This voluminous work on Church History by Philip Schaff (1819-1893) was originally published between 1858 and 1893 in eight volumes in the USA and covers the period from the beginnings of Biblical Christianity in A.D. 1 to the History of the Reformation in Germany and Switzerland (1517-1648). Being still a popular text in North

America, this work had been out of print for over a century and has now been carefully edited and reformatted for republication in four volumes, each of them containing the text of two volumes of the original edition. Schaff's work, unlike other works in the field, covers a multitude of church history-related aspects - from church doctrine, policy, events and processes to aspects of social moral and family life, arts and more. This is the fourth and final volume in this series and is a special edition covering the period of the Reformation from 1517-1648 that ends with the Peace Treaty concluded 1648 in Münster, Westphalia, following the long period of the Thirty-Year War. HISTOIRE DE LA

CONQUESTE DU MEXIQUE OU DE LA NOUVELLE ESPAGNE, PAR FERNAND CORTEZ, Traduite de l'Espagnol de Dom ANTOINE DE SOLIS, par l'Auteur du Triumvirat

Paris between 1814 and 1852 was the capital of Europe, a city of power and pleasure, a magnet for people of all nationalities that exerted an influence far beyond the reaches of France. Paris was the stage where the great conflicts of the age, between nationalism and cosmopolitanism, revolution and royalism, socialism and capitalism, atheism and Catholicism, were fought out before the audience of Europe. As Prince Metternich said: When Paris sneezes, Europe catches cold. Not since imperial Rome has one city so dominated

European life. Paris Between Empires tells the story of this golden age, from the entry of the allies into Paris on March 31, 1814, after the defeat of Napoleon I, to the proclamation of his nephew Louis-Napoleon, as Napoleon III in the Hôtel de Ville on December 2, 1852. During those years, Paris, the seat of a new parliamentary government, was a truly cosmopolitan capital, home to Rossini, Heine, and Princess Lieven, as well as Berlioz, Chateaubriand, and Madame Recamier. Its salons were crowded with artisans and aristocrats from across Europe, attracted by the freedom from the political, social, and sexual restrictions that they endured at home. This was a time, too, of political turbulence and dynastic intrigue, of violence on the streets, and women manipulating men and events from their salons. In describing it Philip Mansel draws on the unpublished letters and diaries of some of the city's leading figures and of the foreigners who flocked there, among them Lady Holland, two British ambassadors, Lords Stuart de Rothesay and Normanby, and

Charles de Flahaut, lover of Napoleon's step-daughter Queen Hortense. This fascinating book shows that the European ideal was as alive in the nineteenth century as it is today.

The Naturalists' Leisure Hour and Monthly Bulletin DS Brewer

The idea of the 'project' crosses generic, disciplinary and cultural frontiers. At a time when writers and artists are increasingly describing their practices as 'projects', remarkably little critical attention has been paid to the actual idea of the 'project'. This collection of essays responds to an urgent need by suggesting a framework for evaluating the notion of the project in the light of various modernist and

postmodernist cultural practices, drawn mainly but not exclusively from the French-speaking domain. The overview offered by this volume promises to makes an original and thought-provoking contribution to contemporary literary, artistic and cultural criticism.

Icon of freedom and multiethnic democracy, memorial to Franco-American friendship--the lofty meanings we accord the Statue of Liberty today obscure its turbulent origins in 19th-century politics and art. Francesca Lidia Viano reveals that vibrant history in the fullest account yet of the people and ideas that brought the lady of the harbor to life.
