Towner—twenty-seven great guitarists in all. An enormous range of approaches and sounds exist in the modern guitar. The instrument can howl, scrape, scratch, scream, sing, pluck, and soothe. What stands out in this book is not so much the instrument itself, rather the wonderful and idiosyncratic personalities of these bold souls, their sometimes wild, often zigzagging, and ultimately profound journeys toward beauty, meaning, and excellence in their work. We find out that jazz icon Bill Frisell won a high school band contest playing R&B tunes, beating out future members of Earth Wind and Fire. We learn which of Nels Cline's compositions he wishes to have played at his funeral. Michael Gregory Jackson recounts painful episodes of racism as he stretched between the chasm of avant jazz, rock, and blues in the 1980s. Many more revelations, amusements, and philosophies abound.

Guitar Player Presents Guitar Heroes of the '70s Hal Leonard Corporation

The Beatles landing in New York in February 1964 was the opening shot in a cultural revolution nobody predicted. Suddenly the youth of the richest, most powerful nation on earth was trying to emulate the music, manners and the modes of a rainy island that had recently fallen on hard times. The resulting fusion of American can-do and British fuck-you didn't just lead to rock and roll's most resonant music. It ushered in a golden era when a generation of kids born in ration card Britain, who had grown up with their nose pressed against the window of America's plenty, were invited to wallow in their big neighbour's largesse. It deals with a time when everything that was being done - from the Beatles playing Shea Stadium to the Rolling Stones at Altamont, from the Who performing their rock opera at the Metropolitan Opera House to David Bowie touching down in the USA for the first time with a couple of gowns in his luggage - was being done for the very first time. Rock and roll would never be quite so exciting again.
