<b>HUDSON TAPIA</b>		You know those stories where the smart girl tutors the dumb jock? This isn't it. Blair What's the probability of insulting the one guy on campus I need to help me pass statistics? If I knew, I wouldn't be standing in front of Wes Reynolds begging him to tutor me. Basketball player, sexy, arrogant, always sleeping through class... these are the things I knew about him. What I didn't know is that he is a seriously smart jock. Wes What's the best way to get rid of the peppy and unrelenting girl that keeps asking me to tutor her? If I knew, I wouldn't be staring at her tan legs and attempting to teach her statistics. Sorority girl, fine as f**k, determined, ball buster... these are the things I knew about her. What I didn't know is that she is all the things I didn't realize I wanted or needed. Or that one semester with her would change everything. Contains advice from students on how to make the most of the college years, discussing money, roommates, orientation, grade point averages, how to choose courses, note-taking, partying, and other topics.		"There are moments when a story shakes you...Barely Missing Everything is one of those stories, and Mendez, a gifted storyteller with a distinct voice, is sure to bring a quake to the literary landscape." —Jason Reynolds, New York Times bestselling author of Long Way Down In the tradition of Jason Reynolds and Matt de la Peña, this heartbreaking, no-holds-barred debut novel told from three points of view explores how difficult it is to make it in life when you—your life, brown lives—don't matter. Juan has plans. He's going to get out of El Paso, Texas, on a basketball scholarship and make something of himself—or at least find something better than his mom Fabi's cruddy apartment, her string of loser boyfriends, and a dead dad. Basketball is going to be his ticket out, his ticket up. He just needs to make it happen. His best friend JD has plans, too. He's going to be a filmmaker one day, like Quentin Tarantino or Guillermo del Toro (NOT Steven Spielberg). He's got a camera and he's got passion—what else could he need? Fabi doesn't have a plan anymore. When you get pregnant at sixteen and have been stuck bartending to make ends meet for the past seventeen years, you realize plans don't always pan out, and that there are some things you just can't plan for... Like Juan's run-in with the police, like a sprained ankle, and a tanking math grade that will likely ruin his chance at a scholarship. Like JD causing the implosion of his family. Like letters from a man named Mando on death row. Like finding out this man could be the father your mother said was dead. Soon Juan and JD are embarking on a Thelma and Louise—like road trip to visit Mando. Juan will finally meet his dad, JD has a perfect subject for his documentary, and Fabi is desperate to stop them. But, as we already know, there are some things you just can't plan for...

<b>Smart Jocks: Books 1 &amp; 2</b> Rebecca Jenshak		<i>The Thinking Student's Guide to College</i> Crown
Each fall, thousands of eager freshmen descend on college and university campuses expecting the best education imaginable: inspiring classes taught by top-ranked professors, academic advisors who will guide them to a prestigious job or graduate school, and an environment where learning flourishes outside the classroom as much as it does in lecture halls. Unfortunately, most of these freshmen soon learn that academic life is not what they imagined. Classes are taught by overworked graduate students and adjuncts rather than seasoned faculty members, undergrads receive minimal attention from advisors or administrators, and potentially valuable campus resources remain outside their grasp. Andrew Roberts' Thinking Student's Guide to College helps students take charge of their university experience by providing a blueprint they can follow to achieve their educational goals—whether at public or private schools, large research universities or small liberal arts colleges. An inside look penned by a professor at Northwestern University, this book offers concrete tips on choosing a college, selecting classes, deciding on a major, interacting with faculty, and applying to graduate school. Here, Roberts exposes the secrets of the ivory tower to reveal what motivates professors, where to find loopholes in university bureaucracy, and most importantly, how to get a personalized education. Based on interviews with faculty and cutting-edge educational research, The Thinking Student's Guide to College is a necessary handbook for students striving to excel academically, creatively, and personally during their undergraduate years.		He thinks we're playing the longest game of hard-to-get ever. We're not. Joel: The hottest girl on campus won't go out with me. I know, I know, that sounds presumptuous, but this girl... this girl has gotten under my skin, and I can't seem to walk away. Every Thursday, I show up at the café where she works. She's fed me every excuse in the book. I should give up and bang one of the many girls blowing up my phone. I'm not. Even when she says no, Thursday is my favorite day of the week. Katrina: The hottest guy on campus won't stop asking me out. I know that sounds like a good problem to have, but this guy... this guy has no idea how complicated my life is trying to juggle being a single mom and college student. Every Thursday, he shows up at the café where I work. His cheesy pickup lines and arrogance should have me completely annoyed. I'm not. I can't say yes, but Thursday is my favorite day of the week. A brave and beautiful story that will make readers laugh, and break their hearts at the same time. Now with a special note from the author! Steven has a totally normal life (well, almost).He plays drums in the All-City Jazz Band (whose members call him the Peasant), has a crush on the hottest girl in school (who doesn't even know he's alive), and is constantly annoyed by his younger brother, Jeffrey (who is cuter than cute - which is also pretty annoying). But when Jeffrey gets sick, Steven's world is turned upside down, and he is forced to deal with his brother's illness, his parents' attempts to keep the family in one piece, his homework, the band, girls, and Dangerous Pie (yes, you'll have to read the book to find out what that is!).		

