Many modern Christians

are now agreeing that we should take Jesus' command to cast out demons more seriously than we have in recent years. But how do we do it? Where do we start? This practical, down-to-earth book shows us how. From Doris Wagner, one of the leading authorities on biblical deliverance in North America, this manual teaches Christians how to take and break soul ties; how to break bondages of rejection, addiction, lust, and more; and how to set free those whom the enemy has held

captive.

 "A critical analysis of courtly love and medieval troubador literature, this book claims that both traditions were instrumental in the construction of the modern subject and its preparation for life in the highly regulated societies of the modern world. Relating troubadour texts to the rise of commerce, luxury commodities, social differentiation, the centralization of authority, and the crusades, the

author proposes that western romantic love, from its courtly beginnings, eroticized the forms and values of the early European commercial economy and nation-states -- playing a key role in the subjection of medieval hearts, minds, and bodies to the disciplines of emerging modern powers." -- Back cover.

father of public relations and political spin and the man who designed the ad campaign that got the United States involved in World War I. Written in 1928, this was the first book to discuss the manipulation of the masses and democracy by government spin and propaganda.

God gave us emotions to enhance our lives, including Fear. The emotion fear was intended to alert us to

danger. Fear was intended to protect us. However, much of mankind lives with Fear on a daily basis. Every one of us has been subjected to Fear. It may have been Fear of tomorrow, Fear of failure, Fear of the unknown or Fear of spiders. Perhaps it was Fear working in us as anxiety. Perhaps we think of it as stress, the modern term for what the Bible refers to as Fear. Many lives are ruled by Fear. This kind of Fear was not given to us by God. This kind of Fear does not

warn us or protect us. This kind of Fear brings destruction. This teaching helps us recognize when Fear is our enemy and equips us to overcome it so we can live in peace, as God intended.

 Times–bestselling authors unveil new research showing what meditation can really do for the brain. In the last twenty years, meditation and mindfulness have gone from being kind of cool to

becoming an omnipresent Band-Aid for fixing everything from your weight to your relationship to your achievement level. Unveiling here the kind of cutting-edge research that has made them giants in their fields, Daniel Goleman and Richard Davidson show us the truth about what meditation can really do for us, as well as exactly how to get the most out of it. Sweeping away common misconceptions and neuromythology to open readers' eyes to the

ways data has been distorted to sell mind-training methods, the authors demonstrate that beyond the pleasant states mental exercises can produce, the real payoffs are the lasting personality traits that can result. But short daily doses will not get us to the highest level of lasting positive change—even if we continue for years—without specific additions. More than sheer hours, we need smart practice, including crucial ingredients such as targeted feedback from

a master teacher and a more spacious, less attached view of the self, all of which are missing in widespread versions of mind training. The authors also reveal the latest data from Davidson's own lab that point to a new methodology for developing a broader array of mind-training methods with larger implications for how we can derive the greatest benefits from the practice. Exciting, compelling, and grounded in new research, this is one of those rare books that has

the power to change us at the deepest level.

Niccolo Machiavelli, one of the eminent minds of the Italian Renaissance, spent much of a long and active lifetime trying to determine and understand what exceptional qualities of human character-- and what surrounding elements of fortune, luck, and timing-- made great men great leaders successful in war and peace. In perhaps the liveliest book on Machiavelli in years,

Michael A. Ledeen measures contemporary movers and doers against the timeless standards established by the great Renaissance writer. Titans of statecraft (Margaret Thatcher, Francois Mitterrand, Pope John Paul II, Ronald Reagan, and Bill Clinton); business and finance (Bill Gates); Wall Street and investing (Warren Buffett); the military (Colin Powell), and sports (Michael Jordan) are judged by Machiavelli's precepts on leadership and the proper use of power. The result is

a wide-ranging and scintillating study that illuminates the thoughts of the Renaissance master and the actions of today's truly towering figures as well as the character-challenged pretenders to greatness. Here is an exceptional book on Machiavelli and his ultra-realistic exploration of human nature-- then and now. *Encyclopedia of Social Problems* Whitaker House

In The Meanings of Social Life, Jeffrey Alexander presents a new approach to how culture works in contemporary societies. Exposing our everyday myths and narratives in a series of empirical studies that range from

Watergate to the Holocaust, he shows how these unseen yet potent cultural structures translate into concrete actions and institutions. Only when these deep patterns of meaning are revealed, Alexander argues, can we understand the stubborn staying power of violence and degradation, but also the steady persistence of hope. By understanding the darker structures that restrict our imagination, we can seek to transform them. By recognizing the culture structures that

sustain hope, we can allow our idealistic imaginations to gain more traction in the world. A work that will transform the way that sociologists think about culture and the social world, this book confirms Jeffrey Alexander's reputation as one of the major social theorists of our day.  God has a divine plan to release his people from the curse of desolation and barrenness. Satan also has a strategy, however, which is to lock

us to our past. He uses a threefold cord of the demonic spirits of Jezebel, Athaliah, and Delilah-- strongholds that seek to destroy not only us but also generations to follow--to block us from victorious Christian living. But by exposing the plans of the enemy, God's people can be released from barrenness and launched into expansion,

growth, and multiplication. Sandie Freed takes readers through a close study of each of these demonic forces in order to prepare them to break the threefold demonic cord. Conducting a biblical exploration of the everyday tactics of each spirit, Freed lays bare their strategies and helps readers defeat them through prayer.
