## VANG BRAYDON

Official--Automobile Blue Book WW Norton Today, Shreveport boasts the largest collection of important twentieth-century buildings in the state of Louisiana, and is surpassed only by New Orleans in the number of locations listed on the National Register of Historic Places. Well-known Shreveport historian Eric J. Brock details the history of the city's commerce, civic development, neighborhoods, architecture, cemeteries, peculiar events, culture, religion, and education. Based on his columns for the long-running series, "The Presence of the Past," which appeared weekly in the Shreveport JournalPage, it is the result of many years of documentation and research. One can witness the breakup of the Great Raft, relive the yellow fever epidemic of 1873, sing along at the Louisiana Hayride, and retrace the steps of Martin Luther King, Jr. Written in response to an overwhelming number of requests and suggestions for a book of its kind, Eric Brock's Shreveport should fill the void for academic books depicting the area.

The Red River turns and flows southeast through Palo Duro Canyon in Palo Duro Canyon State Park at an elevation of 3,440 feet (1,050 m), then past Newlin, Texas, to meet the Oklahoma state line. Past that point, it is generally considered the main stem of the Red River. Near Elmer, Oklahoma, the North Fork finally joins, and the river proceeds to follow a winding course east through one of the most arid parts of the Great Plains, receiving the Wichita River as it passes the city of Wichita Falls. Near Denison, the river exits the eastern end of

Simple, subtle, and drolly funny, the Pumphrey brothers' newest picture book is a layered exploration of the foolishness of making assumptions and the virtue of curiosity. When four swamp creatures looking to cross a river come upon a log that would allow for precisely that, they can't believe their luck. But a questionable tail adjacent to that log gives them second thoughts. Opossum believes it's a sneaky tail and that they must pass it quietly. Squirrel thinks it's a scary tail that can be cowed by intimidation. Rabbit decides it's a mean tail that deserves a taste of its own medicine. As the critters exhaust approaches one by one, Mouse, the

smallest of the lot, observes their folly and adjusts accordingly. But is it the mouse or the tail that will defy expectations? Pairing their iconic illustration style with a wry irreverence, the Pumphrey brothers have crafted a delightful tale that reminds us to think before we act.

"Over nearly 6 decades, trial attorney Mike Fawer's prolific career as a trial attorney led him to defend a charismatic Louisiana governor, a pioneering Mississippi mayor, and a wrongfully convicted man who spent more than a decade on death row, among many others. In his defense of those clients -- Edwin Edwards, Charles Evers, and Curtis Kyles and all the others -- Fawer was well known as an aggressive advocate who tangled with prosecutors and judges alike. Fawer's skilled and enthusiastic cross-examinations disarmed opponents and persuaded jurors." "In his memoir ... Fawer gives readers a behind-the-scenes look at his wins, losses, and acrimonious relationships with judges that have fascinated colleagues and opponents for years." -from back cover.

The Restless Seventies. The Need To Roam. Free At Last. An Adventurous Journey Of Self-Discovery. Twenty-something New Yorker, Brenden O'Neill, sticks out his thumb and travels the country during the seventies. He experiences life and love, and wonders beyond his imagining. He meets people from all walks of life, and walks with them. He befriends hobos, street performers, ladies of the night, the beautiful people and the not so beautiful people. His travels take him by car, truck, train and very occasionally plane, from Hell's Kitchen to New Orleans, Hawaii, all over America and beyond. Along the way he picks up many and varied new skills, takes whatever jobs he can grab, and lives life on the road, sometimes in splendor and sometimes in squalor. Through the people he meets and the places he goes, Brenden explores his own views on beauty, love, faith, fate, family and life. Based partly on the real-life experiences of the author (yes, the unbelievable roof incident really happened), *Blue Bayou* combines adventure, humor, fact and fiction to weave a captivating tale that is entertaining and thought provoking. This is the second book in Robert Carroll's *Canticle Cross* series.

*Blood on the Bayou* University of North Texas Press

The second book in a new urban fantasy series featuring mosquito-sized fairies with poisonous bites that drive humans insane.

The Cajun coast of Louisiana is home to a way of life as unique, complex, and beautiful as the terrain itself. As award-winning travel writer Mike Tidwell journeys through the bayou, he introduces us to the food and the language, the shrimp fisherman, the Houma Indians, and the rich cultural history that makes it unlike

any other place in the world. But seeing the skeletons of oak trees killed by the salinity of the groundwater, and whole cemeteries sinking into swampland and out of sight, Tidwell also explains why each introduction may be a farewell—as the storied Louisiana coast steadily erodes into the Gulf of Mexico. Part travelogue, part environmental exposé, *Bayou Farewell* is the richly evocative chronicle of the author's travels through a world that is vanishing before our eyes.

First published in 1966, *Bayou Salado* is an engaging look at the history of a high cool valley in the Rocky Mountains. Now known as South Park, Bayou Salado once attracted Ute and Arapaho hunters as well as European and American explorers and trappers. Virginia McConnell Simmons's colorful accounts of some of the valley's more notable residents - such as Father Dyer, the skiing Methodist minister-mailman, and Silver Heels, the dancer who lost her legendary beauty while tending to the ill during a small pox epidemic - bring the valley's storied past to life.
