Go deep into SEAL Team SIX, straight to the heart of one of its most legendary operators. When Navy SEAL Adam Brown woke up on March 17, 2010, he didn't know he would die that night in the Hindu Kush Mountains of Afghanistan—but he was ready. In a letter to his children, not meant to be seen unless the worst happened, he wrote, "I'm not afraid of anything that might happen to me on this earth, because I know no matter what, nothing can take my spirit from me." Fearless is the story of a man of extremes, whose courage and determination were fueled by faith, family, and the love of a woman. It's about a man who waged a war against his own worst impulses, including drug addiction, and persevered to reach the top tier of the U.S. military. In a deeply personal and absorbing chronicle, Fearless reveals a glimpse inside the SEAL Team SIX brotherhood, and presents an indelible portrait of a highly trained warrior whose final act of bravery led to the ultimate sacrifice. Adam Brown was a devoted man who was an unlikely hero but a true warrior, described by all who knew him as...fearless. "As a rule, we don't endorse books or movies or anything regarding the command where I work—and Adam Brown worked—but as the author writes in Fearless, 'you have to know the rules, so you know when to bend or break them.' This is one of those times. Read this book. Period. It succeeds where all the others have failed." —SEAL Team SIX Operator [The Japan Times](#) Syracuse University Press *A Brave Man Seven Storeys Tall* is an exuberant literary debut—a novel of real ideas and a playful examination of our in-between world, one that explores the nature of family, identity, art, and belief while also marking the introduction of an original new voice in contemporary fiction. Owen Burr is the six-foot-eight, Olympics-bound senior captain of the Stanford University water polo team. In his final collegiate match, however, he suffers a

catastrophic injury that destroys his hopes and dreams, flattening his entire world into two dimensions. His identity as an athlete erased but his ambition indelible, he defies his father, a classics professor who lives in a "cave" of his own making, and moves to Berlin with naive plans to make conceptual art. Then he disappears. Without a single clue as to his son's location, Dr. Burr embarks upon a tour of public lectures from Greece to Germany to Iceland in an attempt to draw out his endangered son. Instead, he foments a violent uprising.

Daring men and women aren't just found in the pages of fictional stories. In fact, history offers us a number of examples of people who stood up for what was right in the face of significant opposition. Their stories can inspire us to also be courageous when the situation calls for it. Whether the problem is a large one, like a dictatorial state or a cultural prejudice, or a small one, such as standing up to a bully, we can resolve to be a hero and fight for what is right. That's why the stories in this book are so impactful—they offer us an opportunity to learn lessons from the lives of a wide variety of people and ponder how we might have acted in a similar situation. These heroes often stand out because so many of their peers failed to act likewise. Sadly, too few seem to have the courage to oppose something that is wrong. But these stories can help us prepare to be counted as someone who will choose the right!

Fighting was a practiced routine for Lieutenant Ivan Castro. But when a mortar round struck the rooftop of his sniper's post in Iraq, he found himself in a battle

more difficult than even he could have imagined. The direct hit killed two other soldiers and nearly claimed Castro's life as well. Mangled by shrapnel and badly burned, Castro was medevac'd to Germany more dead than alive. His lungs were collapsed. He couldn't hear. One eye had been blown out, the nerve to the other severed. In the weeks and months that followed, Castro would find that physical darkness was nothing compared to the emotional darkness of loss and despair. Desperate for a reason to live, he eventually fought his way back to health through exercise and a single-minded goal: running a marathon. Once he set his course, there was no stopping him. Stubborn to a point that at times bordered on insanity, he managed not only to recover but to return to active duty. Since 2007, he has run over two dozen marathons, including the Boston Marathon in 2013, where he was one of the runners diverted when the bombs exploded. Today, Castro helps prepare soldiers for combat, working exactly as if he were "sighted." *Fighting Blind*, this frankly told account of his struggle through adversity, the highs and lows and the always bumpy road in between, is a story of hope and perseverance against the odds: an Unbroken for the present generation.

