untreatable to Spiegelgrund, one of the Reich's deadliest child-killing centers. In the first comprehensive history of the links between autism and Nazism, Sheffer uncovers how a diagnosis common today emerged from the atrocities of the Third Reich. With vivid storytelling and wide-ranging research, Asperger's Children will move readers to rethink how societies assess, label, and treat those diagnosed with disabilities. When You're Mine Lulu.com A dazzling first novel about a math prodigy who is being groomed by her parents to attend Oxford at the age of fourteen, Gifted heralds the arrival of a remarkable new talent. Numbers have filled Rumi Vashey's world since she first learned to count. But it was on a trip to India at the age of eight that her mathematical powers acquired their almost supernatural significance. At fourteen Rumi is firmly set on the path of a gifted child, speeding headlong towards Oxford University. As her father sees it, discipline is everything if the family is to have any hope of making its mark on its adoptive country. However, as Rumi gets older and the family's stark

isolation intensifies, numbers start to lose their magic for the young teenager: she abandons the rigid timetable of her afternoons and replaces equations with rampant spice abuse. As her longing for love and her parents' will to succeed deepen so too does the rift between generations. Gifted captures brilliantly the battle to come of age in an emotional and comic hinterland, where

histories, arithmetic and cumin seeds all play a part. In a voice that is by turns very funny and fiercely acute Lalwani vividly brings to life a young family's search for recognition and how that search can break a family apart. A story of high aspirations and deep desires, and of the sometime loneliness of childhood, Gifted is a remarkably passionate, assured and accessible debut. The Emperor,

C'est Moi Jessica Kingsley Publishers Commander David Cochrane Smith is about to embark on his most perilous adventure yet. November, 1917: The Imperial German Navy has sent Kapitan Erwin Voss to command the mighty new battle cruiser Salzburg in the Adriatic. Smith is ordered by the Admiralty to seek out and destroy her in harbour – a seemingly suicidal task

which is made all the more hopeless when he runs into the opposition of his superiors in Venice. But it is a vital mission, and Smith knows he must go it alone. Though the odds are stacked against him and his tiny crew, his orders are inflexible: seek out and destroy! This thrilling naval adventure is perfect for fans of Douglas Reeman and Julian Stockwin. Praise for Alan Evans 'I think

a 21 gun salute is required...Alan Evans has produced a cracking thriller' Daily Mirror 'Evans provides a different sea story, sustained suspense and vivid battle scenes' Publishers Weekly **Genius Squad** Jessica Kingsley Publishers In this intelligent and incisive book, Olga Bogdashina explores old and new theories of sensory perception and

communicatio n in autism. Drawing on linguistics, philosophy, neuroscience, psychology, anthropology and quantum mechanics, she looks at how the nature of the senses inform an individual's view of the world, and how language both reflects and constructs that view. Examining the 'whys' and 'hows' of the senses, and the role of language, Olga Bogdashina challenges common perceptions of

what it means to be 'normal' and 'abnormal'. In doing so she shows that autism can help to illuminate our understanding of what it means to be human, and of how we develop faculties that shape our cognition, language, and behaviour. In the final chapter, she explores phenomena often associated with the paranormal - including premonitions, telepathy and déjà vu - and

shows that these can largely be explained in natural terms. This book will appeal to anyone with a personal or professional interest in autism, including students and researchers, clinical practitioners, individuals on the autism spectrum and their families, teachers, speech and occupational therapists, and other professionals. *A Short History of Celebrity* Amelia Wilde Providing a

theoretical foundation for understanding communication and language impairments specific to autism, Olga Bogdashina explores the effects of different perceptual and cognitive styles on the communication and language development of autistic children. She stresses the importance of identifying each autistic individual's nonverbal language - which can be visual, tactile, kinaesthetic,

