With a diagnosis of colon cancer, George Malkmus launched an intensive biblical and scientific search to find out why he, a Christian, got sick—and to possibly find an alternative treatment to the medical profession's usually unsuccessful ones. *Why Christians Get Sick* by George Malkmus, is the most important book Christians can read, after the Bible. It delves into the questions of why we get sick, and provides the Biblical answers. With more than 150 Bible verses, this book clearly shows how we can avoid sickness and disease and experience superior health through a natural diet and lifestyle. People the world over have been transformed by the truth of the teachings found in this book.

"One of the more momentous books of the decade." —The New York Times Book Review Nate Silver built an innovative system for predicting baseball performance, predicted the 2008 election within a hair's breadth, and became a national sensation as a blogger—all by the time he was thirty. He solidified his standing as the nation's foremost political forecaster with his near perfect prediction of the 2012 election. Silver is the founder and editor in chief of the website FiveThirtyEight. Drawing on his own groundbreaking work, Silver examines the world of prediction, investigating how we can distinguish a true signal from a universe of noisy data. Most predictions fail, often at great cost to society, because most of us have a poor understanding of probability and uncertainty. Both experts and laypeople mistake more confident predictions for more accurate ones. But overconfidence is often the reason for failure. If our appreciation of uncertainty improves, our predictions can get better too. This is the "prediction paradox": The more humility we have about our ability to make predictions, the more successful we can be in planning for the future. In keeping with his own aim to seek truth from data, Silver visits the most successful forecasters in a range of areas, from hurricanes to baseball to global pandemics, from the poker table to the stock market, from Capitol Hill to the NBA. He explains and evaluates how these forecasters think and what bonds they share. What lies behind their success? Are they good—or just lucky? What patterns have they unraveled? And are their forecasts really right? He explores unanticipated commonalities and exposes unexpected juxtapositions. And sometimes, it is not so much how good a prediction is in an absolute sense that matters but how good it is relative to the competition. In other cases, prediction is still a very rudimentary—and dangerous—science. Silver observes that the most accurate forecasters tend to have a superior command of probability, and they tend to be both humble and hardworking. They distinguish the predictable from the unpredictable, and they notice a thousand little details that lead them closer to the truth. Because of their appreciation of probability, they can distinguish the signal from the noise. With everything from the health of the global economy to our ability to fight terrorism dependent on the quality of our predictions, Nate Silver's insights are an essential read.

In this festive Caldecott Honor-winning picture book, Alice Dalgliesh brings to life the origin of the Thanksgiving holiday for readers of all ages. Giles, Constance and Damaris Hopkins are all passengers aboard the crowded Mayflower, journeying to the New World to start a new life. Things get a little more cramped when their baby brother Oceanus is born during the passage. However, when they arrive, there are even worse challenges to face as the Pilgrims are subjected to hunger, cold, and sickness that put their small colony in great danger. With the help of the Native Americans though, they might just be able to survive their first year in this strange land—and have a November harvest to celebrate for generations!

Purity and Danger is acknowledged as a modern masterpiece of anthropology. It is widely cited in non-anthropological works and gave rise to a body of application, rebuttal and development within anthropology. In 1995 the book was included among the Times Literary Supplement's hundred most influential non-fiction works since WWII. Incorporating the philosophy of religion and science and a generally holistic approach to classification, Douglas demonstrates the relevance of anthropological enquiries to an audience outside her immediate academic circle. She offers an approach to understanding rules of purity by examining what is considered unclean in various cultures. She sheds light on the symbolism of what is considered clean and dirty in relation to order in secular and religious, modern and primitive life.

"I believe in rules. Sure I do. If there weren't any rules, how could you break them?" The history of baseball is rife with colorful characters. But for sheer cantankerousness, fighting moxie, and will to win, very few have come close to Leo "the Lip" Durocher. Following a five-decade career as a player and manager for baseball's most storied franchises, Durocher teamed up with veteran sportswriter Ed Linn to tell the story of his life in the game. The resulting book, *Nice Guys Finish Last*, is baseball at its best, brimming with personality and full of all the fights and feuds, triumphs and tricks that made Durocher such a success—and an outsized celebrity. Durocher began his career inauspiciously, riding the bench for the powerhouse 1928 Yankees and hitting so poorly that Babe Ruth nicknamed him "the All-American Out." But soon Durocher hit his stride: traded to St. Louis, he found his headlong play and never-say-die attitude a perfect fit with the rambunctious "Gashouse Gang" Cardinals. In 1939, he was named player-manager of the Brooklyn Dodgers—and almost instantly transformed the underachieving Bums into perennial contenders. He went on to manage the New York Giants, sharing the glory of one of the most famous moments in baseball history, Bobby Thomson's "shot heard 'round the world," which won the Giants the 1951 pennant. Durocher would later learn how it felt to be on the other side of such an unforgettable moment, as his 1969 Cubs, after holding first place for 105 days, blew a seemingly insurmountable 8-1/2-game lead to the

Miracle Mets. All the while, Durocher made as much noise off the field as on it. His perpetual feuds with players, owners, and league officials—not to mention his public associations with gamblers, riffraff, and Hollywood stars like George Raft and Lorraine Day—kept his name in the headlines and spread his fame far beyond the confines of the diamond. A no-holds-barred account of a singular figure, *Nice Guys Finish Last* brings the personalities and play-by-play of baseball's greatest era to vivid life, earning a place on every baseball fan's bookshelf.

