PETERSON WEAVER

The Story of Britain Constable

Bestseller! Now with extended coverage of modern British history Britain's past brought right up to date This book is a riotous, irreverent account of the people and events that have shaped Britain. Always get those kings and queens confused? Never sure what happened when? You need this book. Inside you'll find rip-roaring stories of power-mad kings, executions, invasions, high treason, global empire-building, and forbidden love - not bad for a nation of stiff upper lips. Praise for British History For Dummies "It puts the history of Britain into the sort of perspective I've always hoped for." —Terry Jones, Monty Python star and co-author of *Who Murdered Chaucer?* "Honestly—you can't beat British History For Dummies." —Bernard Cornwell, author of the Sharpe novels Discover how to Famous and infamous Britons Key royal, military, and cultural eras Power in Britain: Who lost it, who took it The rise and fall of Britain's global empire History as it connects to Britain today

The History of Britain Random House

Chronicles the history of Britain from Roman times to the present day.

An Illustrated History of Britain Black Inc.

This lift-the-flap book for older children covers life in Britain from Anglo-Saxon invasions to the 21st century.

History of Britain and Ireland John Wiley & Sons

Covering over 2,000 years in under 200 pages, Jeremy Black takes the reader on a breathless tour of British history, providing invaluable context for students of any period. A truly British overview, this book covers all four constituent parts of the UK, as

well as migration to and from Britain, and introduces questions of national identity and collective memory. The author begins by considering how the geography of Britain has influenced its development and goes on to examine the formation of its society and political culture. Resisting the Whiggish tradition of triumphalist national histories, Jeremy Black provides a balanced and sensitive account in his trademark pithy style. This new edition has been considerably revised and expanded, bringing the coverage right up to the present day, including what the Scottish referendum on independence says about the nature of modern 'Britishness'.

The Times History of London (Text Only) Times Books

The only other countries in Europe so riven by geography and history are Italy and Germany, and neither has the most profound divide of all - the 1,000-year-old gulf that separates the ordinary English from their elites. In *The Shortest History of England*, James Hawes journeys from Caesar to Brexit via Conquest, Empire and world war and discovers an England very different to the standard vision. The stable island fortress, stubbornly independent, the begetter of parliaments and globe-spanning empires, is riven by an ancient fault line that pre-dates even the Romans; its fate has ever been bound up with that of its neighbours, whether the English like it or not; and, for the past 1,000 years, it has harboured a class system like nowhere else on Earth. There has never been a better time to understand why England is the way it is, and there is no better guide. 'No one writes history as well as James Hawes or uses the past to make sense of the present so skillfully. This is an urgent and electrifying work that takes you to the heart of England's sickness. Do yourself a favour and read it.'—Nick Cohen 'Hawes's view of English history is sharp and vivid and extremely persuasive'—Philip Pullman 'A sparkling little book, which really does begin at the beginning ... might be

slipped into a prime ministerial red box' —Standpoint 'Sweeping and confident ... has a frightening urgency' —Observer 'Excellent ... Hawes knows what he's on about and his conclusions are measured, but he favours clear, concise prose over dense academese. He has a sense of humour, and a sharp eye for similarities between then and now' —Spectator [An Advanced History of Great Britain from the Earliest Times to 1923](#) W. W. Norton & Company

From the bestselling author of *A History of the World in 21 Women* They were famous queens, unrecognised visionaries, great artists and trailblazing politicians. They all pushed back boundaries and revolutionised our world. Jenni Murray presents the history of Britain as you've never seen it before, through the lives of twenty-one women who refused to succumb to the established laws of society, whose lives embodied hope and change, and who still have the power to inspire us today.

[Victorious Century](#) London : BBC ; Toronto : M & S

This volume of *The Cambridge History of the Book in Britain* presents an overview of the century-and-a-half between the death of Chaucer in 1400 and the incorporation of the Stationers' Company in 1557. The profound changes during that time in social, political and religious conditions are reflected in the dissemination and reception of the written word. The manuscript culture of Chaucer's day was replaced by an ambience in which printed books would become the norm. The emphasis in this collection of essays is on the demand and use of books. Patterns of ownership are identified as well as patterns of where, why and how books were written, printed, bound, acquired, read and passed from hand to hand. The book trade receives special attention, with emphasis on the large part played by imports and on links with printers in other countries, which were decisive for the development of printing and publishing in Britain.