auditory, olfactory or gustatory - with a view to establish a shared means of verbal communication. She offers an explanation of why certain approaches, for example PECS, might work with some autistic children but not others. Offering real insights, the 'What They Say' sections enable the reader to see through the eyes of autistic individuals and to understand their language

differences first hand. 'What We Can Do to Help' sections throughout the book give practical recommendations on what to do in order to help autistic individuals use their natural mechanisms to learn and develop social and communicative skills. The final chapters are devoted to assessment and intervention issues with practical recommendations for selecting appropriate

methods and techniques to enhance communication, based on the specific mode of communication a person uses. Negotiation: Science and Practice Jessica Kingsley Publishers This book is based on the author's 50+ years experience in the power and distribution transformer industry. The first few chapters of the book provide a step-by-step procedures of transformer

design. Engineers without prior knowledge or exposure to design can follow the procedures and calculation methods to acquire reasonable proficiency necessary to designing a transformer. Although the transformer is a mature product, engineers working in the industry need to understand its fundamentals and design to enable them to offer products to meet the

challenging demands of the power system and the customer. This book can function as a useful guide for practicing engineers to undertake new designs, cost optimization, design automation etc., without the need for external help or consultancy. The book extensively covers the design processes with necessary data and calculations from a wide variety of transformers,

including dry-type cast resin transformers, amorphous core transformers, earthing transformers, rectifier transformers, auto transformers, transformers for explosive atmospheres, and solid-state transformers. The other subjects covered include, carbon footprint calculation of transformers, condition monitoring of transformers and design optimization techniques. In addition to

being useful for the transformer industry, this book can serve as a reference for power utility engineers, consultants, research scholars, and teaching faculty at universities.

Inspired by the often uncomfortable interplay between autistic individuals, parents and

professionals in understanding autistic spectrum conditions,

Olga Bogdashina uses the concept of Theory of Mind (ToM) to consider these groups' different (and often conflicting) perspectives.

ToM is the ability to imagine and make judgements about what others feel and think; its absence in autistic individuals is called 'mindblindness'. This book

addresses the 'mindblindness' of people united in their interest in autism but divided by their different angles and perspectives. Divided into four parts, the book first defines autism, then the views of the three main groups working with it - autistic individuals, parents and professionals - under the headings of classifications, diagnosis, causes, development, theories and treatment. By comparing

and reconciling the different perspectives in this way, the book helps each group to understand and predict each other's responses and behaviours. This enlightening and innovative book offers a unique way of 'stepping in each other's shoes' and is a valuable resource for all people living or working with autism. The Comparing Game: Escape The Comparing Paradigm,

Embrace Your Own Uniqueness, Be Your True Self Jessica Kingsley Publishers Although having Asperger Syndrome (AS) can make romantic relations difficult, having a fulfilling relationship with an Asperger man is certainly not impossible. A woman in love with a man with AS may interpret his difficulties with communication and socialization as a lack of

interest in the relationship. He may vacillate between being gentle and caring to seeming cold and distant. She may find his behaviour hard to understand, resulting in feelings of loneliness, isolation, and confusion. This book shows how to overcome these difficulties and maintain a loving relationship with an AS partner. From an unwillingness to show affection in

public or even sleep in the same bed to problems holding down a job, this book looks at 22 common traits that women may discover when they are dating, living with or married to a man with Asperger's Syndrome. Rudy Simone explores the complications of Asperger's relationships with honesty and understanding , drawing on research and personal experience to inform and advise women

with AS partners. She offers helpful tips for improving the relationship and finding fulfillment both individually and as a couple. This book will help women to understand the male Asperger's mind and, equally, it can help men with AS to see things from their partner's perspective. It will also be of interest to counsellors working with couples where the male partner has Asperger's

Syndrome. *Theory of Mind and the Triad of Perspectives on Autism and Asperger Syndrome* Seven Stories Press

