The French masses overwhelmingly supported the Revolution in 1789. Economic hardship, hunger, and debt combined to put them solidly behind the leaders. But between the people's expectations and the politicians' interpretation of what was needed to construct a new state lay a vast chasm. Olwen H. Hufton explores the responses of two groups of working women - those in rural areas and those in Paris - to the revolution's aftermath. Women were denied citizenship in the new state, but they were not apolitical. In Paris, collective female activity promoted a controlled economy as women struggled to secure an adequate supply of bread at a reasonable price. Rural women engaged in collective confrontation to undermine government religious policy which was destroying the networks of traditional Catholic charity. Hufton examines the motivations of these two

groups, the strategies they used to advance their respective causes, and the bitter misogynistic legacy of the republican tradition which persisted into the twentieth century.

Making Space for the Dead Cornell University Press
Paris has always enjoyed a reputation as a city at the forefront of architecture and urban planning. Its faubourgs and its boulevards, its palaces and hotels, its towers and arches and its notorious glass Pyramid, are the public face of what is perhaps the most imposing city in the world. Over the decades, photographers and artists have amassed hundreds of images of the city and its buildings. Matthew Weinreb's extraordinary photography, however, provides a refreshingly different approach, throwing a new and startling light on even the most familiar sites. Through elaborate sequences, astonishing angles and intriguing details, this volume is a powerful celebration of the buildings and their features. Punctuated by anecdotal essays from centuries of Parisian architectural history, it creates a stunning visual essay.

The dead of Paris, before the French Revolution, were most often consigned to mass graveyards that contemporaries described as terrible and terrifying, emitting "putrid miasmas" that were a threat to both health and dignity. In a book that is at once wonderfully macabre and exceptionally informative, Erin-Marie Legacey explores how a new burial culture emerged in Paris as a result of both revolutionary fervor and public health concerns, resulting in the construction of park-like cemeteries on the outskirts of the city and a vast underground ossuary. *Making Space for the Dead* describes how revolutionaries placed the dead at the center of their republican project of radical reinvention of French society and envisioned a future where graveyards would do more than safely contain human remains; they would serve to educate and inspire the living. Legacey unearths the unexpectedly lively process by which burial sites were reimagined, built, and used, focusing on three of the most important of these new spaces: the Paris Catacombs, Père Lachaise cemetery, and the short-lived Museum of French Monuments. By situating discussions of death and memory in the nation's broader cultural and political context, as well as

highlighting how ordinary Parisians understood and experienced these sites, she shows how the treatment of the dead became central to the reconstruction of Parisian society after the Revolution.

Epicentre of the Revolution of 1789, erstwhile bastion of the skilled working-class and centre of radical agitation, along with Pigalle and Montmartre a focus for popular and raffish night-life in the early twentieth century, the Bastille area of Eastern Paris (also known as the Faubourg Saint-Antoine) is now an ethnically and socially mixed quartier which still bears the traces of its previous avatars. In a fascinating tour, Keith Reader charts the history and cultural geography of this unique area of Paris, from the fortress and prison that gave the area its name to the building of the largest and costliest opera house in the world.

From the author of *How Paris Became Paris*, a sweeping history of high finance, the origins of high fashion, and a pair of star-crossed lovers in 18th-century France. Paris, 1719. The stock market is surging and the world's first millionaires are buying everything in sight. Against this backdrop, two families, the Magoulets and the Chevrots, rose to prominence only to plummet in the first stock market crash. One family built its name on the burgeoning financial industry, the other as master embroiderers for Queen Marie-Thérèse and her husband, King Louis XIV. Both patriarchs were ruthless money-mongers, determined to strike it rich by arranging marriages for their children. But in a Shakespearean twist, two of their children fell in love. To remain together, Louise Magoulet and Louis Chevrot fought their fathers'

rage and abuse. A real-life heroine, Louise took on Magoulet, Chevrot, the police, an army regiment, and the French Indies Company to stay with the man she loved. Following these families from 1600 until the Revolution of 1789, Joan DeJean recreates the larger-than-life personalities of Versailles, where displaying wealth was a power game; the sordid cells of the Bastille; the Louisiana territory, where Frenchwomen were forcibly sent to marry colonists; and the legendary "Wall Street of Paris," Rue Quincampoix, a world of high finance uncannily similar to what we know now. The Queen's Embroiderer is both a story of star-crossed love in the most beautiful city in the world and a cautionary tale of greed and the dangerous lure of windfall profits. And every bit of it is true.