History of Britain in Maps Infobase Publishing

'Scurrilous, scandalous and frequently disgusting. I absolutely loved it' James O'Brien Twitter hero James Felton brings you the painfully funny history of Britain you were never taught at school, fully illustrated and chronicling 52 of the most ludicrous, weird and downright 'baddie' things we Brits* have done to the world since time immemorial - before conveniently forgetting all about them, of course. Including: - Starting wars with China when they didn't buy enough of our class A drugs - Inventing a law so we didn't have to return objects we'd blatantly stolen from other countries - Casually creating muzzles for women - Almost going to war over a crime committed by a pig - And a brand new chapter just for the paperback! 52 TIMES BRITAIN WAS A BELLEND will complete your knowledge of this sceptred isle in ways you never expected. So if you've ever wondered how we put the 'Great' in 'Great Britain', wonder no more . . . *And when we say British, for the most part we unfortunately just mean the English. JAMES FELTON'S "SUNBURN" ('AN ASTONISHING PIECE OF WORK' James O'Brien; 'FUNNY, SCATHING AND WITTY' IAN DUNT) IS OUT NOW A History of England from the Earliest Times to the Death of Queen Victoria Times Books

Follow the development, decline and later revival of Britain's iconic railways with bestselling railway author Julian Holland. Discover the fascinating history of our remarkable railway heritage through expert commentary, stunning photographs and archive material from a lifetime of railway research."

A History of Modern Britain Penguin UK

The heroes and villains, triumphs and disasters of English history are instantly familiar—from the Norman Conquest to Henry VIII, Queen Victoria to the two world wars. But to understand their full significance we need to know the whole story. A Short History of England sheds new light on all the key individuals and events in English history by bringing them together in an enlightening account of the country's birth, rise to global prominence, and then partial eclipse. Written with flair and authority by Guardian columnist and LondonTimes former editor Simon Jenkins, this is the definitive narrative of how today's England came to be. Concise but comprehensive, with more than a hundred color illustrations, this beautiful single-volume history will be the standard work for years to come.

The Companion to British History Allan Lane

(Please note that this ebook does not include illustrations.) The Times History of London is a narrative feast for anyone – visitor and Londoner alike – with an interest in this great and complex city.

A Short History of Britain Penguin

British & Irish history.

The English and Their History Simon and Schuster

The first volume in this history of Britain tells the story of Britain from the time of the earliest settlements discovered in the Orkneys to the death of Queen Elizabeth the first.

An Utterly Impartial History of Britain, Or, 2000 Years of Upper-class Idiots in Charge Cambridge University Press

Discover the pivotal political, military, and cultural events that shaped British and Irish history, from Stone Age Britain to the present day, in this revised and updated ebook. Combining over 700 photographs, maps, and artworks with accessible text, the History of Britain and Ireland is an invaluable resource for families, students, and anyone seeking to learn more about the fascinating story of the England, Scotland, Wales, and Ireland. Spanning six distinct periods of British and Irish history, this ebook is the best way to find out how Britain transformed with the Norman rule, fought two world wars in the 20th century, and faced new economic challenges in the 21st century. DK's visual guide places key figures - from Alfred the Great to Winston Churchill - and major events - from Roman invasion to the Battle of Britain - in their wider context, making it easier than ever before to learn how they influenced Britain and Ireland's development through the age of empire into the modern era.

The Oxford History of Britain Stacey International Publishers Combining compelling narrative history with helpful chronology, A People's History of Britain tells the story - from the Romans to the present day - of the small northern islands off the coast of Europe which became the world's largest empire. Full of kings, queens and battles and the heroic individuals who created turning points in history, it is packed with anecdotes about British scientists, explorers, soldiers, traders, writers and artists.

The Hollow Crown PublicAffairs

Many of us were put off history by the dry and dreary way it was taught at school. Back then --The Origins of the Industrial Revolution' somehow seemed less compelling than the chance to test the bold claim on Timothy Johnson's --Shatterproof' ruler. But

here at last is a chance to have a good laugh and learn all that stuff you feel you really ought to know by now... In this --Horrible History for Grown Ups' you can read how Anglo-Saxon liberals struggled to be positive about immigration; --Look I think we have to try and respect the religious customs of our new Viking friends -" oi, he's nicked my bloody ox!' Discover how England's peculiar class system was established by some snobby French nobles whose posh descendents still have wine cellars and second homes in the Dordogne today. And explore the complex socio-economic reasons why Britain's kings were the first in Europe to be brought to heel; (because the Stuarts were such a useless bunch of untalented, incompetent, arrogant, upper-class thickoes that Parliament didn't have much choice.) A book about then that is also incisive and illuminating about now, --2000 Years of Upper Class Idiots in Charge', is an hilarious, informative and cantankerous journey through Britain' fascinating and bizarre history. As entertaining as a witch burning, and a lot more laughs.

