Giant Pandas (New & Updated Edition) Harper Collins

Two nations and a mother panda work together to nurture a “precious treasure” in the remarkable true story of a celebrity panda cub and his life at the Smithsonian National Zoo—and beyond. In August 2015, zookeepers at the National Zoo in Washington, DC, were thrilled to spot a tiny shadow on an ultrasound. For a species as rare as the giant panda, every new cub is cause for celebration. Zoo staff monitored mother Mei Xiang, and within days a newborn appeared, weighing in at just one

third of a pound. While Mei Xiang cradled her vulnerable infant, zookeepers monitored the pair day and night through cameras in the panda den, and some two million viewers logged on to the zoo website. First Ladies Michelle Obama and Peng Liyuan hosted a ceremony to announce the cub’s name: Bei Bei, meaning “precious treasure” in Mandarin Chinese. An instant celebrity, the cub captured hearts all over the world. But pandas in zoos are considered emissaries from the People’s Republic of China, the only country where they live in the wild. Four years after his birth in America, Bei Bei would embark on an important new mission. Graphically arresting,

packed with stunning full-color photographs, and vetted by the Smithsonian National Zoo, *Bei Bei Goes Home* paints a vivid picture of global conservation efforts—and international collaboration—in the guise of an ever-popular and beloved black-and-white ambassador. Here is the astonishing true story of Ruth Harkness, the Manhattan bohemian socialite who, against all but impossible odds, trekked to Tibet in 1936 to capture the most

mysterious animal of the day: a bear that had for countless centuries lived in secret in the labyrinth of lonely cold mountains. In *The Lady and the Panda*, Vicki Constantine Croke gives us the remarkable account of Ruth Harkness and her extraordinary journey, and restores Harkness to her rightful place along with Sacajawea, Nellie Bly, and Amelia Earhart as one of the great woman adventurers of all time. Ruth was the toast of 1930s New York, a dress designer newly married to a wealthy adventurer, Bill Harkness. Just weeks after their wedding, however, Bill decamped for China in hopes of becoming the first Westerner to capture a giant panda—an expedition on which many had embarked and failed miserably. Bill was also to fail in his quest, dying horribly alone in China and leaving his widow heartbroken and adrift. And so Ruth made the fateful decision to adopt her husband's dream as her own and set off on the adventure of a lifetime. It was not easy. Indeed, everything was against Ruth Harkness. In decadent Shanghai, the exclusive fraternity of white male explorers patronized her, scorned

her, and joked about her softness, her lack of experience and money. But Ruth ignored them, organizing, outfitting, and leading a bare-bones campaign into the majestic but treacherous hinterlands where China borders Tibet. As her partner she chose Quentin Young, a twenty-two-year-old Chinese explorer as unconventional as she was, who would join her in a romance as torrid as it was taboo. Traveling across some of the toughest terrain in the world—nearly impenetrable bamboo forests, slick and perilous mountain slopes, and boulder-strewn passages—the team raced against a traitorous rival, and was constantly threatened by hordes of bandits and hostile natives. The voyage took months to complete and cost Ruth everything she had. But when, almost miraculously, she returned from her journey with a baby panda named Su Lin in her arms, the story became an international sensation and made the front pages of newspapers around the world. No animal in history had gotten such attention. And Ruth Harkness became a hero. Drawing extensively on

American and Chinese sources, including diaries, scores of interviews, and previously unseen intimate letters from Ruth Harkness, Vicki Constantine Croke has fashioned a captivating and richly textured narrative about a woman ahead of her time. Part Myrna Loy, part Jane Goodall, by turns wisecracking and poetic, practical and spiritual, Ruth Harkness is a trailblazing figure. And her story makes for an unforgettable, deeply moving adventure.

From the Sibert medal-winning author of *Team Moon* and the bestselling *Girls Think of Everything* comes a riveting, timely account of panda conservation efforts in China, perfect for budding environmentalists and activists. Roughly a thousand years ago, an estimated 23,000 pandas roamed wild and free through their native China. But within the past forty years, more than fifty percent of the panda's already shrinking habitat has been destroyed by humans, leaving the beautiful and beloved giant panda vulnerable to extinction. Despite the seemingly insurmountable odds—poaching, habitat destruction, pollution, human overpopulation, and global climate change—the panda is

making a comeback. How? By humans teaching baby pandas how to be wild and stay wild.
