Peterson's

Why did some offenses in
the South end in mob
lynchings while similar
crimes led to legal
executions? Why did still
other cases have
nonlethal outcomes? In
this well-researched and
timely book, Margaret
Vandiver explores the
complex relationship
between these two forms
of lethal punishment,
challenging the
assumption that

executions consistently grew out of and replaced lynchings. Vandiver begins by examining the incidence of these practices in three culturally and geographically distinct southern regions. In rural northwest Tennessee, lynchings outnumbered legal executions by eleven to one and many African Americans were lynched for racial caste offenses rather than for actual crimes. In contrast, in Shelby County, which included the growing city of Memphis, more men

were legally executed than lynched. Marion County, Florida, demonstrated a firmly entrenched tradition of lynching for sexual assault that ended in the early 1930s with three legal death sentences in quick succession. With a critical eye to issues of location, circumstance, history, and race, Vandiver considers the ways that legal and extralegal processes imitated, influenced, and differed from each other. A series of case studies demonstrates a parallel

between mock trials that were held by lynch mobs and legal trials that were rushed through the courts and followed by quick executions. Tying her research to contemporary debates over the death penalty, Vandiver argues that modern death sentences, like lynchings of the past, continue to be influenced by factors of race and place, and sentencing is comparably erratic.

National Public Employment Reporter Univ of California Press An unflinching exposé of how the family, juvenile, and criminal justice systems monetize the communities they purport to serve and trap them in crushing poverty Injustice, Inc. exposes the ways in which justice systems exploit America's history of racial and economic inequality to generate revenue on a massive scale. With searing legal analysis, Daniel L. Hatcher

uncovers how courts, prosecutors, police, probation departments, and detention facilities are abandoning ethics to churn vulnerable children and adults into unconstitutional factory-like operations. Hatcher reveals stark details of revenue schemes and reflects on the systemic racialized harm of the injustice enterprise. He details how these corporatized institutions enter contracts to make money removing children from their homes, extort fines and fees, collaborate

with debt collectors, seize property, incentivize arrests and evictions, enforce unpaid child labor, maximize occupancy in detention and "treatment" centers, and more. Injustice, Inc. underscores the need to unravel these predatory operations, which have escaped public scrutiny for too long.
