Springer  
In 1929 women were declared 'persons' under the

British North America Act. Seventy years later a similar move is afoot to establish constitutional personhood for lesbian, gay, bisexual, transsexual, and transgendered people.

*The Good Life*  
JHU Press  
A unique and comprehensive collection of 26 literary essays that explore the rich cultural history of black women in America. Black women's writing has finally emerged as one of the

most dynamic fields of American literature. Here, leading literary critics—both male and female, black and white—look at fiction, nonfiction, poetry, slave narratives, and autobiographies in a totally new way. In essence, they reconstruct a literary history that documents black women as artists, intellectuals, symbol makers, teachers, and survivors. Important

writers whose work and lives are explored include Toni Morrison, Gloria Gaynor, Maya Angelou, and Alice Walker, and the fascinating list of essays range from Nellie Y. McKay's "The Souls of Black Women Folk in the Writings of W. E. B. Du Bois" to Jewelle L Gomez's very personal tribute to Lorraine Hansberry as a dramatist and crusader for social justice. Henry Louis Gates Jr., the editor

of this anthology and a noted authority on African-American literature, has provided a thought-provoking introduction that celebrates the experience of "reading black, reading feminist." A penetrating look at women's writing from a unique perspective, this superb collection brings to light the rich heritage of literary creativity among African-

American women. "Why is the fugitive slave, the fiery orator, the political activist, the abolitionist always represented as a black man? How does the heroic voice and heroic image of the black woman get suppressed in a culture that depended on her heroism for survival?"—Mary Helen Washington, from her essay in *Reading Black, Reading Feminist*

Strikingly argued, richly researched, and methodologically sound, this wide-ranging look at how choices about sex triumphed over established class systems and artificial racial boundaries supplies a refreshing contribution to the history of early Louisiana.  
*Modern Slavery*  
Ashgate Publishing, Ltd.

God, Sex, and Politics examines both sides of the church controversy over homosexuality to consider the ways in which people develop, in everyday thought and interaction, their beliefs about God and justice. Dawne Moon explores how members of Protestant congregations determine what is just and what is not, what is right and what is wrong, what is loving and what is sinful. Through this compelling

work we learn that the considerable turmoil surrounding homosexuality in churches has less to do with homosexuality than with the fear of weakening the church's spiritual, communal solidarity. We learn too how the church mirrors the secular world—the fear of division and politics leads members to avoid conflict in the congregations Moon examines. And so, the

Protestants who are the subject of her study avoid debating the key issue of whether homosexuality is sinful because of its potentially polarizing effects. The religious culture Moon uncovers is ultimately critical of politics and of the intense moral and social discord that members believe it entails. *God, Sex, and Politics* will be of enormous value to sociologists of religion and anyone

interested in religious controversies over sexuality. **Emerging Infectious Diseases** John Wiley & Sons The essays in this collection provide a coherent perspective on the comparative history of European colonialism in the Americas through their treatment of four central themes: the gendered implications of life on colonial frontiers; non-European women's relationships to Christian

institutions; the implications of race-mixing; and social networks established by women of various ethnicities in the colonial context. Geographic regions covered include the Caribbean, Brazil, English America, and New France. **Social Security Bulletin** Columbia University Press Controversy over gendered pronouns, for example using the generic "he," has been

a staple of feminist arguments about patriarchal language over the last 30 years, and is certainly the most contested political issue in Western feminist linguistics. Most accounts do not extend beyond policy issues like the official institution of non-sexist language. In this volume, Anna Livia reveals continuities both before and after the sexist language refore

movement and shows how the creative practices of pronoun use on the part of feminist writers had both aesthetic and political ends. Livia uses the term "pronoun envy" ironically to show that rather being a case of misguided envy, battles over gendered language are central to feminist concerns. Livia examines a broad corpus of written texts in English and

French, concentrating on those texts which problematize the traditional functioning of the linguistic gender system. They range from novels and prose poems to film scripts and personal testimonies, and in time from the 19th century to the present. Some withhold any indication of gender; others have non-gendered characters. Livia's goal is two-fold; to help bridge the divide between linguistic and

literary analysis, and to show how careful study of the manipulation of linguistic gender in these texts informs larger concerns. This fresh and highly interdisciplinary work lies at the intersection of several vital areas, including language and gender, sociolinguistics, and feminist literary analysis. Pronoun Envy : Literary Uses of Linguistic Gender Univ of Wisconsin Press

