Total Recall! Routledge

The Arnold Arboretum's place among the world's great botanical gardens is in large part due to the skill and determination of its first director, Charles Sprague Sargent. In 1872, when Sargent was given the responsibility of creating an arboretum for Harvard, there were no American arboreta he could use as models. Yet the plan of development he established for the Arboretum was so sound that subsequent directors have adhered to it with few variations. This book, commissioned by the Arboretum to celebrate its hundredth anniversary, is both a biography of Sargent and a history of the institution's growth.

Journal of the Arnold Arboretum Simon and Schuster

The complete program for building and maintaining a well-conditioned, excellently proportioned body -- for a lifetime of fitness and health. In Arnold's *Bodybuilding for Men*, legendary athlete Arnold Schwarzenegger shows you how to achieve the best physical condition of your life. For every man, at every age, Arnold outlines a step-by-step program of exercise, skillfully combining weight training and aerobic conditioning. The result -- total cardiovascular and muscular fitness. Arnold's program of exercise features stretching, warm-up and warm-down routines, and three series of exercises, each more ambitious than the last, all calculated to help you progress at your own speed. In addition, Arnold contributes important advice about equipment, nutrition and diet, and getting started on your program of exercise. Special sections of Arnold's *Bodybuilding for Men* cover training for teenagers, exercises designed to keep you in shape on the road or when you can't get to the gym, and the regimen Arnold followed to win his seven Mr. Olympia titles. Illustrated with hundreds of photographs of Arnold and other top bodybuilders, Arnold's *Bodybuilding for Men* will help every man look great and feel terrific.

Revolutionary Rogues Arnold

Arnold Rothstein (1882-1928) was described in the newspapers of the 1920s as "a sportsman." "a gambler." "the man who fixed the 1919 World Series." But he was much more than that. A bootlegger and labor racketeer, he corrupted politicians, promoted crooked stock sales, and imported narcotics. And, perhaps most importantly, he transformed organized crime from a thuggish activity practiced by hoodlums into a big business. run like a corporation, with himself at the top. For twenty years, the name of Arnold Rothstein symbolized money—big-time money, gambling money, racket money, illegal money, millions upon millions of dollars. His share was ninety percent of any deal; he was never indicted for a single crime: he always won at cards and horses. And, despite his involvement in dozens of murders and hundreds of other crimes, his luck never ran out. At least not until 1928, the year in which he was fatally shot. The perpetrators—and Rothstein's millions—were never found. The *Big Bankroll* is the definitive biography of the man known simply as Mr. Big. In it, Leo Katcher reveals not only the sordid details of the life of America's most powerful gambler, but illuminates the whole era in which crime became king. Leo Katcher was a reporter for the *New York Post* during Rothstein's reign, and spent ten years researching this book, interviewing Lucky Luciano, Carolyn Behar (Rothstein's widow), and dozens of others.-Print ed. "This well-written book—part biography, part social history—is as fascinating as a dozen works of fiction, and a good deal more frightening."—Spectator "Leo Katcher, who was a newspaperman in the days when Rothstein ruled, has brought not only the man but his times back to life. This is a vivid, fascinating book....Katcher does not glamorize Rothstein: he dissects him skillfully and explains him and his corrupt associates and the conditions which made it possible for such men to become wealthy and powerful....Katcher has done a superb job."—Quentin Reynolds. Saturday Review

Benedict Arnold Lulu.com

Before he was a traitor, Benedict Arnold was a true American hero. He was fearless in battle and a beloved leader of men. He risked his life for his country and was instrumental in the early success of the American Revolution. George Washington called him, "The bravest of the brave." His name was Benedict Arnold. What started Washington's favorite military leader down the path to treachery? In *The Life of Benedict Arnold*, Isaac N. Arnold, a

descendant of Benedict Arnold, looks at both sides of this mysterious and compelling individual. The author shows us the complete man—Arnold's boyhood and military success, the betrayal, and his last years in England. Isaac Arnold also draws a portrait of Benedict Arnold's wife, Peggy Shippen, who played a critical role in her husband's treachery. With dozens of excerpts from the actual letters and memorandum of George Washington, Benedict Arnold, Peggy Shippen, and many others, Isaac Arnold leads us up to that moment when Benedict Arnold made his fateful decision—one which he truly believed would end the ongoing bloodshed of his fellow Americans. *The Life of Benedict Arnold* is a timeless and tragic tale of a disgraced American warrior. "Let me die in my old American uniform...God forgive me for putting on any other." - Benedict Arnold, on his deathbed.