This is the first book on the psychoanalytic treatment of children, young people and adults with Asperger's syndrome. It includes multidisciplinary contributions on psychiatric perspectives and psychological theories of the condition. There is an overview of relevant psychoanalytic theory, and chapters on Asperger's original paper, on firstperson accounts, on assessment and on care in the community. Clinical case histories of children, young people and the first published account of work with adults provide the possibility of using psychoanalytic work as a means of diagnostically differentiating between subgroups, as well as providing a detailed insight into the emotional experience of people with Asperger's syndrome. "When you think that life cannot get better, Blake Pierce comes up with another masterpiece of thriller and mystery! This book is full of twists, and the end brings a surprising revelation. Strongly recommended for the permanent library of any reader who

enjoys a very well-written thriller." -- Books and Movie Reviews (re Almost Gone) DEATH IN FLORENCE is book #2 in a charming new cozy mystery series by USA Today bestselling author Blake Pierce, whose #1 bestseller Once Gone has received 1,500 five-star reviews. The series (A YEAR IN EUROPE) begins with book #1 (A MURDER IN PARIS). Diana Hope, 55, is still adjusting to her recent separation when she

discovers her ex-husband has just proposed to a woman 30 years younger. Secretly hoping they would reunite, Diana is devastated. She realizes the time has come to reimagine life without him—in fact, to reimagine her life, period. Devoting the last 30 years of her life to being a dutiful wife and mother and to climbing the corporate ladder, Diana has been relentlessly

driven, and has not taken a moment to do anything for herself. Now, the time has come. Diana never forgot her first boyfriend, who begged her to join him for a year in Europe after college. She had wanted to go so badly, but it had seemed like a wild, romantic idea, and a gap year, she'd thought, would hinder her resume and career. But now, with her daughters grown, her husband gone, and her career no longer

fulfilling, Diana realizes it's time for herself—and to take that romantic year in Europe she'd always dreamed of. Diana prepares to embark on the year of her life, finally turning to her bucket list, hoping to tour the most beautiful sights and sample the most scrumptious cuisines—and maybe, even, to fall in love again. But a year in Europe may have different plans in store for her. Can A-

type Diana learn to go with the flow, to be spontaneous, to let down her guard and to learn to truly enjoy life again? In DEATH IN FLORENCE (Book #2), Diana arrives in Florence, ready to shake off the events of Paris and fulfill her lifelong dream of being proposed to on the romantic Ponte Vecchio bridge. But Diana can never possibly anticipate what she is about to find on that bridge,

and how it may just turn her romantic dream into a ridiculous nightmare! A YEAR IN EUROPE is a charming and laugh-out-loud cozy mystery series, packed with food and travel, with mysteries that will leave you on the edge of your seat, and with experiences that will leave you with a sense of wonder. As Diana embarks on her quixotic quest for love and meaning, you will find yourself falling in love and

rooting for her. You will be in shock at the twists and turns her journey takes as she somehow finds herself at the center of a mystery, and must play amateur sleuth to solve it. Fans of books like Eat, Pray, Love and Under the Tuscan Sun have finally found the cozy mystery series they've been hoping for! Book #3 (VENGEANCE IN VIENNA) in the series is now also available! 22 Things a Woman Must

Know If She Loves a Man with Asperger's Syndrome  
Blake Pierce  
Based on Nick Dubin's own experience, and drawing on the extensive knowledge of Dr Tony Attwood and Dr Isabelle Hénault, this important book addresses the issues surrounding the autism spectrum, sexuality and the law. The complex world of sex and appropriate sexual behaviour can be extremely

challenging for people with autism spectrum disorder (ASD) and, without guidance, many find themselves in vulnerable situations. This book examines how the ASD profile typically affects sexuality and how sexual development differs between the general population and those with ASD. It explains the legalities of sexual behaviour, how laws differ from