In addition to its more well known literary and artistic origins, the French surrealist movement drew inspiration from currents of psychological anxiety and rebellion running through a shadowy side of mass culture, specifically in fantastic popular fiction and sensationalistic journalism. The provocative nature of this insolent mass culture resonated with the intellectual and political preoccupations of the surrealists, as Robin Walz demonstrates in this fascinating study. *Pulp Surrealism* weaves an interpretative history of the intersection between mass print culture and surrealism, re-evaluating both our understanding of mass culture in early twentieth-century Paris and the revolutionary aims of the surrealist movement. *Pulp Surrealism* presents four case studies, each exploring the out-of-the-way and impertinent elements which inspired the surrealists. Walz discusses Louis Aragon's *Le*

paysan de Paris, one of the great surrealist novels of Paris. He goes on to consider the popular series of Fantômes crime novels; the Parisian press coverage of the arrest, trial, and execution of mass-murderer Landru; and the surrealist inquiry "Is Suicide a Solution?", which Walz juxtaposes with reprints of actual suicide faits divers (sensationalist newspaper blurbs). Although surrealist interest in sensationalist popular culture eventually waned, this exploration of mass print culture as one of the cultural milieux from which surrealism emerged ultimately calls into question assumptions about the avant-garde origins of modernism itself.

This Special Issue aims to provide an extensive mapping of policies in the promotion of ethnic entrepreneurship in a number of countries. It is motivated by the desire of national and municipal Governments to create an environment conducive to setting up and developing SMEs in general and immigrant businesses in particular. Furthermore it also highlights how the third sector has also had a crucial role in the reinforcement of immigrant entrepreneurship, and provides indications of how best to address this issue at a Governmental level in the future.

An enthralling work of history about the Libertine generation that came up during—and was eventually destroyed by—the French Revolution. The Last Libertines, as Benedetta Craveri writes in her preface to the book, is the story of a group of “seven aristocrats whose youth coincided with the French monarchy’s final moment of grace—a moment when it seemed to the nation’s

elite that a style of life based on privilege and the spirit of caste might acknowledge the widespread demand for change, and in doing so reconcile itself with Enlightenment ideals of justice, tolerance, and citizenship.” Here we meet seven emblematic characters, whom Craveri has singled out not only for “the romantic character of their exploits and amours—but also by the keenness with which they experienced this crisis in the civilization of the ancien régime, of which they themselves were the emblem.” Displaying the aristocratic virtues of “dignity, courage, refinement of manners, culture, [and] wit,” the Duc de Lauzun, the Vicomte de Ségur, the Duc de Brissac, the Comte de Narbonne, the Chevalier de Boufflers, the Comte de Ségur, and the Comte de Vaudreuil were at the same time “irreducible individualists” and true “sons of the Enlightenment,” all of them ambitious to play their part in bringing around the great changes that were in the air. When the French Revolution came, however, they found themselves condemned to poverty, exile, and in some cases execution. Telling the parallel lives of these seven dazzling but little-remembered historical figures, Craveri brings the past to life, powerfully dramatizing a turbulent time that was at once the last act of a now-vanished world and the first act of our own.

Recycling is not a concept that is usually applied to the eighteenth century. "The environment" may not have existed as a notion then, yet practices of re-use and transformation obviously shaped the early-modern world. Still, this period of booming commerce and exchange was also marked by scarcity and want. This book reveals the fascinating variety and ingenuity of recycling processes that may be observed in the commerce, crafts, literature, and medicine of the eighteenth century. Recycling is used as a thought-provoking means to revisit subjects such as consumption, the new science, or novel writing, and cast them in a new light where the waste of some becomes the luxury of others, clothes worn to rags are turned into paper and into books, and scientific breakthroughs are carried out in old kitchen pans.

Engine of modernity examines the connection between public transportation and popular culture in nineteenth-century Paris through a focus on the omnibus - a horse-drawn vehicle of urban transport. The omnibus generated innovations in social practices by compelling passengers of diverse backgrounds to interact within the vehicle's close confines. The arrival of the omnibus in the streets of Paris and in the pages of popular literature acted as a motor for a fundamental cultural shift in how people thought about the city, its social life, and its artistic representations. At the

intersection of literary criticism and cultural history, Engine of modernity argues that the omnibus was a metaphor through which writers and artists explored evolving social dynamics of class and gender, meditated on the meaning of progress and change, and reflected on one's own literary and artistic practices.

'[The] consistent interplay between theoretical and applied pursuits has always been a defining feature of systemic functional theory... This kind of mutual enrichment is clearly demonstrated in Alice Caffarel's work. The result is a description which penetrates to the heart of the language, revealing it at one and the same time as a specimen of the human semiotic and a unique resource for the continuous creation of meaning.'