Charles Sprague Sargent and the Arnold Arboretum GRIN Verlag

A demanding feminist, devout Christian, and savvy grassroots civil rights organizer, Anna Arnold Hedgeman played a key role in over half a century of social justice initiatives. Like many of her colleagues, including A. Philip Randolph, Betty Friedan, and Martin Luther King, Jr., Hedgeman ought to be a household name, but until now has received only a fraction of the attention she deserves. In *Until There Is Justice*, author Jennifer Scanlon presents the first-ever biography of Hedgeman. Through a commitment to faith-based activism, civil rights, and feminism, Hedgeman participated in and led some of the 20th century's most important developments, including advances in education, public health, politics, and workplace justice. Simultaneously a dignified woman and scrappy freedom fighter, Hedgeman's life upends conventional understandings of many aspects of the civil rights and feminist movements. She worked as a teacher, lobbyist, politician, social worker, and activist, often crafting and implementing policy behind the scenes. Although she repeatedly found herself a woman among men, a black American among whites, and a secular Christian among clergy, she maintained her conflicting identities and worked alongside others to forge a common humanity. From helping black and Puerto Rican Americans achieve critical civil service employment in New York City during the Great Depression to orchestrating white religious Americans' participation in the 1963 March on Washington, Hedgeman's contributions transcend gender, racial, and religious boundaries. Engaging and profoundly inspiring, Scanlon's biography paints a compelling portrait of one of the most remarkable yet understudied civil rights leaders of our time. *Until There Is Justice* is a must-read for anyone with a passion for history, biography, and civil rights.

The Big Bankroll! National Geographic Books

A *New York Times* Bestseller Winner of the George Washington Prize A surprising account of the middle years of the American Revolution and the tragic relationship between George Washington and Benedict Arnold, from the *New York Times* bestselling author of *In The Heart of the Sea*, *Mayflower*, and *In the Hurricane's Eye*. "May be one of the greatest what-if books of the age—a volume that turns one of America's best-known narratives on its head."—Boston Globe "Clear and insightful, [Valiant Ambition] consolidates Philbrick's reputation as one of America's foremost practitioners of narrative nonfiction."—Wall Street Journal In the second book of his acclaimed American Revolution series, Nathaniel Philbrick turns to the tragic relationship between George Washington and Benedict Arnold. In September 1776, the vulnerable Continental army under an unsure George Washington evacuated New York after a devastating defeat by the British army. Three weeks later, one of his favorite generals, Benedict Arnold, miraculously succeeded in postponing the British naval advance down Lake Champlain that might have lost the war. As this book ends, four years later Washington has vanquished his demons, and Arnold has fled to the enemy. America was forced at last to realize that the real threat to its liberties might not come from without but from within. Complex, controversial, and dramatic, *Valiant Ambition* is a portrait of a people in crisis and the war that gave birth to a nation.

Arnold for President Hva Press

Young fans of the Broadway smash "Hamilton" will enjoy this riveting nonfiction picture book that unfolds like a play, telling a story from American history. Gravely injured and with little chance for more military honors, Major General Benedict Arnold seeks reward and recognition another way. He contacts Major John André, the new head of British intelligence and another man determined to prove himself. Arnold and André strike a deal and use Arnold's intelligence to take over West Point, the strategic American fort. The plan ultimately fails, leading to André's capture and death and Arnold's loss of reward and glory. Author Selene Castrovilla and illustrator John O'Brien brilliantly capture the tensions and high drama of these two revolutionary rogues by highlighting their similarities and differences and demonstrating how they brought about their own tragic ends. This title also includes an afterword, timelines of the lives of both men, an extensive bibliography, and a list of key places to visit. American Airpower Comes Of Age—General Henry H. "Hap" Arnold's World War II Diaries Vol. II [Illustrated Edition] Cambridge : Harvard University Press

Benedict Arnold struggles with George Washington, as well as friends and family, to remove the stain of treason from his name. As the story unfolds, it becomes clear that Arnold did not act alone in his treasonous act. And it was none other than George Washington who, in his struggle for power and influence during the formation of a new Nation's government, kept the truth from surfacing. Arnold's act of treason was, in fact, the two Generals' most successful wartime plan: ensconce Benedict Arnold as a spy in the highest level of the British Military to bring victory to the colonies. Years after being deemed a traitor, Arnold attempts to return to the United States, but his plans are thwarted and his life is threatened by individuals concerned about the political consequences his return would have on the delicate, postwar struggles for power among those attempting to establish a functioning government in the United States. Arnold ultimately accepts the fact that the truth concerning his actions at West Point and thereafter will never be told during his lifetime. However, he remains determined that his children and future generations will remember him differently. As such, he convinces George Washington to take steps that would ensure that the truth of Arnold's innocence becomes known upon their deaths. Alas, through no fault of their own, Washington's and Arnold's effort to cleanse the stain left by their epic act of deception failsuntil now