country to country, and the possibility for adjustment of existing laws as they are applied to the ASD population. With advice on how to help people with autism spectrum disorder gain a better understanding of sexuality and a comprehensiv e list of resources, the book highlights the need for a more informed societal approach to the psychosexual development of people with	ASD. A ground- breaking and honest account, this book will be an invaluable addition to the shelves of parents of children with ASD, mental health and legal professionals, teachers, carers and other professionals working with individuals on the spectrum. <i>Death in Florence (A Year in Europe—Book 2)</i> Jessica Kingsley Publishers This is book 2. HarperCollins  
A history of celebrity from Byron to Beckham Love it or hate it, celebrity is one of the dominant features of modern

life—and one of the least understood. Fred Inglis sets out to correct this problem in this entertaining and enlightening social history of modern celebrity, from eighteenth-century London to today's Hollywood.

Vividly written and brimming with fascinating stories of figures whose lives mark important moments in the history of celebrity, this book explains how fame has

changed over the past two-and-a-half centuries. Starting with the first modern celebrities in mid-eighteenth-century London, including Samuel Johnson and the Prince Regent, the book traces the changing nature of celebrity and celebrities through the age of the Romantic hero, the European fin de siècle, and the Gilded Age in New York and Chicago. In the

twentieth century, the book covers the Jazz Age, the rise of political celebrities such as Mussolini, Hitler, and Stalin, and the democratization of celebrity in the postwar decades, as actors, rock stars, and sports heroes became the leading celebrities. Arguing that celebrity is a mirror reflecting some of the worst as well as some of the best aspects of modern history itself, Inglis

considers how the lives of the rich and famous provide not only entertainment but also social cohesion and, like morality plays, examples of what—and what not—to do. This book will interest anyone who is curious about the history that lies behind one of the great preoccupations of our lives. Take New York by storm and steer clear of serious relationships. That's the plan. That's the goal. It's easy too, now that my software company is making headlines. Nothing is getting in the way of that--not even my sexy personal trainer. I don't care how beautiful and intriguing she is. Mel Dawson keeps talking me

into doing things, like watching the sunset and slowing down to enjoy life. When she trains me, and I watch her body, I'm constantly fantasizing about exploring every inch of it all night long, claiming her mouth every time she gives me a sassy reply. I don't even know who I am when I'm with her. I'm suddenly a completely different man. But, I like this version of myself better. Mel's smart,

determined, and keeps me guessing. She's everything I need and want, but I've been burned before. I'm used to taking chances in the boardroom, just not in my personal life. How much am I willing to risk for a chance to make her mine?

 Azul bet all her cards on love but lost. Matías is not the man she fell in love with, he broke her confidence and self-esteem. He cheated on her and nothing will ever be the same again. It will be better to dry her tears and not trust men like him again. Matías knows that his

unfaithful nature will always be there but he is not capable of accepting he will lose her. He knows from experience that love and sex are not the same and will try to prove it every day. Will Azul be able to excuse a year of lies and deceptions? Can love forgive everything? What if a new love offered you everything you've lost? Because appearances are sometimes much worse, the author presents a great challenge for all those who believe in love. Is sexual infidelity equal to emotional infidelity? Forgiveness or moving on? What would you do...? The Asperkid's (Secret) Book of Social Rules Quintin Rares They're wrong for each other, but nothing has ever felt so right Uptown girl Emmaline Claiborne needs a man, and not just any man. She needs the kind of man who can make her lying, cheating, no-good ex-boyfriend insane with jealousy. The same ex-boyfriend who is now engaged to her sister, and whose extravagant wedding she must suffer through in just three weeks' time. She selects the perfect candidate through an online dating app, but instead of the smooth, sophisticated software magnate she expects, a rugged

cowboy shows up instead. He's the complete opposite of everything Emma is looking for. In fact, he's exactly the kind of man she swore to her Texas ranching family she would never fall for. Which makes Cort Channing kinda perfect. Only before the weekend is over, Emma finds herself wishing she could keep her fake boyfriend, spurs, chaps,

and all. Can this committed city girl take the biggest chance of her life, and swipe right for a cowboy?
