very Hindu Benares, and their exotic confluence in Lucknow."--BOOK JACKET.  
*NVS Navodaya Vidyalaya Samiti PGT/TGT Anivarya Vishaya* Diamond Pocket Books (P) Ltd. This volume presents the proceedings of the Third International Sanskrit Computational Linguistics Symposium hosted by the University of Hyderabad, Hyderabad, India during January 15-17, 2009. The series of symposia on Sanskrit Computational Linguistics began in 2007. The first symposium was hosted by INRIA at Rocquencourt, France in October 2007 as a part of the joint collaboration between INRIA and the University of Hyderabad. This joint

collaboration expanded both geographically as well as academically covering more facets of Sanskrit Computational Linguistics, when the second symposium was hosted by Brown University, USA in May 2008. We received 16 submissions, which were reviewed by the members of the Program Committee. After discussion, nine of them were selected for presentation. These nine papers fall under four broad categories: four papers deal with the structure of Panini's *Astadhyaya*?. Two of them deal with parsing issues, two with various aspects of machine translation, and the last one with the Web concordance of an important Sanskrit text. If we look retrospectively

(2017& 2011) **English language** series consists of 3 English language books for classes 1 to 5. The series is based on the NCF, the series guides learners through the seven stages of a brain-based approach to learning i.e. Pre-exposure, Preparation, Initiation & Acquisition, Elaboration, Incubation & memory encoding, verification & Confidence check, celebration & Integration. The 5Ps address the above stages as follows : Ponder: aids the learners in pre-acquisition of concepts by setting the context, while preparing them to read the text with the aid of the glossary

Topi Shukla Prabhat Prakashan

1. It is a series of English Coursebooks, Workbooks and Literature Readers for classes 1 to 8. 2. Wall of Fame : At the beginning of the book is a gallery of famous authors and characters

that the child will meet inside. 3. The use of Graphic Organisers, Timelines and Graphic retelling of stories help develop critical thinking and study skills in learners—two vital tools for learning. 4. Based on the NCF, the series guides learners through the seven stages of a brain-based approach to learning i.e. Pre-exposure, Preparation, Initiation & Acquisition, Elaboration, Incubation & memory encoding, verification & Confidence check, celebration & Integration. 5. The 5Ps address the above stages as follows : Ponder: aids the learners in pre-acquisition of concepts by setting the context, while preparing them to read the text with the aid of the glossary

and in-text questions. Prepare: immerses the learners into the context and initiates holistic learning. It helps in the acquisition of newer perspectives through task-based activities. Practise: lays out the canvas for the stage of elaboration, in which the learners analyse and evaluate the text while applying their understanding of it. Perfect: aids memory encoding through drilling of vocabulary and grammar topics. It helps with incubation of concepts. Perform: functions as a confidence check for learners and ensures verification of their performative skills. This stage of summing up allows a functional integration of acquired concepts, leading to a celebration of learning.

6. Cross-curricular (CC) links weave references from other subjects through the chapters. 7. Task-Based Learning (TBL) activities present learners with real-life situations within the classroom. 8. Life Skills (LS) are enhanced through challenging texts and value-based concept checking questions (CCQs). 9. Tense Timelines (5-8): On the last page of the book is a graphic representation of Tenses. 10. Full page Illustrations and Double-spreads in lower classes make learning fun and interesting.

Panini's Ashtadhyayi represents the first attempt in the history of the world to describe and analyse the components of a language on scientific lines. It has not only been universally acclaimed as the first and foremost specimen of Descriptive Grammar but has also been the chief source of inspiration for the linguist engaged in describing languages of different regions. To understand Sanskrit language, and especially that part of it which embodies the highest aspirations of ancient Aryan people, viz., the Brahmanas, Samhitas, Upanisads, it

is absolutely necessary to have a complete knowledge of the grammar elaborated by Panini. Being a masterpiece of reasoning and artistic arrangement its study is bound to cultivate intellectual powers. Western scholars have described it as a wonderful specimen or a notable manifestation of Indian intelligence. This book is an English translation of Ashtadhyayi in two volumes and has won a unique position in the world of scholarship. *Vedānta-paribhāṣā of Dharmarāja Adhvarīndra* Motilal Banarsidass  
The present grammar has been prepared with a view to meet the growing educational need of university students. The author

has done his best to bring the present grammar up to the requirements of the students. In writing the various chapters of this book, the author has closely followed Pannini, as explained by Bhattoji Diksita. Many of the rules given here are translations of the relevant Sutras of Panini. The original Sutras are given in footnotes, where necessary. Sandhis and declensions are fully treated; compounds which dominate classical Sanskrit literature have received special attention; formation of feminine bases has been illustrated; Taddhita affixes have been arranged in an alphabetical order. A special feature of the present grammar is the chapter on the

Conjugation of Verbs. The general rules given are amply illustrated by examples. All the verbs which change their pada when preceded by particular prepositions are given in an alphabetical order. The chapter on Syntax contains almost everything given in the first 20 chapters of author's Guide to Sanskrit Composition; the chapter on Prosody is based on the Chandomanjari and the Vrttaratnakara. The author has spared no pains to make the book as useful and as complete as possible. *Message of the Purans* Vikas Publishing House This book constitutes the proceedings of the Second International Conference on Information and Communication Technology for

Development for Africa, ICT4DA 2019, held in Bahir Dar, Ethiopia, in May 2019. The 29 revised full papers presented were carefully reviewed and selected from 69 submissions. The papers address the impact of ICT in fostering economic development in Africa. In detail they cover the following topics: artificial intelligence and data science; wireless and mobile computing; and Natural Language Processing.

CTET & STATE TET (English language)

### French Revolution

Saraswati House Pvt  
Ltd

This volume  
 constitutes the  
 thoroughly refereed  
 post-conference  
 proceedings of the First  
 and Second  
 International Symposia  
 on Sanskrit  
 Computational  
 Linguistics, held in  
 Rocquencourt, France,  
 in October 2007 and in  
 Providence, RI, USA, in

May 2008 respectively.  
 The 11 revised full  
 papers of the first and  
 the 12 revised papers  
 of the second  
 symposium presented  
 with an introduction  
 and a keynote talk  
 were carefully  
 reviewed and selected  
 from the lectures given  
 at both events. The  
 papers address several  
 topics such as the  
 structure of the  
 Paninian grammatical  
 system, computational  
 linguistics,  
 lexicography, lexical  
 databases, formal  
 description of sanskrit  
 grammar, phonology  
 and morphology,  
 machine translation,  
 philology, and OCR.
