Hannibal Lecter's Forms, Formulations, and Transformations Crossroad Press
This book examines how the iconic character Hannibal Lecter has been revised and redeveloped across different screen media texts. Hannibal "The Cannibal" Lecter has become one of Western culture's most influential and enduring models of monstrosity since his emergence in 1981 in Red Dragon, Thomas Harris' first Lecter book. Lecter is now at the centre of an extensive cross-mediated mythology, the most recent incarnation of which is Bryan Fuller's television program, *Hannibal* (NBC, 2013-2015). This acclaimed series is the focus of *Hannibal Lecter's Forms, Formulations, and Transformations*, which examines how Fuller's program harnesses the iconic character to experiment with traditional boundaries of genre, medium, taste, and narrative form. Featuring chapters from established and emerging screen and popular culture scholars from around the world, the book outlines how the show operates as a striking experiment with televisual form and formula. The book also explores how this experimentation is embodied by the boundary-defying character, the savage cannibalistic serial killer, practicing psychiatrist, and cultured art enthusiast, Hannibal Lecter. The chapters in this book were originally published as a special issue of the journal, *Quarterly Review of Film and Video*.

Horror is often dismissed as mass art or lowbrow entertainment that produces only short-term thrills. Horror films can be bloody, gory, and disturbing, so some people argue that they have bad moral effects, inciting viewers to imitate cinematic violence or desensitizing them to atrocities. In *The Naked and the Undead: Evil and the Appeal of Horror*, Cynthia A. Freeland seeks to counter both aesthetic disdain and moral condemnation by focusing on a select body of important and revealing films, demonstrating how

the genre is capable of deep philosophical reflection about the existence and nature of evil—both human and cosmic. In exploring these films, the author argues against a purely psychoanalytic approach and opts for both feminist and philosophical understandings. She looks at what it is in these movies that serves to elicit specific reactions in viewers and why such responses as fear and disgust are ultimately pleasurable. The author is particularly interested in showing how gender figures into screen presentations of evil. The book is divided into three sections: *Mad Scientists and Monstrous Mothers*, which looks into the implications of male, rationalistic, scientific technology gone awry; *The Vampire's Seduction*, which explores the attraction of evil and the human ability (or inability) to distinguish active from passive, subject from object, and virtue from vice; and *Sublime Spectacles of Disaster*, which examines the human fascination with horror spectacle. This section concludes with a chapter on graphic horror films like *The Texas Chainsaw Massacre*. Written for both students and film enthusiasts, the book examines a wide array of films including: *The Silence of the Lambs*, *Repulsion*, *Frankenstein*, *The Fly*, *Dead Ringers*, *Alien*, *Bram Stoker's Dracula*, *Interview with the Vampire*, *Frenzy*, *The Shining*, *Eraserhead*, *Hellraiser*, and many others.

Dr. Lecter is a former psychiatrist with a grisly history, unusual tastes, and an intense curiosity about the darker corners of the mind. How many acts of murder have each of us followed on a screen? What does that say about us? Do we remain law-abiding citizens who wouldn't hurt a fly? Film historian David Thomson, known for wit and subversiveness, leads us into this very delicate subject. While unpacking classics such as *Seven*, *Kind Hearts and Coronets*, *Strangers on a Train*, *The Conformist*, *The Godfather*, and *The Shining*, he offers a disconcerting sense of how the form of movies makes us accomplices in this sinister narrative process. By turns seductive and astringent, very serious and suddenly hilarious, *Murder and the Movies* admits us into what Thomson calls "a warped triangle": the creator working out a compelling death; the killer doing his and her best; and the entranced reader and spectator trying to cling to life and a proper sense of decency.

Meet Martin Koll, the young CEO of a successful tech company that has just landed a multimillion-dollar client. Life is good. Until it isn't. When Koll falls under suspicion of murder, all the evidence

