EMQs in *Obstetrics and Gynaecology* CRC Press

In recent years advances in laparoscopic technologies have led to renewed interest in the vaginal approach to hysterectomy, which has many proven benefits for patients. This volume, dedicated to explaining and promoting the vaginal route of hysterectomy, is written and edited by an international team of experts and provides a much-needed source of

*Obstetrics and Gynaecology Mcqs* CRC Press

This book established itself in its first edition as the definitive 'one-stop-shop' revision aid; the only one available to encompass all elements of the MRCOG Part 2 examination in a single volume. Now incorporating practice EMQs as well as the standard question types, this second edition will ensure that it retains its place on the 'must-have' list for every candidate preparing for this exam.

Concentrating on testing the candidate's theoretical and practical knowledge as recommended in the current MRCOG syllabus, the book tests the trainee with questions in obstetrics and gynaecology and those aspects of medicine, surgery and paediatrics relevant to the practice of both. The book is divided into four key parts, one for each style of question, each of which opens with an introductory section on how to approach the exam and, crucially, how to fail it. # Part 1 provides a series of short answer practice papers. Common mistakes are highlighted as well as a list of key points required to get full marks. A sample answer is given for each question # Part 2 contains a mock paper for the MCQ part of the exam, containing 225 questions with answers and helpful annotations # Part 3 introduces the EMQ, giving the reader 40 questions in the style of the examination, together with answers and explanatory notes # Part 4 is devoted to the OSCE, with descriptions of 20 sample stations assessing different aspects of clinical practice, advice on how to tackle these, and suggested marking schemes. Throughout, questions have been designed to test factual knowledge and understanding, problem-solving ability, and clinical and communication skills.

*1,000 Practice MTF MCQs for the Primary and Final FRCA* CRC Press

Here are 120 multiple choice questions on family planning and reproductive health care. Each question has been carefully selected to reflect the syllabus of the new Part 1 examination for Membership of the Faculty of Family Planning and Reproductive Healthcare (MFFP). Almost all the questions are accompanied by an extended answer. In this way, as well as providing a useful revision aid for examinations, the book is also educationally stimulating for anyone wishing to improve and test their knowledge of family planning and reproductive healthcare. The questions have been divided in three major sections: Applied Sciences; Contraception; and Reproductive Healthcare. This book will be an ideal training and revision tool for candidates for the professional exams such as the new MFFP as well as the MRCOG and MRCGP. It will also provide a useful aid to anyone who wishes to update their understanding of these important topics in reproductive medicine.

*MRCOG Part 2: 200-plus EMQs, MCQs and SBAs* CRC Press

**Obstetrics and Gynaecology Mcqs** JP Medical Ltd

This work features a Foreword by David Taylor, Vice Dean, Leicester Medical School. "This book is the first to assist students with a new format of testing knowledge and clinical skills, i.e., the extended matching question. I am delighted my colleagues here in Leicester, where undergraduate education is given the very highest priority, have found the time and energy to write this book. This book comprehensively tests a whole range of obstetrics and gynaecology and I congratulate them for it." - David Taylor, in the Foreword. This revision aid in Obstetrics and Gynaecology is based on the Extended Matching Question format (EMQ). It contains over 200 patient vignettes arranged in topic areas covering a broad range of themes and degrees of difficulty. It provides test EMQs and detailed answers at the completion of each section. "EMQs in Obstetrics and Gynaecology" is an indispensable study and revision aid for undergraduate medical students preparing for in-course assessment in obstetrics and gynaecology as well as final exams. It also provides a vital review for specialist trainees in obstetrics and gynaecology preparing to take postgraduate exams.

**MCQs for MRCOG Part 1** CRC Press

This volume of practise true/false MCQs and short answer questions is intended to be used by the trainee obstetrician and gynaecologist as a self-assessment aid throughout training and during revision for the MRCOG examination, in particular Part 2. Questions have been carefully designed to test both theoretical and practical knowledge, and are representative of the curricular elements highlighted within the RCOG trainee logbook.

*MCQs for MRCOG Part 2* CRC Press

This book concisely provides important Pathology concepts to aid pathology trainees, including medical students and resident physicians, in passing any advanced pathology examination. It provides a much needed revision aid and study guide. Through dedicated questions and answers over 23 chapters covering every major organ system, the book will develop skills needed to deal with different aspects of pathology in a systematic yet summarized manner. The book helps solve problems faced by trainees by providing the highest yield content. Throughout the book, an intuitive and systematic approach is used to reinforce fundamental concepts.

**SAQs, MCQs, EMQs and OSCEs for MRCOG Part 2, Second edition** Jones & Bartlett Publishers

This book comprises MCQs that are designed to test the candidate's theoretical and practical knowledge of obstetrics and gynaecology as recommended in the syllabus for the MRCOG Part 2 examination. Upwards of 250 single and multiple stem questions will be included giving over 800 questions in all. Full answers with explanatory text will be provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD ROM. Using this the candidate will be able to select at random questions to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program will calculate their scores and indicate whether this would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.

*Mcqs for Medical Students and Doctors* CRC Press

Principles and Practices of Obstetrics and Gynaecology Nursing - E-Book

*DRCOG MCQs and OSCEs - how to pass first time* Springer Nature

The Diploma of the Royal College of Obstetricians and Gynaceologists (DRCOG) examination consists of 60 multiple choice questions (MCQs) and 22 six minute structured clinical examination stations (OSCEs), of which two are rest stations. This one day examination is designed for General Practice trainees, ideally with six months' experience in obstetrics and gynaecology at the senior house officer grade.This book presents three complete DRCOG MCQ and OSCE circuits and encompasses all the possible MCQ and OSCE topics that can and have been asked in the DRCOG examination. They are presented in an identical way to the exam itself.The author, Mrs Una Coales MD, FRCSEd, DRCOG, trained in medicine in the USA and moved to practise in the UK. She has taken and passed the DRCOG exam herself and has also published popular exam texts for PLAB Parts 1 and 2.

*MCQs & Short Answer Questions for MRCOG* NISHANT BHUSHAN

A single, comprehensive text covering all the MCQs required to prepare for both the Primary and Final FRCA exams.

**Self Assessment in Obstetrics and Gynaecology by Ten Teachers 2E EMQs, MCQs, SAQs & OSCEs** CRC Press

This clinical reference provides current and comprehensive material on hemostatic disorders. It covers normal mechanisms of hemostasis, primary disorders of hemostasis, and hemostatic

disorders associated with other conditions. Specific chapters address such topics as circulating inhibitors, fibrinolytic bleeding disorders, genetic disorders of blood coagulation, drug-induced disorders of coagulation, psychogenic bleeding, and much more.

Obstetrics and Gynaecology for Finals, DRCOG and MRCOG Lippincott Williams & Wilkins

This book is intended as a constant revision tutor and should help you to revise your obstetrics and gynaecology in preparation for examinations. It is particularly aimed at helping you to identify

areas where your knowledge and understanding needs to be improved. The answers and clinical notes in this book are presented so that you can commit yourself in written opinion and can then confirm correct information and identify errors. The answers should reinforce your knowledge when you are correct and your reference textbooks explain why you were mistaken if your answer is wrong.

MCQs in Clinical Pharmacy CRC Press

"What are fibroids? Do fibroids affect my ability to become pregnant and to have children? Should

fibroids be treated? What is uterine artery embolization (UAE)? If the fibroids are not causing any problems, is watchful waiting a better option than surgery?" -- Cover.
