Can the eurozone's emergence from crisis turn into a real economic recovery and a new vision for Europe's future? Or is Europe heading for a "lost decade" in terms of growth and a rise in old style nationalism? Kemal Dervis and Jacques Mistral have assembled an international group of economic analysts who provide perspectives on the most audacious supranational governance experiment in history. Will the crisis mark the end of the dream of "ever closer union" or lead to a renewed impetus to integrate, perhaps taking novel forms? Among the key issues explored are the · Onset, evolution, and ramifications of the euro crisis from the perspective of three countries especially hard hit—Greece, Italy, and Spain. · Concerns, priorities, and issues in France and Germany, the couple that has so far always driven European integration. · Effects and lessons in two key policy areas: banking union and social policies. The volume concludes with a possible renewed vision for the EU in the 2020s, including much greater political integration but where some countries may keep their national currencies and share less of their sovereignty. It is a vision of two Europes within one, ready for the twenty-first century.

Quo vadis Europa? And where are the independent performing arts heading? Driven by values such as tolerance and openness, what power do the independent performing arts possess in a climate dominated by Euroscepticism? Are those values essential for Europe and if so, how can they be strengthened? These were the questions focussed on at the IETM's Plenary Meeting Munich (International Network for Contemporary Performing Arts) which is documented in this bi-lingual book. Central to the reflexions around the role of the performing arts in Europe were the topics "Post-colonialism", "Diversity" and "Visions for the Future". Including contributions by Ulrike Guérot, Robert Menasse and Kathrin Röggla. Quo vadis Europa? Wohin die freie Szene? Welche Tragkraft haben in einem von Euroskepsis geprägten Klima die unabhängigen darstellenden Künste, deren Arbeitsbegriff sich auf Werte wie Toleranz und Offenheit stützt? Sind diese Werte konstituierend für Europa, wie können sie gestärkt werden? Diese Fragen standen im Mittelpunkt des Treffens des International Network for Contemporary Performing Arts (IETM) in München, das in diesem zweisprachigen Buch dokumentiert wird. Im Zentrum der Reflexionen rund um die Rolle der darstellenden Kunst in Europa stehen Postkolonialismus, Diversität sowie Visionen für die Zukunft. Mit Beiträgen von Ulrike Guérot, Robert Menasse und Kathrin Röggla.

Visions and Ideas of Europe during the First World War Manchester University Press

Since their creation, the European Union and the Council of Europe have worked to harmonise the justice systems of their member states. This project has been met with a series of challenges. European Criminal Law offers a compelling insight into the development and functions of European criminal law. It tracks the historical development of European criminal law, offering a detailed critical analysis of the criminal justice systems responsible for its implementation. While the rapid expansion and transnationalisation of criminal law is a necessary response to the growing numbers of free movement of persons and goods, it has serious implications for the rights of European citizens and needs to be balanced with rights protections. With its close analysis of secondary legislation and reliance on a wide variety of original sources, this book provides a thorough understanding of European Criminal Law and the institutions involved.

This book explores how regional political parties use Europe to advance their territorial projects in times of rapid state restructuring. It examines the ways in which decentralization and supranational integration have encouraged regional parties to pursue their strategies across multiple territorial levels. This book constitutes the first attempt to unravel the complexities of how nationalist and statewide parties manoeuvre around the twin issues of European integration and decentralization, and exploit the shifting linkages within multi-level political systems. In a detailed comparative examination of three cases – Scotland, Bavaria and Sardinia – over a thirty-year period, the book explores how integration has altered the nature of territorial party competition and identifies the limits of Europe for territorial projects. In addressing these issues, this work moves beyond present scholarship on multi-level governance to explain the diversity of regional responses to Europe. By providing important new insights and empirical research on the conduct of territorial party politics, and an innovative model of territorial mobilization in Europe, this book will be of great interest to students and scholars of comparative politics, European studies, regionalism and federalism, political parties and devolution.

Das neue Buch Vereinigte Staaten von Europa: Hoffnung, Alptraum, Utopie" ist im Villa Vigoni Editore | Verlag erschienen. Der Sammelband wird herausgegeben von Christiane Liermann Traniello (Generalsekretärin, Villa Vigoni), Matteo Scotto (Wissenschaftlicher Referent, Villa Vigoni) und Julian Stefanelli (Justiziar, Villa Vigoni). Seit Winston Churchills berühmter Züricher Rede im Jahr 1946 hat die Idee der Vereinigten Staaten von Europa den politischen Diskurs nie wirklich verlassen. Jedoch ist man sich hierzu nie ganz einig: mal ist es ein Modell, von dem man sich distanzieren sollte oder will, manchmal scheint es eine Vision, die man anstrebt, und andere sehen diese Vision lediglich in Ermangelung von Alternativen. Der Sammelband beschäftigt sich genau mit diesen Visionen in drei Kapiteln: "Überlegungen zu den gegenwärtigen Staaten", "Europäische Einheit" und "Überlegungen zueiner gemeinsamen politischen Vision des heutigen Europas"

Annotation On January 1, 1995, Austria and Sweden joined the European Union (EU). This book analyzes why these two countries joined at such a moment when in fact the EU's development towards neo-liberal economic policy - embodied in the Internal Market and convergence criteria of the Economic and Monetary Union - endangered the traditional Keynesian economic policy making, and

at a time when the steps towards a Common Foreign and Security Policy threatened their neutrality.