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of

the city itself, while celebrating New York as both a place and an idea. The Passionate Fictions of Eliza Haywood University of Chicago Press Controversy over gendered pronouns, for example using the generic "he," has been a staple of feminist arguments about patriarchal language over the last 30 years, and is certainly the most contested political issue in Western feminist

linguistics. Most accounts do not extend beyond policy issues like the official institution of non-sexist language. In this volume, Anna Livia reveals continuities both before and after the sexist language reform movement and shows how the creative practices of pronoun use on the part of feminist writers had both aesthetic and political ends. Livia uses the term "pronoun envy" ironically to show that rather being a case of misguided envy, battles over gendered language are central to feminist concerns. Livia examines a broad corpus of written texts in English and French, concentrating on those texts which problematize the traditional functioning of the linguistic gender system. Monthly Review; Or, New Literary Journal Univ of Wisconsin Press  
"Taking on nothing less than the formation of modern genders and sexualities, Thomas A. King develops a history of the political and performative struggles that

produced both normative and queer masculinities in the seventeenth and eighteenth centuries. The result is a major contribution to gender studies, gay studies, and theater and performance history. The Gendering of Men, 1600-1750 traces the transition from a society based on alliance, which had subordinated all men, women, and boys to higher ranked males,

to one founded in sexuality, through which men have embodied their claims to personal and political privacy. King proposes that the male body is a performative production marking men's resistance to their subjection within patriarchy and sovereignty. Emphasizing that categories of gender must come under historical analysis, The Gendering of Men explores

men's participation in an ongoing struggle for access to a universal manliness transcending other biological and social differentials." -Pub. desc. v.1. Oxford University Press, USA Now available in English for the first time, *Sexual Life in Sweden* is a classic piece of sex research by one of Sweden's most distinguished social scientists. Sponsored by the Royal Commission on Sex Education more than thirty years ago, it remains the only study of sexual

behavior in a randomly selected adult population sample ever funded by a government. Because an astonishing response rate was achieved (91 percent) during the course of Zetterberg's research, the claim that Sweden is one of the few countries where generalizations about national sexual behavior can be made may be stated with confidence. Zetterberg's study matches the gender of

interviewers to that of subjects. From a theoretical perspective, Zetterberg analyzes the change in Sweden from a "restrictive" to a "contraceptive" society. The study makes it clear that, with over 1,000 acts of intercourse for every live birth, 90 percent of sexual activity between consenting adults in modern Sweden does not result simply for procreation. Nevertheless, the research

yields a picture of a highly responsible society. Zetterberg explores the emergence of two powerful new norms: "when having sex, you must use contraception," and "when in an existing sexual relationship, you must not start another one." He also examines the issue of abortion as part of a concept of social justice. The author compares the behavior of those who experience an

unwanted pregnancy with those who do not, and explains that abortion is seen by Swedes as part of the provision of the welfare and social justice system. Included is an examination of the sexual behavior of young people—the age of their first sexual experience, the circumstances surrounding it, whether positive parental involvement in their children's lives

has any influence on their sexual conduct, and sex education programs in the schools. This translation of Zetterberg's study has been prepared by British sociologist Graham Fennell, who also authored a new introduction positioning Zetterberg's work in the history of sex research and comparing its findings with contemporary studies in Scandinavia, Western Europe, and North

America. In light of the ongoing controversies about sex education, its conclusions remain relevant to policy discussions today. *The Crisis in Sociology* Routledge The second edition of *American Sexual Histories* features an updated collection of sixteen articles and their corresponding primary sources that investigate issues related to human

sexuality in America from the colonial era to the present day. Fully updated with ten new chapters, featuring recently published essays by prominent scholars in the field Provides readers with the source documents that historians have analyzed in their articles Allows readers to see how historians craft arguments based on available sources Encourages readers to evaluate

historical documents, test the interpretations of historians, and draw their own conclusions *McKinney's Consolidated Laws of New York Annotated* Sourcebooks, Inc. "Gender systems pervade and regulate human lives—in law courts and operating rooms, ballparks and poker clubs, hair-dressing salons and kitchens, classrooms and playgroups. . .

. Exactly how gender works varies from culture to culture, and from historical period to historical period, but gender is very rarely not at work. Nor does gender operate in isolation. It is linked to other social structures and sources of identity." So write women's studies pioneer Catharine R. Stimpson and anthropologist Gilbert Herdt in their introduction to *Critical Terms for the Study of Gender*,

laying out the wide-ranging nature of this interdisciplinary and rapidly changing field. The sixth in the series of “Critical Terms” books, this volume provides an indispensable introduction to the study of gender through an exploration of key terms that are a part of everyday discourse in this vital subject. Following Stimpson and Herdt’s careful account of the evolution of gender studies and its relation to

women’s and sexuality studies, the twenty-one essays here cast an appropriately broad net, spanning the study of gender and sexuality across the humanities and social sciences. Written by a distinguished group of scholars, each essay presents students with a history of a given term—from bodies to utopia—and explains the conceptual baggage it carries and

the kinds of critical work it can be made to do. The contributors offer incisive discussions of topics ranging from desire, identity, justice, and kinship to love, race, and religion that suggest new directions for the understanding of gender studies. The result is an essential reference addressed to students studying gender in very different disciplinary contexts. New York Magazine

