This innovative book offers a comprehensive assessment of policing in late modern Britain. The overall theme is that as we approach the end of the twentieth century, it is an appropriate time to review recent developments in policing and law enforcement and to consider future prospects. The areas covered include equal opportunities and public policework; perspectives on and politics of police policy making; the emergence and consequences of managerialism and privatisation; legitimacy, policing and human rights; crime control and surveillance in Northern Ireland; crime rates, victimisation and the provision of service; risk, late modernity and 'community policing'; regulating virtual communities and policing cybercrime; and the insights to be gained from comparative analysis. Thought-provoking and incisive, *Policing Futures* is an invaluable source of information, and will be essential reading for students, lecturers, researchers and practitioners in the fields of police studies, criminology, socio-legal studies, law, sociology, social policy, social work and related disciplines.

Can I get a “ramen” from the congregation?! Behold the Church of the Flying Spaghetti Monster (FSM), today’s fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM’s devout followers, a.k.a. Pastafarians? Some say it’s the assuring touch from the FSM’s “noodly appendage.” Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church’s flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts—dispelling such malicious myths as evolution (“only a theory”), science (“only a lot of theories”), and whether we’re really descended from apes (fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: “If Intelligent Design is taught in schools, equal time should be given to the FSM theory and the non-FSM theory.” —Professor Douglas Shaw, Ph.D. “Do not be hypocritical. Allow equal time for other alternative ‘theories’ like FSMism, which is by far the tastier choice.” —J. Simon, Ph.D. “In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory.” —Afshin Beheshti, Ph.D. Read the book and decide for yourself!

This book examines the multi-media explosion of contemporary political satire. Rooted in 18th century Augustan practice, satire’s indelible link with politics underlies today’s universal disgust with the ways of elected politicians. This study interrogates the impact of British and American satirical media on political life, with a special focus on political cartoons and the levelling humour of Australasian satirists.

A State of Play explores how the British have imagined their politics, from the parliament worship of Anthony Trollope to the cynicism of *The Thick of It*. In an account that mixes historical with political analysis, Steven Fielding argues that fictional depictions of politics have played an important but insidious part in shaping how the British think about their democracy and have helped ventilate their many frustrations with Westminster. He shows that dramas and fictions have also performed a significant role in the battle of ideas, in a way undreamt of by those who draft party manifestos. The book examines the work of overtly political writers have treated the subject, discussing the novels of H.G. Wells, the comedy series *Yes, Minister* and the plays of David Hare. However, it also assesses how less obvious sources, such as the films of George Formby, the novels of Agatha Christie, the *Just William* stories and situation comedies like *Steptoe and Son*, have reflected on representative democracy. A State of Play is an invaluable, distinctive and engaging guide to a new way of thinking about Britain’s political past and present.

Stan Laurel and Oliver Hardy improvised many of the scenes for their classic comedies while the cameras were rolling, which meant that some excellent material in their scripts was lost - until now. Twenty complete, original screenplays for their short subjects are presented here for the very first time. They include a treasure trove of unused but hilarious comedy routines. Among them is the entire script for a proposed 1926 comedy, never filmed, which would have been the comedians’ first film as a team. The scripts are illustrated with 150 rare photos; many of them vividly depict the process of making the films. Introductions for each entry detail the fascinating differences between the scripts and the movies made from them. Full cast and credit information is also included. This collection of fabulous rarities is essential for any admirer of Stan and Ollie.

In 1983 the BBC TV series "Yes, Minister" won the British Academy award for the Best Comedy Series for a third consecutive year. In those three years the series had progressed from an innovation to an institution, revealing a great deal of accurate observation and pertinent revelation about the British system of government. This book reinterprets the scripts from the TV series as a political diary purportedly written by "the Right Hon. James Hacker, MP".