Europa heute: Massenerwerbslosigkeit, prekäre Arbeitsverhältnisse, soziale Enteignung und der Abbau demokratischer Rechte prägen besonders die Länder der europäischen Peripherie. Die Europäische Union und die Euro-Zone drohen bereits an diesen Ungleichgewichten auseinanderzubrechen. Karl Heinz Roth und Zisis Papadimitriou zeigen die Ursachen dieser fatalen Entwicklung auf und weisen nach, dass vor allem die exportgetriebene Niedriglohnpolitik der deutschen Hegemonialmacht und ihrer kerneuropäischen Verbündeten den Niedergang Europas zu verantworten hat. Doch die Autoren schlagen eine Alternative vor: entscheidende Reformen auf allen Ebenen des gesellschaftlichen, wirtschaftlichen und politischen Lebens hin zu einem egalitären Europa. Power and Influence after the Cold War Cambridge University Press

This book advocates a holistic reform of the current monetary and financial system dealing with the issues of money creation, central banks, loans, stock markets, tax justice, pension security and the international monetary system - "Bretton Woods II". Its innovative approach presents several alternatives for each cornerstone, in addition to introducing a participatory democratic process whereby sovereign citizens can themselves determine the rules governing the new financial and monetary system. With "democratic money conventions" in each municipality, where the elements of this new money system are discussed and decided on in a participatory manner, and a federal money covenant which then elaborates a template for a referendum about the future "money constitution", a true "sovereign" could progressively convert money from a financial weapon into a democratic tool. The envisaged democratic monetary system, by providing equal opportunities for every member of society to participate in the development of the "new rules of the game", turns money progressively into a public good which increases the freedom for all. The new system furthermore drives the enhancement of constitutional and relational values such as human dignity, solidarity, justice, sustainability, or democracy. Money should serve life and should serve the common good. The "Bank for the Common Good" Project, which was initiated in Austria by the author Christian Felber, represents a practical example of his proposals.

The global financial crisis which erupted in 2008 had an astounding yet varied impact on the European Union (EU), with some countries benefiting from the crisis while others suffered. Today many more and varied voices articulate increasing frustration, dissatisfaction, distrust and cynicism with the current state of affairs in Europe. This book addresses the challenges and failures of the European construction today from an interdisciplinary perspective. It seeks to identify the deeper, structural causes of the failure of the European project by investigating a variety of aspects, placing Europe in a historical perspective and interpreting its trajectory in a global context. In doing so it argues that the EU, the unfinished European polity, the single European market, and the set of supranational institutions, are not sustainable in their present forms. This text will be of key interest to students and practitioners of international relations, economics, European studies, democracy and contemporary European and global challenges.

Since 1997, FORUM is an integral part of the journal landscape of European Studies. In addition to facts of contemporary history, it offers deep insights into the history of ideas, reflects current discussions, and provides reviews of books on Central and Eastern European history. Especially on the history of ideas and contemporary history it offers more than just history -- e.g. interdisciplinary discussions by political scientists, literary, legal, and economic scholars and philosophers. FORUM sees itself as a bridge between East and West. Through the translation and publication of documents and contributions from Russian, Polish, and Czech researchers it offers the Western reader insight into the scientific discourse within Eastern Europe. Volume 18, Issue 1: The way the Federal Republic of Germany dealt with its past is seen by some as a role model for many post-authoritarian and post-totalitarian transition countries in East and West, despite some downsides of the long process of coping with the past after the German "zero hour?". The current FORUM issue focuses on the comparison of the specifics of German memory culture with those of the Eastern European countries, especially Poland and Russia, since the beginning of their de-Stalinization debates. Seit 1997 ist das FORUM fester Bestandteil der Zeitschriftenlandschaft der Osteuropaforschung. Neben Fakten der Zeitgeschichte bietet es tiefe Einblicke in die Ideengeschichte, spiegelt aktuelle Diskussionen wider und liefert Rezensionen zu Werken der mittel- und osteuropäischen Zeitgeschichte. Gerade in den Rubriken Ideengeschichte und Zeitgeschichte bietet es mehr als "nur" Geschichte -- fächerübergreifend kommen u.a. Politologen, Literatur-, Rechts- und Wirtschaftswissenschaftler sowie Philosophen zu Wort. Das FORUM versteht sich als Brücke zwischen Ost und West. Durch die Übersetzung und Veröffentlichung von Dokumenten und Beiträgen aus dem Russischen, Polnischen und Tschechischen bietet es dem westlichen Leser Einblicke in den wissenschaftlichen Diskurs Osteuropas. Heft 1/2014: Der lange Abschied vom totalitären Erbe Das Modell der bundesrepublikanischen Vergangenheitsbewältigung gilt als Vorbild für viele postautoritäre bzw. posttotalitäre Transformationsstaaten in Ost und West, ungeachtet mancher Schattenseiten des langwierigen Prozesses der deutschen Vergangenheitsbewältigung nach der "Stunde Null". Das aktuelle Forum-Heft vergleicht in seinem thematischen Schwerpunkt die

Spezifika der deutschen Erinnerungskultur mit denjenigen der osteuropäischen Länder, vor allem Polens und Russlands, seit dem Beginn der Entstalinisierungsdebatten.

