General Intelligence and Test of Reasoning owes its existence to comprehensive research and strategic planning. A thorough coverage of the reasoning section of various competitive examinations has been achieved after an in-depth research and proper analysis of original papers of the UPSC, SSC, banking services, B-school tests and tests by other central and state-level recruitment bodies. A unique aspect of this book is the approach it adopts in explaining the concepts of verbal analysis, non-verbal analysis, critical reasoning and data interpretation. Each chapter starts with a brief introduction to the various formats of questions asked in competitive examinations, followed by topic-specific tests, which provide numerous multiple-choice questions that involve students in an interactive way to improve their accuracy level. The last

chapter provides scientifically structured and exam-oriented test papers to familiarize candidates with current trends and types of questions. These test papers and self-scoring tables will help students assess their own level of preparation.

The early chapters of this book lay the foundation for the author's integral approach to medicine and include explanations of the basic tenets of Ayurveda. He provides extensive examples of how, as a trained allopath, he formulated a synthesis of the four well-known systems of medicine - Ayurveda or Indian medicine, Allopathy or modern medicine, Homeopathy, and Nature Cure - to treat eye troubles, and further argues this same type of synthesis can be effectively worked out for the rest of the body. Case histories and question-and-answer sections make

this a handbook for improving one's eyesight as well as an exposition of the secrets of Indian medicine.