If you've been part of a church, you have probably suffered a "church hurt"—or know someone who has. Maybe the pastor had an affair or the congregation fought over money or the leaders were disguising gossip as "prayer." Stephen Mansfield knows how it feels. Though he is now a New York Times bestselling author, he was a pastor for more than 20 years, and he loved it—until he learned how much a church can hurt. Yet he also learned how to dig out of that hurt, break through the bitterness and anger, stop making excuses, and get back to where he ought to be with God and his people. If you're ready to choose the tough path to healing, Mansfield will walk you through it with brotherly love, showing you how you can be better than ever on the other side of this mess—if you're willing to start *Healing Your Church Hurt*. Previously published as *ReChurch*.

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks—and those textbook assumptions about learning. In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

With a biting, satirical style reminiscent of *The Onion*, *How to Be a Perfect Christian* takes a humorous look at the quirks of cultural Christianity while subtly challenging the reader to search for more than a cultural faith. Written in the trademark style of *The Babylon Bee*, this book humorously satirizes cultural Christianity while peppering in subtle challenges to the reader. Through humor and sarcasm (and a handy meter to rank your "holiness" as you progress through the book), readers will be called to find a more biblical understanding of the Christian faith, all while poking fun at the quirks of the modern, American Christian community.

Freedom House's innovative publication *Women's Rights in the Middle East and North Africa: Progress Amid Resistance* analyzes the status of women in the region, with a special focus on the gains and setbacks for women's rights since the first edition was released in 2005. The study presents a comparative evaluation of conditions for women in 17 countries and one territory: Algeria, Bahrain, Egypt, Iran, Iraq, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, Palestine (Palestinian Authority and Israeli-Occupied Territories), Qatar, Saudi Arabia, Syria, Tunisia, United Arab Emirates, and Yemen. The publication identifies the causes and consequences of gender inequality in the Middle East, and provides concrete recommendations for national and international policymakers and implementers. Freedom House is an independent nongovernmental organization that supports democratic change, monitors freedom, and advocates for democracy and human rights. The project has been embraced as a resource not only by international players like the United Nations and the World Bank, but also by regional women's rights organizations, individual activists, scholars, and governments worldwide. Women's rights in each country are assessed in five key areas: (1) Nondiscrimination and Access to Justice; (2) Autonomy, Security, and Freedom of the Person; (3) Economic Rights and Equal Opportunity; (4) Political Rights and Civic Voice; and (5) Social and Cultural Rights. The methodology is based on the Universal Declaration of Human Rights, and the study results are presented through a set of numerical scores and analytical narrative reports.

The occupation of the West Bank and Gaza has been one of the world's most widely reported yet least understood human rights crises for over four decades. In this oral history collection, men and women from Palestine—including a fisherman, a settlement administrator, and a marathon

runner—describe in their own words how their lives have been shaped by the historic crisis. Other narrators include: ABEER, a young journalist from Gaza City who launched her career by covering bombing raids on the Gaza Strip. IBTISAM, the director of a multi-faith children's center in the West Bank whose dream of starting a similar center in Gaza has so far been hindered by border closures. GHASSAN, an Arab-Christian physics professor and activist from Bethlehem who co-founded the International Solidarity Movement.

Storm in the night. Thunder like mountains blowing up. Lightning licking the navy-blue sky. Rain streaming down the windows, babbling in the downspouts. And Grandfather? . . . And Thomas? . . . And Ringo, the cat? They were in the dark. Too early to go to bed, and with only flashes of lightning to see by, Thomas and his grandfather happily find themselves re-discovering the half-forgotten scents and sounds of their world, and having a wonderful time learning important, new things about each other in a spirited conversation sparked by darkness. Mary Stolz and Pat Cummings have each brought their unique talents to this lyrical tale about a magical, stormy night and a special relationship.

In this fifth edition of *A Cognitive Psychology of Mass Communication*, author Richard Jackson Harris continues his examination of how our experiences with media affect the way we acquire knowledge

about the world, and how this knowledge influences our attitudes and behavior. Presenting theories from psychology and communication along with reviews of the corresponding research, this text covers a wide variety of media and media issues, ranging from the commonly discussed topics - sex, violence, advertising - to lesser-studied topics, such as values, sports, and entertainment education. The fifth and fully updated edition offers: highly accessible and engaging writing contemporary references to all types of media familiar to students substantial discussion of theories and research, including interpretations of original research studies a balanced approach to covering the breadth and depth of the subject discussion of work from both psychology and media disciplines. The text is appropriate for Media Effects, Media & Society, and Psychology of Mass Media coursework, as it examines the effects of mass media on human cognitions, attitudes, and behaviors through empirical social science research; teaches students how to examine and evaluate mediated messages; and includes mass communication research, theory and analysis.