Bill Griffiths lost both hands and both eyes when he was a prisoner of the Japanese in Java in 1942. This book tells the story of how he overcame these two shattering handicaps, either one of which might have qualified him to spend the rest of his life quietly in a home for the disabled. But Bill had no intention of allowing himself to become an object of pity and it was not long after his return to civilian life that he began to make it clear that, even if he had no hands and no eyes, he still had his own two feet and he certainly intended to stand on them. Inevitably life has not been without its ups and downs, and he certainly Bill could not have got where he has without the care and devotion of Alice, his wife. Their story is one of remarkable courage, told with no trace of bitterness and with a generous helping of laughter. It is a measure of the man that Bill can end his story with the words, "I've been lucky"!

A 25-year-old backcountry wanderer, a man happiest exploring wild places with his dog, Dan Bigley woke up one midsummer morning to a day full of promise. Before it was over, after a stellar day of salmon fishing along Alaska's Kenai and Russian rivers, a grizzly came tearing around a corner in the trail. Dan barely had time for "bear charging" to register before it had him on the ground, altering his life forever. "Upper nose, eyes, forehead anatomy unrecognizable," as the medevac report put it. Until then, one thing after another had fallen into place in Dan's life. He had a job he loved taking troubled kids on outdoor excursions. He had just bought a cabin high in the Chugach Mountains with a view that went on forever. He was newly in love. After a year of being intrigued by a woman named Amber, they had just spent their first night together. All of this was shattered by the mauling that nearly killed him, that left him blind and disfigured. Facing paralyzing pain and inconceivable loss, Dan was in no shape to be in a relationship. He and Amber let each other go. Five surgeries later, partway into his long healing journey, they found their way back to each other. The couple's unforgettable story is one of courage, tenacious will, and the power of love to lead the way out of darkness. Dan Bigley's triumph over tragedy is a testament to the ability of the human spirit to overcome physical and emotional devastation, to choose not just to live, but to live fully. A 2019 NPR Staff Pick How the blinding of Sergeant Isaac Woodard changed the course of America's civil rights history On February 12, 1946, Sergeant Isaac Woodard, a returning, decorated African American veteran, was removed from a Greyhound bus in Batesburg, South Carolina, after he challenged the bus driver's disrespectful treatment of him. Woodard, in uniform, was arrested by the local police chief, Lynwood Shull, and beaten and blinded while in custody. President Harry Truman was outraged by the incident. He established the first presidential commission on civil rights and his Justice Department filed criminal charges against Shull. In July 1948, following his commission's recommendation, Truman ordered an end to segregation in the U.S. armed forces. An all-white South Carolina jury acquitted Shull, but the presiding judge, J. Waties Waring, was conscience-stricken by the failure of the court system to do justice by the soldier. Waring described the trial as his "baptism of fire," and began issuing major civil rights decisions from his Charleston courtroom, including his 1951 dissent in *Briggs v. Elliott* declaring public school segregation per se unconstitutional. Three years later, the Supreme Court adopted Waring's language and reasoning in *Brown v. Board of Education*. Richard Gergel's *Unexampled Courage* details the

impact of the blinding of Sergeant Woodard on the racial awakening of President Truman and Judge Waring, and traces their influential roles in changing the course of America's civil rights history. *Publications of the Red Cross Institute for the Blind* Rowman & Littlefield

Walter T. Schmid offers the first original interpretation of the Laches since Hermann Bonitz in the nineteenth century in the only full-length commentary on the Laches available in English. Schmid divides the book into five main discussions: the historical background of the dialogue; the relation of form and content in a Platonic dialogue and specific structural and aesthetic features of the Laches; the first half of the dialogue, which introduces the characters and considers the theme of the education of young men; the inquiry with Laches, which examines the traditional Greek conception of military courage; and the inquiry with Nicias in which two nontraditional conceptions of courage are mooted, one closely associated with the sophistic movement in Athens, the other with Socrates himself. Furnishing a detailed paragraph-by-paragraph reading that traces Socrates' ongoing quest for virtue and wisdom--a wisdom founded in the action of a whole human life--Schmid conclusively shows how and why the Laches fills an important niche in Plato's moral theory.
