"Who were the original
Commandos? How do

ordinary soldiers become Special Forces? How do troops communicate without speaking? What's the difference between HALO and HAHO? Meet the best of the best, the elite soldiers who have been through the toughest training on earth, ready to take on missions in any climate, against any enemy with no fear"--Back cover.

Drones Usborne Books

**Winner of the 2016

Creative Child Magazine Product of the Year Award** Kids will love to

fold and fly these sturdy,

aerodynamic paper airplanes! In this clever origami book with folding papers, paper airplane expert Andrew Dewar presents his ultimate collection of easy-to-fold, high-performance planes for kids who are fascinated by aviation, technology, or origami. These planes are brightly colored and designed to fly beautifully every time. Some of the exciting designs include: The intimidating Hammerhead The futuristic Space Cruiser The hilariously named Belly Button And

many more! The book opens with a fascinating introduction to the engineering principles of flight, so kids can learn about the forces that enable a plane to fly and affect the performance of their airplane designs. They'll have fun putting the paper planes through their paces: doing loops, barrel rolls, glides and dives. The sky is the limit once they understand how planes interact with the atmosphere! This paper airplane book contains: 12 innovative designs 48 printable

paper airplane models
Detailed instructions for each paper plane
Printed folding lines for perfect folds
Colorful and realistic designs
Become a tried-and-true aviator with this paper airplane kit.
Designed for both kids and kids-at-heart, the whole family will enjoy seeing their projects come to life!

Living in Space Usborne Books
An exciting look into the fascinating world of artificial intelligence; what it is, how it's used in industry and war, how it

will affect our future.
Written in an engaging way with plenty of facts, comic strip sections, dramatic photographic illustrations this book is bound to grip the attention of even reluctant readers.

Usborne Book and Jigsaw: in the Forest Workman Publishing Company
This informative and activity-filled reference introduces younger children to human biology in a lively and accessible way. The book's thematic structure makes it easy for young readers to

understand the various systems and organs that make up the body.
Dozens of activities and experiments, including - Keeping a food diary (to analyze diet) - provide children with the opportunity to reinforce newly learned information. Full-color spreads address the questions that fascinate children, such as: What are we made of?, Why do we need to sleep?, and How do we breathe? A reference section at the back of the book includes a glossary, an index, and

an 'Amazing facts' section. Special Features: Over 1,000 appealing, colorful photographs and illustrations. Clear and easy-to-understand definitions. Related activities and projects. Vocabulary carefully chosen for the 5-8 yr. reading level. Cross-references encourage further exploration. *Kitty and the Moonlight Rescue* Hachette UK Set sail across the seven seas with this gripping collection of real life maritime adventures. Perfect for reluctant

readers and those who prefer fact to fiction. U.S. Special Ops Forces Perfection Learning Traces the history of fighter planes from the dogfights of World War I to the missions flown by modern stealth fighters. Dinosaur World Tuttle Publishing From the Tyrannosaurus Rex to the Triceratops - this book contains lots of interesting facts and statistics about different dinosaurs. Each page provides essential information such as the dinosaur's habitat, size,

diet and plenty more 'did-you-know' facts for young minds to absorb. Illustrations: Full colour throughout The Book of Cards for Kids John Wiley & Sons "A beautiful book about seasons for beginner readers, explaining how flowers, trees, insects and animals change and adapt throughout spring, summer, fall and winter. Each page features very simple, easy-to-read text for young children to read themselves, and beautiful illustrations." *Fighter Planes* John Wiley

& Sons

A 2015 Caldecott Honor Book A 2015 Pura Belpré (Illustrator) Award Frida Kahlo, one of the world's most famous and unusual artists is revered around the world. How can a fire-rescue drone save lives? This fascinating introduction to drones has simple text, colourful illustrations and detailed

photographs, with internet links to carefully selected websites with video clips and more information.

Top Kids 1 HarperCollins
The bestselling citizen's guide to economics *Basic Economics* is a citizen's guide to economics, written for those who want to understand how the economy works but have no interest in jargon or equations. Bestselling economist Thomas Sowell explains the general principles underlying different economic systems: capitalist,

socialist, feudal, and so on. In readable language, he shows how to critique economic policies in terms of the incentives they create, rather than the goals they proclaim. With clear explanations of the entire field, from rent control and the rise and fall of businesses to the international balance of payments, this is the first book for anyone who wishes to understand how the economy functions. This fifth edition includes a new chapter explaining the reasons for large differences of wealth and

income between nations. Drawing on lively examples from around the world and from centuries of history, Sowell explains basic economic principles for the general public in plain English.