The Penguin Illustrated History of Britain & Ireland St.

Martin's Griffin

A richly detailed history of Britain at its imperial zenith, revealing the simmering tensions and explosive rivalries beneath the opulent surface of the late Victorian and Edwardian eras. The popular memory of Britain in the years before the Great War is of a powerful, contented, orderly, and thriving country. Britain commanded a vast empire: she bestrode international commerce. Her citizens were living longer, profiting from civil liberties their grandparents only dreamed of and enjoying an expanding range of comforts and pastimes. The mood of pride and self-confidence can be seen in Edward Elgar's Pomp and Circumstance marches, newsreels of George V's coronation, and London's great Edwardian palaces. Yet beneath the surface things were very different In The Age of Decadence, Simon Heffer exposes the contradictions of late-Victorian and Edwardian Britain. He explains how, despite the nation's massive power, a mismanaged war against the Boers in South Africa created profound doubts about her imperial destiny. He shows how attempts to secure vital social reforms prompted the twentieth century's gravest constitutional crisis—and coincided with the worst industrial unrest in British history. He describes how politicians who conceded the vote to millions more men disregarded women so utterly that female suffragists' public protest bordered on terrorism. He depicts a

ruling class that fell prey to degeneracy and scandal. He analyses a national psyche that embraced the motor-car, the sensationalist press, and the science fiction of H. G. Wells, but also the nostalgia of A. E. Housman.

A Short History of England History of Britain

'Fascinating and timely. Required reading for every developer, planner or councillor who holds London in trust today' Griff Rhys Jones 'Accessible, clear and readable' Rowan Moore, *The Observer*
 _____ LONDON: a settlement founded by the Romans, occupied by the Saxons, conquered by the Danes and ruled by the Normans. This unremarkable place - not even included in the Domesday Book - became a medieval maze of alleys and courtyards, later to be chequered with grand estates of Georgian splendour. It swelled with industry and became the centre of the largest empire in history. And rising from the rubble of the Blitz, it is now one of the greatest cities in the world. From the prehistoric occupants of the Thames valley to the preoccupied commuters of today, Simon Jenkins brings together the key events, individuals and trends in London's history to create a matchless portrait of the capital. _____ 'A vivid and deeply well-informed account of London's history' Charles Saumarez Smith, Professor of Cultural History, Queen Mary

University of London 'Extremely informative and witty' Roy Porter, author of *London: A Social History* on Landlords to London 'A short, invigorating gallop over two and a half thousand years' Scotsman on *A Short History of Europe*

The Story of Britain Createspace Independent Publishing Platform

A new edition of this best-selling history of Britain, from Roman times, now updated to cover the first decade of the 21st century. The Oxford History of Britain tells the story of Britain and its people over two thousand years, from the coming of the Roman legions to the present day. Encompassing political, social, economic, and cultural developments throughout the British Isles, the dramatic narrative is taken up in turn by ten leading historians who offer the fruits of the best modern scholarship to the general reader in an authoritative form. A vivid, sometimes surprising picture emerges of a continuous turmoil of change in every period, and the wider social context of political and economic tension is made clear. But consensus, no less than conflict, is a part of the story: in focusing on elements of continuity down the centuries, the authors bring out that special awareness of identity which has been such a distinctive feature of British society. By relating both these factors in the British experience, and by exploring the many ways in which Britain has shaped and been shaped by contact with Europe and the wider

world, this landmark work brings the reader face to face with the past, and the foundations of modern British society. This updated new edition (by the original editor) adds great richness by taking the story down from the economic crisis of 2008 to the conflict over Europe at the present day.

The Shortest History of England Routledge

A History of Modern Britain confronts head-on the victory of shopping over politics. It tells the story of how the great political visions of New Jerusalem or a second Elizabethan Age, rival idealisms, came to be defeated by a culture of consumerism, celebrity and self-gratification. In each decade, political leaders think they know what they are doing, but find themselves confounded. Every time, the British people turn out to be stropier and harder to herd than predicted. Throughout, Britain is a country on the edge - first of invasion, then of bankruptcy, then on the vulnerable front line of the Cold War and later in the forefront of the great opening up of capital and migration now reshaping the world. This history follows all the political and economic stories, but deals too with comedy, cars, the war against homosexuals, Sixties anarchists, oil-men and punks, Margaret Thatcher's wonderful good luck, political lies and the true heroes of British theatre.
