All of the kids at school stay away from "Bluish," but when Dreenie and Tuli learn to see beyond her differences, they discover a true friend Ten-year-old Natalie is different from the other kids at her New York City magnet school:

She is often absent, wears a knit cap, and uses a wheelchair. Her classmates have nicknamed her “Bluish” because her pale skin is tinted blue from chemotherapy. Dreenie is fascinated by and a bit frightened of Bluish—she watches her from afar and writes about her in her journal. As the school year progresses, Dreenie and her friend Tuli learn to see beyond Bluish’s differences and discover a fiercely independent, spirited girl who isn’t so different from them after

all. But it’s not easy being friends with someone who’s sick, and Dreenie doesn’t always know how to act. Hamilton delivers a lesson of compassion and demonstrates the power of friendship to overcome even the most trying of situations.

Manualisation of psychodynamic psychotherapy poses a formidable challenge, but may prove indispensable in the effort to disseminate short-term psychodynamic treatments to a wider patient community. In the case of childhood emotional disturbances,

the need for widely available treatments is particularly pressing especially once we pay heed to the emotional turmoil also underpinning many behavioural problems. Short-term Psychoanalytic Child Therapy (PaCT) is an emotion-oriented, play-focused treatment that aims to help the child to relinquish rigidly held maladaptive defence mechanisms that give rise to symptoms and interfere with healthy development. PaCT comprises twenty to

twenty-five psychotherapeutic sessions conducted in alternating settings (parent-child, child alone, parents alone), in which a relational theme is uncovered and worked through. Here, the authors have created a manual for PaCT, successfully retaining the complexity of each treatment whilst making the application accessible for a greater range of settings. This manual will be of use to trainees and practising therapists alike. *Promoting Authentic*

Engagement and Rigor Among Culturally and Linguistically Diverse Students Research & Education Assoc. The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white

fragility and “allows us to understand racism as a practice not restricted to ‘bad people’ (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration,

DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.