Westminster John Knox Press Siddharth Kara is a tireless chronicler of the human cost of slavery around the world. He has documented the dark realities of modern slavery in order to reveal the degrading and dehumanizing systems that strip people of their dignity for the sake of profit—and to link the suffering of the enslaved to the day-to- day lives of consumers in the West. In	Modern Slavery, Kara draws on his many years of expertise to demonstrate the astonishing scope of slavery and offer a concrete path toward its abolition. From labor trafficking in the U.S. agricultural sector to sex trafficking in Nigeria to debt bondage in the Southeast Asian construction sector to forced labor in the Thai seafood industry, Kara depicts the	myriad faces and forms of slavery, providing a comprehensiv e grounding in the realities of modern-day servitude. Drawing on sixteen years of field research in more than fifty countries around the globe—including reveatory interviews with both the enslaved and their oppressors—K ara sets out the key manifestations of modern slavery and how it is embedded in global supply chains.
--	---	--

Slavery offers immense profits at minimal risk through the exploitation of vulnerable subclasses whose brutalization is tacitly accepted by the current global economic order. Kara has developed a business and economic analysis of slavery based on metrics and data that attest to the enormous scale and functioning of these systems of exploitation. Beyond this data-driven

approach, Modern Slavery unflinchingly portrays the torments endured by the powerless. This searing exposé documents one of humanity's greatest wrongs and lays out the framework for a comprehensive plan to eradicate it. Critical Terms for the Study of Gender Transaction Publishers Originally published in 1989. This is the first history of modern

France to explore the long-term origins of the libertarian revolt. It traces the moral history from the eighteenth century to the 1960s, examining the questions of marriage and divorce, homosexuality, and sexual morality. It includes detailed chapters on the Marquis de Sade, Charles Fourier, André Gide, and Daniel Guérin in order to illustrate the changing legislation,

popular thought and public opinion. The result is an enlightening and provocative account which will be of interest to students of modern French history, moral thought and the history of sexual attitudes.

Hopkins, Oprah's Makeover Guy and author of Staging Your Comeback: A Complete Beauty Revival for Women Over 45 By the time you hit forty, you have a pretty good idea of what you want when it comes to dating, love, and romance. But how do you get it? HOW TO DATE LIKE A GROWN-UP will tell you everything you need to know to find the love you're looking for (even after a long

marriage or other dating hiatus), how to get married (if that's what you're after), or how to just get lucky. Dating expert, bestselling author, and TV personality Lisa Daily (Daytime) uses her hilarious and compassionate voice to offer up realistic, counterintuitive advice that will help you finally find the relationship (and the guy) you deserve, including: Where (and how) to meet better men 5 easy tips to

chat up any stranger What you may be doing to make yourself a magnet for losers How to deal with the pitfalls and fringe benefits of dating younger men Little-known secrets to dramatically improve your dating odds How to break it to your kids that you have a better social life than they do A foolproof way to find the best dating site for you How to face getting naked in front of someone new for the first time How

to accommodate changes in your body (and the little blue pill) The one simple thing you can do in the bedroom that will make a man speed up his marriage proposal Why men are rushing to the altar, and why you might just want to wait Dating: It's Not Just For Kids Anymore New York Magazine State University of New York Press New York magazine was born in 1968 after a run as

an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as

both a place and an idea.  
**God, Sex, and Politics**  
Routledge  
Through an analysis of the poems Chaucers wordes Unto Adam, His Owne Sciveyn, Troilus and Criseyde, the Legend of Good Women, the Man of Law's Tale, the Wife of Bath's Tale and its Prologue, the Clerk's Tale, and the Pardoner's Tale, Carolyn Dinshaw offers a provocative argument on medieval sexual

constructs and Chaucer's role in shaping them. Operating under the assumption that people read and write certain ways based upon society's demands, Dinshaw examines gender identity and the effects of a patriarchal society. The focal point of Dinshaw's argument is the idea that the literary text can be seen as the female body while any literary activities upon

the text are decidedly male. Through a series of six provocative essays, Dinshaw argues that Chaucer was not only aware that gender is a social construction, but that he self-consciously worked to oppose the dominance of masculinity that a patriarchal society places on texts by creating works in which gender identity and hierarchy were more fluid.