seems against him. Fortunately he has an airtight alibi – until suddenly he doesn't. As the police gather evidence for an arrest, it falls on Koll to clear himself – to find out who has set him up, and why? Time is running out. *** A combo of classic noir and modern-day mystery, *Alibi* is fast-paced with not a wasted word. Martin Koll is a great lead character –unflappable, he ain't! His alarming adventure is a totally engaging ride – like being on a roller coaster and not being able to remove your clenched hands from the grab bar! - Audrey E. Kupferberg, co-author of *Angela Lansbury*, *Matthau: A Life*, and *Meet the Mertzses* McCarty's protagonist, an "everyman" Philip Marlowe, casts the reader in the role of gumshoe in this modern day homage to classic detective fiction and films noir. The story unfolds in gritty black & white at a fast clip -- I loved the Evelyn character's back story and her long suffering mother. A pleasure to read. - Frank Laloggia, writer-director of *Lady in White* and *Fear No Evil* "This gritty, grimy, rain-drenched odyssey of New York cranks into high gear from the first page and barely gives the reader a chance to draw breath. Told in a rollercoaster first-person narrative by a murder suspect turned reluctant detective, *Alibi* is a gripping modern noir that balances hard-boiled sleuthing with a palpable air of paranoia and desperation. Cops, dames and an unstoppable avenging hero populate this bleak landscape - a milieu that John McCarty embraces with a tip of the fedora to Dashiell Hammett whilst simultaneously crafting a wholly plausible evolution of the genre." - Tony Earnshaw, author of *An Actor and a Rare One* - Peter Cushing as Sherlock Holmes

Since the days of silent films, music has been integral to the cinematic experience, serving, variously, to allay audiences' fears of the dark and to heighten a film's emotional impact. Yet viewers are often unaware of its presence. In this bold, insightful book, film and music scholar and critic Royal S. Brown invites readers not only to "hear" the film score, but to understand it in relation to what they "see." Unlike earlier books, which offered

historical, technical, and sociopolitical analyses, *Overtones and Undertones* draws on film, music, and narrative theory to provide the first comprehensive aesthetics of film music. Focusing on how the film/score interaction influences our response to cinematic situations, Brown traces the history of film music from its beginnings, covering both American and European cinema. At the heart of his book are close readings of several of the best film/score interactions, including *Psycho*, *Laura*, *The Sea Hawk*, *Double Indemnity*, and *Pierrot le Fou*. In revealing interviews with Bernard Herrmann, Miklós Rózsa, Henry Mancini, and others, Brown also allows the composers to speak for themselves. A complete discography and bibliography conclude the volume.

Film history is merged with psychiatric history seamlessly, to show how and why bad depictions of mind doctors (especially hypnotists) occur in early film, long before Hannibal Lecter burst upon the scene. The German Expressionist *Dr. Caligari* is not cinema's first psychotic charlatan, but he launches the stereotype of screen psychiatrists who are sicker than their patients. Many film psychiatrists function as political metaphors, while many more reflect real life clinical controversies. This book discusses films with diabolical drugging, unethical experimentation, involuntary incarceration, sexual exploitation, lobotomies, "shock schlock," conspiracy theories and military medicine, to show how fact informs fantasy, and when fantasy trumps reality. Traditional asylum thrillers changed after hospital stays shortened and laws protected people against involuntary commitment. Except for six short "golden years" from 1957 to 1963, portrayals of bad psychiatrists far outnumber good ones and this book tells how and why that was.

This comprehensive study of author Thomas Harris' popular works focuses particularly on Harris's internationally known antihero Hannibal "The Cannibal" Lecter in the classic novels *Red Dragon*, *Silence of the Lambs*, and *Hannibal*. In 12 scholarly essays, the work examines several themes within Harris' trilogy, including the author's artistic exploration of repressed desires, his refinement of neo-noir themes and the serial killer motif, and his developing perceptions of feminine gender roles. Several essays also focus on Harris' works before and after the popular trilogy, examining themes such as gothic romance in Harris's first novel *Black Sunday* and the making of a monster in the trilogy's 2006 prequel *Hannibal Rising*.

The 1991 film *The Silence of the Lambs*, based on Thomas Harris's bestseller, was a game-changer in the fields of both horror and crime cinema. FBI trainee Clarice Starling was a new kind of heroine, vulnerable, intuitive, and in a deeply unhealthy relationship with her monstrous helper/opponent, the serial killer Hannibal Lecter. Jonathan Demme's film skillfully appropriated the tropes of police procedural, gothic melodrama and contemporary horror and produced something entirely new. The resulting film was both critically acclaimed and massively popular, and went on to have an enormous influence on 1990s genre cinema. Crime and horror authority Barry Forshaw closely examines the factors that contributed to the film's impact, including the revelatory performances of Jodie Foster and Anthony Hopkins in the lead roles.
