A YALSA (The Young Adult Library Services Association) Teens' Top Ten Book for 2020, Mansy crafts a grim reality where memories are worth their weight in gold. When Madame threatens to put her mother up for auction, a Craewick practice in which a "criminal's" memories are sold to the highest bidder before being killed, Etta will do whatever it takes to save her. Even if it means rejoining the Shadows, the rebel group she swore off in the wake of the accident years earlier. In 1 Corinthians 12:28, the Bible tells us about a number of gifts that God has made available in the church. These different gifts together, help the church of God to forge ahead with strength. The gift of governments is one of the gifts that God has set in the church. How should the leadership of the church be conducted? What should the leaders of the church do? The Bible clearly states, "Obey them that have the rule over you, and submit yourselves: for they watch for your souls, as they that must give account, that they may do it with joy, and not with grief: for that is unprofitable for you." We are to take the gift of governments seriously, and this priceless book by Dag Heward-Mills will help your church leadership, church administration and church government in a practical every-day way!

This book assesses the implications of how children and young people are represented in print media in Northern Ireland – a post-conflict transitioning society. Gordon analyses how children and young people's perceived involvement in anti-social and criminal behaviour is constructed and amplified in media, as well as in popular and political discourses. Drawing on deviancy amplification, folk devils and moral panics, this original study specifically addresses the labelling perspective and confirms that young people are convenient scapegoats – where their negative reputation diverts attention from the structural and institutional issues that are inevitable in a post-conflict society. Alongside content analysis from six months of print media and a case study on the representation of youth involvement in 'sectarian' rioting, this book also analyses interviews with editors, journalists, politicians, policy makers and a spokesperson for the Police Service of Northern Ireland. Noting the importance of prioritising the experiences of children, young people and their advocates, this timely and engaging research will be of specific interest to scholars and students of criminal justice, criminology, socio-legal studies, sociology, social policy, media studies, politics and law, as well as media professionals and policy makers.

Although individuals or companies can pursue civil remedies to address violations of their intellectual property rights, criminal sanctions are often warranted to ensure sufficient punishment and deterrence of wrongful activity. Congress has continually expanded and strengthened criminal laws for

violations of intellectual property rights to protect innovation, to keep pace with evolving technology and, significantly, to ensure that egregious or persistent intellectual property violations do not merely become a standard cost of doing business for defendants.