makes perfect. Put what you've learned to the test with easy exercises on taking notes, staying motivated, and more.

Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, *College Essay Essentials* is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

"Like Curt Flood and Oscar Robertson, who paved the way for free agency in sports, Ed O'Bannon decided there was a principle at stake... O'Bannon gave the movement to reform college sports...passion and purpose, animated by righteous indignation." —Jeremy Schaap, ESPN journalist and New York Times bestselling author In 2009, Ed O'Bannon, once a star for the 1995 NCAA Champion UCLA Bruins and a first-round NBA draft pick, thought he'd made peace with the NCAA's exploitive system of "amateurism." College athletes generated huge profits, yet—training nearly full-time, forced to tailor coursework around sports, often pawns in corrupt investigations—they saw little from those riches other than revocable scholarships and miniscule chances of going pro. Still, that was all in O'Bannon's past...until he saw the video game NCAA Basketball 09. As avatars of their college selves—their likenesses, achievements, and playing styles—O'Bannon and his teammates were still making money for the NCAA. So, when asked to fight the system for players past, present, and future—and seeking no personal financial reward, but rather the chance to make college sports more fair—he agreed to be the face of what became a landmark class-action lawsuit. Court Justice brings readers to the front lines of a critical battle in the long fight for players' rights while also offering O'Bannon's unique perspective on today's NCAA recruiting scandals. From the basketball court to the court of law facing NCAA executives, athletic directors, and "expert" witnesses; and finally to his innovative ideas for reform, O'Bannon breaks down history's most important victory yet against the inequitable model of multi-billion-dollar "amateur" sports.

Read award-winning journalist Frank Bruni's New York Times bestseller: an inspiring manifesto about everything wrong with today's frenzied college admissions process and how to make the most of your college years. Over the last few decades, Americans have turned college admissions into a terrifying and occasionally devastating process, preceded by test prep, tutors, all sorts of stratagems, all kinds of rankings, and a conviction among too many young people that their futures will be determined and their worth established by which schools say yes and which say no. In *Where You Go is Not Who You'll Be*, Frank Bruni explains why this mindset is wrong, giving students and their parents a new perspective on this brutal, deeply flawed competition and a path out of the anxiety that it provokes. Bruni, a bestselling author and a columnist for the New York Times, shows that the Ivy League has no monopoly on corner offices, governors' mansions, or the most prestigious academic and scientific grants. Through statistics, surveys, and the stories of hugely successful people, he demonstrates that many kinds of colleges serve as ideal springboards. And he illuminates how to make the most of them. What matters in the end are students' efforts in and out of the classroom, not the name on their diploma. Where you go isn't who you'll be. Americans need to hear that—and this indispensable manifesto says it with eloquence and respect for the real promise of higher education.
