[Great Illustrated Classics Aesops Fables](#) Mind Melodies

This illustrated collection includes hundreds of fables that have influenced our world for centuries. The stories attributed to Aesop, a slave and storyteller who lived in Greece around 620-564 BCE, were

originally passed on through oral tradition before first being transcribed several centuries after his death. Many of these fables use animals as the main characters to convey deeper meanings and morals that have become ingrained in our cultural and personal belief systems. This elegant leather-bound volume includes 488 fables, along with more than 100 illustrations by celebrated artists Arthur Rackham and Walter Crane. A scholarly introduction examines Aesop's life and the oral tradition, providing readers with further insight into the world of the humble storyteller whose presence continues to touch us today.

He illustrated many books, the first of which was published in 1893. Throughout his career he

had developed a very individual style that is was to influence a whole generation of children, artists and other illustrators. His haunting humour and dreamlike romance adds to the enchantment and fantasy of children's literature.

This book 'Aesop's Fables' presents a collection of entertaining stories with thought-provoking morals along with Rackham's beautifully imaginative and humorous illustrations. A People's History of Classics explores the influence of the classical past on the lives of working-class people, whose voices have been almost completely excluded from previous histories of classical

scholarship and pedagogy, in Britain and Ireland from the late 17th to the early 20th century. This volume challenges the prevailing scholarly and public assumption that the intimate link between the exclusive intellectual culture of British elites and the study of the ancient Greeks and Romans and their languages meant that working-class culture was a 'Classics-Free Zone'. Making use of diverse sources of information, both published and unpublished, in archives, museums and libraries across the United Kingdom and Ireland, Hall and Stead examine the working-class experience of classical culture from the Bill of Rights in 1689 to the outbreak of World War II. They analyse a huge volume of data, from individuals, groups, regions and activities, in a huge range of sources including memoirs, autobiographies, Trade Union collections, poetry, factory archives, artefacts and documents in regional museums. This allows a deeper understanding not only of the many examples of interaction with the Classics, but also what these cultural interactions

signified to the working poor: from the promise of social advancement, to propaganda exploited by the elites, to covert and overt class war. A People's History of Classics offers a fascinating and insightful exploration of the many and varied engagements with Greece and Rome among the working classes in Britain and Ireland, and is a must-read not only for classicists, but also for students of British and Irish social, intellectual and political history in this period. Further, it brings new historical depth and perspectives to public debates around the future of classical education, and should be read by anyone with an interest in educational policy in Britain today.

According to the Greek historian Herodotus, the fables were invented by a slave named Aesop, who lived in Ancient Greece during the 5th century BC. While some suggested that Aesop did not actually exist, and that the fables attributed to him are folktales of

unknown origins, Aesop was indeed mentioned in several other Ancient Greek works - Aristophanes, in his comedy *The Wasps*, represented the protagonist Philocleon as having learnt the absurdities of Aesop from conversation at banquets; Plato wrote in *Phaedo* that Socrates whiled away his jail time turning some of Aesop's fables which he knew into verses; Demetrius of Phalerum compiled the fables into a set of eleven books (*Lopson Aisopeion sunagogai*), which have been lost, for the use of orators. There was also an edition in elegiac verse by an anonymous author, which was often cited in

the *Suda*.