Political Parties and European Integration Columbia University Press

This book provides an interdisciplinary and comprehensible introduction to bioeconomy. It thus provides basic knowledge for understanding a transformation process that will shape the 21st century and requires the integration of many disciplines and industries that have had little to do with each other up to now. We are talking about the gradual and necessary transition from the age of fossil fuels, which began around 200 years ago, to a global economy based on renewable raw materials (and renewable energies). The success of this transition is key to coping with the challenge of climate change. This book conceives the realization of bioeconomy as a threefold task – a scientific, an economic and an ecological one. · Where does the biomass come from that we need primarily for feeding the growing world population but also for future energy and material use? How can it be processed in biorefineries and what role does biotechnology play in this regard? · Which aspects of innovation economics need to be considered, which economic aspects of value creation, competitiveness and customer acceptance are important? · What conditions must a bioeconomy fulfil in order to enable a sustainable development of life on earth? May it be regarded as a key to further economic growth or shouldn't it rather orient itself towards the ideal of sufficiency? By dealing with these questions from the not necessarily consistent perspectives of proven experts, this book provides an interdisciplinary overview of a dynamic field of research and practice that raises more questions than answers and thus may nurture the motivation of many more people to seriously engage for the realization of a bioeconomy.

This book analyses the supposed erosion of the authority of EU law from various perspectives: legislation, jurisprudence of national supreme and constitutional courts, enforcement of Single Market rules, of EMU rules and of the rule of law. It discusses the interdependence between the perceived legitimacy of the European project and respect for the authority of EU law.

European integration is an open-ended, ongoing process which has been deeply challenged by integral world capitalism. This study explores the present EU foundational dilemma, looking at the problematic relationship between the ideal model of integration and the reality of the 21st century. Including contributions from leading theorists, this volume explores the ways and extent to which the present European crisis could create a politico-legal space for new possibilities and opportunities for action. The authors discuss the current role of the EU, and whether it aspires to be a democratic polity or a functional organization based on inter-governmental bargaining. The chapters question whether the future of European integration after the crisis will be paved by decisions which conflict with its Treaty basis, and how it might come up with alternatives which would do more than echo the compulsions of the global market. Issues are analysed from a historical perspective to see what can be learnt from its past and to explore the options for the future. With contributions from prominent international legal and political scholars, the book will be of interest to academics, students and policy-makers working in these areas.

Given the destruction and suffering caused by more than four years of industrialised warfare and economic hardship, scholars have tended to focus on the nationalism and hatred in the belligerent countries, holding that it led to a fundamental rupture of any sense of European commonality and unity. It is the central aim of this volume to correct this view and to highlight that many observers saw the conflict as a 'European civil war', and to discuss what this meant for discourses about Europe. Bringing together a remarkable range of compelling and highly original topics, this collection explores notions, images, and ideas of Europe in the midst of catastrophe.

Civil, economic, political and social rights are at the centre of the concept of European citizenship. In this volume, the focus is on the political-constitutional dimension of European citizenship, which is discussed from the perspective of several disciplines – history, constitutional law and political science. It provides a multi-faceted account of the evolution of European citizenship and its institutionalization, explaining why certain rights came into existence at a certain time and focussing on several key actors involved, such as the European Court of Justice.

Mit dem Amtsantritt Matteo Renzi im Februar 2014 waren in Italien große Hoffnungen verbunden. Dem jungen Ministerpräsidenten gelang es zunächst tatsächlich, eine Aufbruchsstimmung zu erzeugen, die dem krisen- und skandalgeschüttelten Land einen tiefgreifenden Wandel verhieß. Zunächst schien es, als könne die unvollendete Zweite in eine grundlegend reformierte Dritte Republik transformiert werden: Italia 3.0. Dieser Prozess ist durch das im Dezember 2016 gescheiterte Verfassungsreferendum zunächst ins Stocken geraten. Gleichwohl überdauern einige Neuerungen der Ära Renzi seinen zwischenzeitlichen Rücktritt und zahlreiche Reformprojekte werden weiterverfolgt. Die Autorinnen und Autoren des Bandes untersuchen anhand der Veränderungen der Institutionen, des Parteiensystems, der Entscheidungsprozesse und der politischen Kultur sowie anhand aktueller Reformen in ausgewählten Politikfeldern in den drei Dimensionen der Politik (Polity, Politics und Policy), ob bzw. inwiefern der erhoffte Aufbruch tatsächlich stattgefunden hat, in welchen Bereichen die italienische Wirklichkeit hingegen in den alten Strukturen und Handlungsmustern verhaftet blieb und wo eine zweite Regierung Renzi oder andere zukünftige Regierungen anknüpfen könnten.