Decoding Anorexia Rowman & Littlefield

Decoding Anorexia is the first and only book to explain anorexia nervosa from a biological point of view. Its clear, user-friendly descriptions of the genetics and neuroscience behind the disorder is paired with first person descriptions and personal narratives of what biological differences mean to sufferers. Author Carrie Arnold, a trained scientist, science writer, and past sufferer of anorexia, speaks with clinicians, researchers, parents, other family members, and sufferers about the factors that make one vulnerable to anorexia, the neurochemistry behind the call of starvation, and why it's so hard to leave anorexia behind. She also addresses: • How environment is still important and influences behaviors • The characteristics of people at high risk for developing anorexia nervosa • Why anorexics find starvation "rewarding" • Why denial is such a salient feature, and how sufferers can overcome it Carrie also includes interviews with key figures in the field who explain their work and how it contributes to our understanding of anorexia. Long thought to be a psychosocial disease of fickle teens, this book alters the way anorexia is understood and treated and gives patients, their doctors, and their family members hope.

Arnold Penguin

"Arnold Palmer helped me become a better man, a more devoted husband, loving father, effective coach, and successful business executive." Most people think of Arnold Palmer as the King of Golf. But for more than a quarter century, Brad Brewer has known and observed Palmer in the roles of employer, business partner, teacher, competitor, father, grandfather, philanthropist, and global celebrity. Above all, Arnold Palmer is Brad's friend and mentor, a man whose character both on and off the links has taught Brad how to be a winner in life at large as well as at golf.

Now Brad passes on the wisdom that he and others have learned from the King of Golf. *Mentored by the King* shares with you the true stories of other golfers who have competed with Palmer through the years, as well as Brad's personal accounts of traveling, working, and just hanging out with Arnold. Best of all, though, this book lets you learn from the winning attitude and approach of the Legend, Arnold Palmer, in golf, business, and life. The secrets shared in *Mentored by the King* include: • some deceptively simple principles that can change your life • the magnetic attraction of excellence • the power of an optimistic outlook • why risking big is the ticket to living even bigger • the life force of victory: persistence • ... and plenty more. These quick, easy-to-read chapters let you step inside the mind and life of the King, Arnold Palmer, to glean insights that can boost your own trajectory toward a successful, satisfying life.

The Life of Benedict Arnold Heritage Books

Taught to fly by the Wright Brothers, appointed the first and only five-star general of the Air Force, and remembered as the man who won World War II's air war, Henry Harley "Hap" Arnold is one of the most significant figures in American aviation history.

Despite his legacy as an air pioneer, little has been written about him. In the thoroughly detailed *Hap Arnold and the Evolution of American Airpower*, reprinted to celebrate the 75th anniversary of the United States Air Force, biographer and former military officer Dik Alan Daso draws on primary sources like Arnold's personal papers and formerly declassified military documents to sketch out his incredible life and career. Daso describes important technology, institutions, and individuals who influenced Arnold's decisions as a general, and reveals how the peacetime experiences of World War II's foremost military airman shaped the

evolution of American military aviation. This biography captures the adventurous career, dynamic personality, and bold vision of the "father of the Air Force."

Mentored by the King Smithsonian Institution

Five-time Mr. Universe, seven-time Mr. Olympia, and Mr. World, Arnold Schwarzenegger is the name in bodybuilding. Here is his classic bestselling autobiography, which explains how the "Austrian Oak" came to the sport of bodybuilding and aspired to be the star he has become. I still remember that first visit to the bodybuilding gym. I had never seen anyone lifting weights before. Those guys were huge and brutal....The weight lifters shone with sweat; they were powerful looking, Herculean. And there it was before me—my life, the answer I'd been seeking. It clicked. It was something I suddenly just seemed to reach out and find, as if I'd been crossing a suspended bridge and finally stepped off onto solid ground. Arnold shares his fitness and training secrets—demonstrating with a comprehensive step-by-step program and dietary hints how to use bodybuilding for better health. His program includes a special four-day regimen of specific exercises to develop individual muscle groups—each exercise illustrated with photos of Arnold in action. For fans and would-be bodybuilders, this is Arnold in his own words.
