This book addresses one of the most critical issues facing global business leaders and the multicultural workforce - how to work and relate effectively in the intercultural contexts. The author presents business professionals, practitioners and academics with the Collaborative Intercultural Competence Model. Based on solid theoretical assumptions and real intercultural experiences, this model is to help professionals work more effectively across and within cultures. This book expands the traditional presentation of existing knowledge by providing a unified discussion of intercultural communication and its conceptual foundations.

The book offers readers with a contemporary insight into the intercultural competence phenomenon and highlights the basis for its experience-based inquiry, assessment and development. A distinctive feature of Intercultural Competence in Organizations is its comprehensive coverage of the intercultural competence framework from both communication and organizational behavior perspectives. This book does not cover traditional areas of international business, international management, global management strategy and policy and cross-cultural comparative management, but focuses on theoretical foundations of intercultural competence and intercultural competence research and practice. The author describes the complex nature of intercultural competence in a straightforward format which helps professionals, practitioners and students to envision a variety of intercultural situations in which they may behave competently. Thus, the conceptual acumen of this title is to understand the premises of intercultural

competence, embrace its theoretical assumptions, see its practical applicability, and advance individual intercultural competence. Featuring examples and skill development exercises, this book will be appealing to professionals, practitioners, students, academics and policy makers in the field of international business, management and communication.
