state."--
