The true story behind NASCAR's hardscrabble, moonshine-fueled origins, "fascinating and fast-moving . . . even if you don't know a master cylinder from a head gasket" (Atlanta Journal-Constitution). "[Neal] Thompson exhumes the sport's Prohibition-era roots in this colorful, meticulously detailed history."—Time Today's NASCAR—equal parts Disney, Vegas, and Barnum & Bailey—is a multibillion-dollar conglomeration with 80 million fans, half of them women, that grows bigger and more mainstream by the day. Long before the sport's rampant commercialism lurks a distant history of dark secrets that have been carefully hidden from view—until now. In the Depression-wracked South, with few options beyond the factory or farm, a Ford V-8 became the ticket to a better life. Bootlegging offered speed, adventure, and wads of cash. *Driving with the Devil* reveals how the skills needed to outrun federal agents with a load of corn liquor transferred perfectly to the red-dirt racetracks of Dixie. In this dynamic era (the 1930s and '40s), three men with a passion for Ford V-8s—convicted felon Raymond Parks, foul-mouthed mechanic Red Vogt, and war veteran Red Byron, NASCAR's first champ—emerged as the first stock car "team." Theirs is the violent, poignant story of how moonshine and fast cars merged to create a sport for the South to call its own. In the tradition of Laura Hillenbrand's *Seabiscuit*, this tale captures a bygone era of a beloved sport and the character of the country at a moment in time.

Sports Law looks at major court cases, statutes, and regulations that explore a variety of legal issues in the sports industry. The early chapters provide an overview of sports law in general terms and explore its impact on race, politics, religion, and everyday affairs. Later chapters address hot button issues such as gender equity, drug testing, and discrimination. Written from a sport management perspective, rather than from a lawyer's, this text covers all the major areas presented in sports law today including: cases relating to torts, contracts, intellectual property, and agents. Factual scenarios throughout the text allow students to critically examine and apply sport management principles to legal issues facing the sports executive. "Working from research conducted over

six years with hundreds of charities and donors, 'Donor-Centered Fundraising' paints a candid picture of why donors stop giving to charities they once supported, and what it will take to preserve their loyalty in the future. In clear language and backed by statistical evidence, Penelope Burk explores the pitfalls of our traditional approaches to donor communication and recognition and articulates what donors want but seldom get from the charities they support. The book features straightforward and accessible calculations that show how much money charities are failing to raise, and offers a step-by-step procedure for testing a donor-centered alternative and gaining its acceptance in any organization."--From publisher description.

Motivation is key to substance use behavior change. Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists. Motivational approaches are based on the principles of person-centered counseling. Counselors' use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs. Counselors should engage them in collaborative partnerships. Ambivalence about change is normal. Resistance to change is an expression of ambivalence about change, not a client trait or characteristic. Confrontational approaches increase client resistance and discord in the counseling relationship. Motivational approaches explore ambivalence in a nonjudgmental and compassionate way.
