Packed with spectacular superlatives, shocking stats, fantastic facts and fun figures, Science and Stuff celebrates the simple joy in finding things out. What can cats teach us about the laws of physics? Why was cabbage banned on the International Space Station? (Can you fart in space?) And would a penny dropped from the Empire State Building really kill someone? (Short answer: No!)But it's not all facts and stats. The feature chapter just for Makers, introduced by our very own mad professor Burnaby Q. Orbx, challenges you to attempt record-breaking science experiments at home, from the fastest Mentos & Soda rocket car to the most slime thrown and caught in a minute!Join us as we rise from the deepest depths of the ocean, where weird glowing fish hunt in the darkness, to the mountaintop observatories where scientists unravel the secrets of the universe.

Collins Cambridge IGCSE(r) Maths Student Book Second Edition provides in-depth coverage of every aspect of the latest Cambridge IGCSE(r) Mathematics 0580 syllabus for examination from 2015 onwards. We are working with Cambridge International Examinations towards endorsement of this title. The resource covers the Core and Extended curriculum. Support and challenge students with the Core curriculum and Extended curriculum together in one book. This also aids transition from Core to Extended. Help students to prepare for examination with Cambridge questions from previous papers. Develop problem solving with flagged questions that require students to apply their skills, often in real life, international contexts. Cover the curriculum with confidence with clear references to what students will learn at the start of every chapter. See what level students are working at with all questions labelled Core or Extended. Emphasise the relevance of maths with 'Why this chapter matters' showing maths in everyday life or historical development. Consolidate understanding with tried and tested questions in extensive practice exercises and detailed worked examples. Deliver a fully international course with international examples, contexts, names, currency and locations. Encourage students to check their work with answers to all exercise questions at the back of the book. Examination answers are only available in the Teacher s Pack.
