Imran may appear to be a rich, handsome buffoon with his sports car, eccentric dress sense and bizarre sense of humour—but in reality he possesses a razor-sharp mind, and the agility, strength and quick wits of the perfect spy. His colleagues at the secret service make fun of him, but little do they know that he is their mastermind chief X2—a man who can defeat any enemy and

solve all mysteries. Detective Imran is spy-novelist Ibn-e Safi's greatest creation and the bestselling Imran series are Urdu cult classics, translated into English for the first time. The House of Fear: Dead bodies have been found in an abandoned house, each bearing three identical dagger marks, exactly five inches apart. Who is behind these eerie murders? Only Imran can solve this mystery. The House of Fear

is the first book in the Imran series. Shootout at the Rocks: Colonel Zargham knows he is in grave danger when he receives a three-inch wooden monkey in the mail. which the colonel will be swiftly murdered. Only one man stands between Li Yu Ka and his death: genius sleuth, Ali Imran.

This book explores the relationships between financial inclusion, poverty and inclusive development from Islamic perspectives.

Financial

inclusion has become an important global agenda and priority for policymakers and regulators in many Muslim countries for sustainable long-term economic growth. It has also become an integral part of many development institutions and multilateral development banks in efforts to promote inclusive growth. Many studies in economic development and poverty

reduction suggest that financial inclusion matters. Financial inclusion, within the broader context of inclusive development, is viewed as an important means to tackle poverty and inequality and to address the sustainable development goals (SDGs). This book contributes to the literature on these topics and will be of interest to researchers and academics interested in

Islamic finance and financial inclusion. Pakistan, a Dream Gone Sour Springer Counter This translation guide is based on sound theoretical and pedagogical principles. Unlike other translation manuals available, it transcends crude dichotomies of "literal" vs. "free" translation, "specialized" vs. "general," "communicative" vs. "semantic," etc. and concentrates

instead on developing in the student a sensitivity to text-types and a deeper understanding of the demand. which a given text-type makes on the translator. In addition, the student who closely follows this Guide will acquire the analytical tools necessary to make meaningful comments about translation and translations. A glossary of text-linguistic and translation

terms is provided together with a select bibliography. **The Muslim World League Journal** Potomac Books, Inc. The contemporary economic systems have failed to solve the economic problems of mankind. The failure of socialism is too obvious to need any documentation. The track record of capitalism is far from being promising. Although a small minority has achieved

unprecedentedly high material standards of living, a vast majority lives under conditions of abject Poverty. The problems of unemployment, inflation, poverty amidst affluence, unequal distribution of wealth, frequent bouts of business recession, environmental pollution and ecological imbalance still bedevil man's present life and threaten his future. The present book contends that the Islamic

economic order has the potential of ushering in an age of human bliss; and the resources to build a free, just and responsible world for everyone on the earth.

An Introduction to Islamic Economics

Saddleback Educational Publishing Among U.S. allies in the war against terrorism, Pakistan cannot be easily characterized as either friend or foe. Nuclear-armed Pakistan is an important center of radical Islamic ideas and groups. Since 9/11, the selective cooperation of president General Pervez Musharraf in sharing intelligence with the United States

and apprehending al Qaeda members has led to the assumption that Pakistan might be ready to give up its longstanding ties with radical Islam. But Pakistan's status as an Islamic ideological state is closely linked with the Pakistani elite's worldview and the praetorian ambitions of its military. This book analyzes the origins of the relationships between Islamist groups and

Pakistan's military, and explores the nation's quest for identity and security. Tracing how the military has sought U.S. support by making itself useful for concerns of the moment—while continuing to strengthen the mosque-military alliance within Pakistan—Haq qani offers an alternative view of political developments since the country's independence in 1947.
