The Advance Variation is the most ambitious way to meet the solid French Defence. Its popularity among club players is not difficult to understand: White not only gains space but also blocks in Black's c8 Bishop and hampers Black's kingside development. Grandmaster Evgeny Sveshnikov has played the Advance Variation in countless games with excellent results and is, as former World Champion Anatoly Karpov puts it, 'the world expert' in this variation. Together with his son, International Master Vladimir Sveshnikov, he has thoroughly updated and expanded his earlier investigations, and they have found many new ideas and resources. The Sveshnikovs clearly explain the ideas and plans for both sides and provide exercises and test positions. After reading and studying this book, White players, from amateurs to Grandmasters, will make their opponents' lives even more difficult.

Grandmaster Simon Williams was taught the English Opening at the age of six and 1 c4 was his weapon of choice until long after he became an International Master. For this new work, he teamed up with acclaimed theoretician International Master Richard Palliser to explore his old favourite. 1 c4 remains an excellent choice for the club and tournament player. This book focuses on the set-up popularised by the sixth world champion, Mikhail Botvinnik, the so-called Botvinnik formation with 2 Nc3, 3 g3, 4 Bg2, 5 e4 and 6 Nge2. This system is compact but still aggressive and rewards an understanding of plans and strategies rather than rote memorisation of moves. In Opening Repertoire: The Iron English leading chess authors Simon Williams and Richard Palliser guide the reader through the complexities of this dynamic variation and carves out a repertoire for White. They examine all aspects of this highly complex opening and provide the reader with well-researched, fresh, and innovative analysis. Each annotated game has valuable lessons on how to play the opening and contains instructive commentary on typical middlegame plans. * A dynamic and easy-to-play repertoire for White * Complete coverage featuring several new ideas * Take your opponents out of their comfort zone!

Chess Story, also known as The Royal Game, is the Austrian master Stefan Zweig’s final achievement, completed in Brazilian exile and sent off to his American publisher only days before his suicide in 1942. It is the only story in which Zweig looks at Nazism, and he does so with characteristic emphasis on the psychological. Travelers by ship from New York to Buenos Aires find that on board with them is the world champion of chess, an arrogant and unfriendly man. They come together to try their skills against him and are soundly defeated. Then a mysterious passenger steps forward to advise them and their fortunes change. How he came to possess his extraordinary grasp of the game of chess and at what cost lie at the heart of Zweig’s story. This new translation of Chess Story brings out the work’s unusual mixture of high suspense and poignant reflection.

Grandmaster Simon Williams has played the Classical Dutch for over twenty years. It remains his favourite opening and has featured in some of his greatest individual results, including a win over World Championship finalist Boris Gelfand. In this book, Williams examines the Classical Dutch in great depth. He also presents a complete repertoire for Black with the Dutch Defence, which is based on his own repertoire he has used successfully at grandmaster level for many years. As well as presenting the latest theory and revealing his new ideas in the key lines, Williams highlights the main tactical and strategic ideas for both sides and covers important issues such as move orders. Each chapter includes a series of tests at the end, so that readers are able to assess how well they have understood the main concepts. This books tells you everything you need to know about successfully playing the Classical Dutch. A Dutch repertoire against 1 d4, 1 c4 and 1 Nf3Written by a world-renowned Classical Dutch expert Packed with new ideas and critical analysis
