Learning and remembering Chinese Characters is easier than you think. Far from being random sets of strokes, Chinese characters are actually made of different blocks which provide both semantic and phonetic clues in most of the cases. This unique book offers for each HSK Character found in the HSK tests from 1 to 4 (1,200 words): - the simplified and traditional writing - the number of strokes - the pinyin - the main English meaning - the decomposition in various blocks (at least one radical) - all the HSK words related to a given character, in Simplified Chinese, including their HSK level, pinyin, part of speech and English translation The list of the 214 Chinese radicals is offered at the end of the book, alongside a dual index for pinyin or key radical search. This book is the first of its kind to offer the HSK vocabulary lists (from 1 to 4) indexed by single characters provided with all their inner details. The knowledge you will gain about how the character is built, its semantic and phonetic clues, will make a big difference in your learning process. Learn Chinese smarter with HSK Academy. HSK 1 STORYBOOK SECOND EDITION This book consists of 15 short stories written in Simplified Chinese and pinyin. The purpose of this book is to provide readers with reading materials to practice their reading skills as well as an introduction to more extended sentence structure and longer articles. This book has all the vocabularies in HSK 1. If you finish the book, you would have practiced your reading skill on all the vocabularies in HSK 1. I have tried to restrict the vocabularies used in this book to HSK 1 as far as possible. Where it is not possible, I have introduced limited new words in the story. If you have learned all the HSK 1 Vocabulary and completed the Standard Course Book for HSK 1 by Jiang Liping, you would be able to read about 90% of this book without learning new words. You may also download the audio files for free with the link and password provided on the last page of the book. The password in this book will also give you access to other materials such as HSK Vocabulary Writing Practice Sheet (with stroke order) and printable HSK Vocabulary with audio files. Lastly, I am sorry to disappoint those who enjoy reading a book with pictures because this book has no picture, only words. For the rest who doesn't like the distraction of pictures, I hope you will enjoy reading this book. If you have any feedback or would like to download sample chapters of this book, please feel free to visit <https://allmusing.net>.

Crack the Code and Get Fluent Faster! "I had to learn [a new language] in a handful of days for a TV interview. I asked Benny for help and his advice

was invaluable." - Tim Ferriss What if you could skip the years of study and jump right to speaking Mandarin? Sound Crazy? No, it's language hacking. It's about learning what's indispensable, skipping what's not - and using what you've learned to have real conversations in Mandarin - from day one! Unlike most traditional language courses that try to teach you the rules of a language, Language Hacking Mandarin, shows you how to learn and speak Mandarin immediately through proven memory techniques, unconventional shortcuts and conversation strategies perfect by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. The Method Language Hacking takes a modern approach to language learning, blending the power of online social collaboration and the 80/20 principle of learning (Benny's ten #languagehacks show you how to achieve more with less!). It focuses on the conversations and language that learners need to master right away, rather than presenting language in the order of difficulty like most courses. This means you can start having conversations immediately. Course Features Each of the 10 units culminates with a speaking mission that you can choose to share on the italki Language Hacking learner community ([www.italki.com/languagehacking](http://www.italki.com/languagehacking)) where you can give and get feedback and extend your learning beyond the pages of the book. The audio for this course is available for free on [library.teachyourself.com](http://library.teachyourself.com) or from the Teach Yourself Library app. You don't need to go abroad to learn a language any more.

"The Devil of Nezha is Born" (哪吒闹海) is a famous folktale adapted from the Chinese mythology and tells the story of Nezha's growing experience of "being born to be a devil" but "fighting against the sky to the end". Nezha (哪吒) is the reincarnation of Mo Wan (魔丸), son of Li Jing (李靖). Because of his reincarnation status, he faced discrimination, exclusion, ridicule, and hostility by the people of Chen Tangguan (陈塘关). As a result, he felt lonely, indifferent, rebellious, stubborn, cynical, and he created trouble for the people of Chen Tangguan, so that no one could live peacefully. Under the cynical appearance, Nezha is more lonely than anyone else is, and he is constantly eager for social approval. As such, Nezha was supposed to be a hero. However, he became the great demon king of the world. The highly anticipated next book in Tuttle's Stories for Language Learners series is here! This book presents 22 classic Chinese proverbs and the traditional tales behind them. The stories are bilingual, with the Chinese and English versions presented on facing pages. Each includes an explanation of how the proverb is used today, cultural notes, vocabulary and discussion questions. Online audio recordings of the tales by native speakers give students a chance to improve their pronunciation and comprehension. Some of the proverbs featured in this collection include: "Painting the Eyes on the Dragon" Based on the story of a famous court painter in 6th century China who painted dragons, this proverb refers to the finishing touches needed to bring a work of art or literature to life. In a discussion, it refers to the final statements used to clinch the argument. "Waiting for Rabbits by a Tree Stump" Based on an ancient folktale about a foolish farmer who sees a rabbit kill itself in front of him by running into a tree stump, then gives up tilling his field to wait for more rabbits by the stump. This saying is applied to people who wait passively for luck to strike again. It also refers to impractical people who stick to one way of doing things only because it has worked for them once in the past. "Pure Water Has No Fish; Perfect People Have No Friends" Many versions of this historical tale exist. The one told here is about a 2nd century AD official sent to govern a far-flung outpost on the Silk Road who is fastidious in applying strict rules and thereby causes the local people to rebel against him. In the professional world, it is used to refer to people who do not like to work with an overly strict supervisor or colleague. Whether being used in a classroom or for self-study, Chinese Stories for Language Learners provides an educational and entertaining way for intermediate Mandarin learners to expand their vocabulary and understanding of the language.

The three early dynasties in the Chinese history (Xia, Shang and Zhou Dynasty) are collectively referred as the San Dai (三代, sān dài), meaning "the three generations". The term "three generations" (三代) was first used in "The Analects of Confucius" 论语·季氏. The term continued to the Warring States Period, referring to Xia, Shang, and Western Zhou Dynasty. After the Qin Dynasty (秦朝), the meaning of "three generations" began to include the Eastern Zhou Dynasty (周朝). The book, Chinese History 2, a Chinese reading practice book, presents a broad and simple overview of the San Dai, three early ruling dynasties (夏朝, 商朝 and 周朝). In the accompanied book chapters, you'll learn the history of China starting from the prehistory until the start of the imperialism in China (Qin Dynasty). The volume, 12th in the Mandarin Chinese Reading Series, includes both the Chinese text (simplified characters) and pinyin. With about 900 unique characters, the volume would be suitable for the beginners, lower intermediate and advanced level Chinese language learners (HSK 1-6).
