"The world is one amazing place. How amazing? Get ready to find out. This book is filled with fascinating articles, outstanding photographs, and fun science investigations to try at home--no special materials required. You'll design a flower to attract a pollinator, carry an egg like a penguin, experiment with light and shadow, make a musical instrument, and more."--Back cover

40 Short Passages for Close Reading, Grade 3 Penguin
The inspiring true story of demonstrators standing up for the love of a library, from a New York Times bestselling illustrator In January 2011, in a moment that captured the hearts of people all over the world, thousands of Egypt's students, library workers, and demonstrators surrounded the great Library of Alexandria and joined hands, forming a human chain to protect the building. They chanted "We love you, Egypt!" as they stood together for the freedom the library represented. Illustrated with Susan L. Roth's stunning collages, this amazing true story demonstrates how the love of books and libraries can unite a country, even in the midst of turmoil.

Proceedings of IAC-TLEI 2016 in Bratislava Scholastic Teaching Resources

An introduction to the world of chemistry presents a variety of hands-on experiments that show what makes a stink bomb stink, why glass eyes are not made of glass, and other chemistry facts.

Provides instructions for science tricks and activities to complete using plastic bottles and glass bottles.

Hands Around the Library Teaching Resources

Describes the physical characteristics, habits, and habitat of the Arctic fox.

It's Science Ags Classic Short Stories

Penned by the very first Crayon Activist, Bellen Woodard, this picture book will tug at readers' heartstrings and inspire them to make a difference! When Bellen Woodard's classmates referred to "the skin-color" crayon, in a school and classroom she had always loved, she knew just how important it was that everyone understood that "skin can be any number of beautiful colors." This stunning picture book spreads Bellen's message of inclusivity, empowerment, and the importance of inspiring the next generation of leaders. Bellen created the More Than Peach Project and crayons with every single kid in mind to transform the crayon industry and grow the way we see our world. And Bellen has done just that! This moving book includes back matter about becoming a leader and improving your community just like Bellen.

Her wisdom and self-confidence are sure to encourage any young reader looking to use their voice to make even great spaces better!

Magazines for Libraries Scholastic Teaching Resources

#1 New York Times Bestseller A USA Today Bestseller Winner of the Newbery Medal A Caldecott Honor Book A Coretta Scott King Illustrator Honor Book This award-winning modern classic—a must-have for every child's home library—is an inclusive ode to kindness, empathy, gratitude, and finding joy in unexpected places, and celebrates the special bond between a curious young boy and his loving grandmother. Every Sunday after church, CJ and his grandma ride the bus across town. But today, CJ wonders why they don't own a car like his friend Colby. Why doesn't he have an iPod like the boys on the bus? How come they always have to get off in the dirty part of town? Each question is met with an encouraging answer from grandma, who helps him see the beauty—and fun—in their routine and the world around them. This energetic ride through a bustling city highlights the wonderful perspective only grandparent and grandchild can share, and comes to life through Matt de la Peña's vibrant text and Christian Robinson's radiant illustrations.

Chemistry Teacher's Guide Teaching Resources

Kids love science experiments! Scientist of the Day describes a program where each student has an opportunity to choose, practice, and present an experiment to his classmates. The book provides clear instructions for the teacher or parent and reproducible record-keeping forms. There are 46 different experiments written so that young scientists will know exactly what to do and when to pause to ask questions. This encourages his or her classmates to make predictions, hypothesize, and discuss what they observe. They all then record their observations by drawing on special forms. At the bottom of each experiment there is a brief explanation of the science behind it that is clear and correct. Students thoroughly enjoy watching and discussing these demonstrations, and some may be inspired to continue their studies to become "not just for a day" scientists!

The Science Book (Miles Kelly), Teaching Resources

Help students explore and understand the world around them With the full-color Physical Science text, students learn the properties of matter, elements, compounds, electricity, and sound and light. Students reading significantly below grade level gain practice in working with data and sharpen their abilities to infer, classify, and theorize. Lexile Level 840 Reading Level 3-4 Interest Level 6-12
