From the bestselling author of *V2* and *Fatherland*—a WWII-era spy thriller set against the backdrop of the fateful Munich Conference of September 1938. Now a Netflix film starring Jeremy Irons. With this electrifying novel about treason and conscience, loyalty and betrayal, "Harris has brought history to life with exceptional skill" (*The Washington Post*). Hugh

Legat is a rising star of the British diplomatic service, serving at 10 Downing Street as a private secretary to the Prime Minister, Neville Chamberlain. Paul von Hartmann is on the staff of the German Foreign Office—and secretly a member of the anti-Hitler resistance. The two men were friends at Oxford in the 1920s, but have not been in contact since. Now, when Hugh flies with

Chamberlain from London to Munich, and Hartmann travels on Hitler's train overnight from Berlin, their paths are set on a disastrous collision course. And once again, Robert Harris gives us actual events of historical importance-- here are Hitler, Chamberlain, Mussolini, Daladier--at the heart of an electrifying, unputdownable novel.

In the US edition of this international bestseller, Adam Kay Henry Marsh and David Sedaris to tell us the "darkly funny" (The New Yorker) -- and sometimes horrifying -- truth about life and work in a hospital. Welcome to 97-hour weeks. Welcome to life and death decisions. Welcome to a constant tsunami of

bodily fluids. Welcome to earning less than the hospital parking meter. Wave goodbye to your friends and relationships. Welcome to the life of a first-year doctor. Scribbled in secret after endless days, sleepless nights and missed weekends, comedian and former medical resident Adam Kay's This Is Going to Hurt provides a no-holds-barred account of his time on the

front lines of medicine. Hilarious, horrifying and heartbreaking by turns, this is everything you wanted to know -- and more than a few things you didn't -- about life on and off the hospital ward. And yes, it may leave a scar.

 The thrilling and definitive account of the Abdication Crisis of 1936
 On December 10, 1936, King Edward VIII brought a great international

drama to a close when he abdicated, renouncing the throne of the United Kingdom for himself and his heirs. The reason he gave when addressing his subjects was that he could not fulfill his duties without the woman he loved—the notorious American divorcee Wallis Simpson—by his side. His actions scandalized the establishment, who were desperate to avoid an international

embarrassment at a time when war seemed imminent. That the King was rumored to have Nazi sympathies only strengthened their determination that he should be forced off the throne, by any means necessary.

Alexander Larman's *The Crown in Crisis* will treat readers to a new, thrilling view of this legendary story. Informed by revelatory archival material never-before-

seen, as well as by interviews with many of Edward's and Wallis's close friends, Larman creates an hour-by-hour, day-by-day suspenseful narrative that brings readers up to the point where the microphone is turned on and the king speaks to his subjects. As well as focusing on King Edward and Mrs. Simpson, Larman looks closely at the roles played by those that stood against him: Prime

minister Stanley Baldwin, his private secretary Alec Hardinge, and the Archbishop of Canterbury Cosmo Lang. Larman also takes the full measure of those who supported him: the great politician Winston Churchill, Machiavellian newspaper owner Lord Beaverbrook, and the brilliant lawyer Walter Monckton. For the first time in a book about the abdication, readers will

read an in-depth account of the assassination attempt on Edward's life and its consequences, a first-person chronicle of Wallis Simpson's scandalous divorce proceedings, information from the Royal Archives about the government's worries about Edward's relationship with Nazi high-command Ribbentrop and a boots-on-the-ground view of how the British people saw

Edward as they watched the drama unfold. You won't be able to put down *The Crown in Crisis*, a full panorama of the people and the times surrounding Edward and the woman he loved.

Little, Brown
The world's leading expert on Osama bin Laden delivers for the first time the definitive biography of a man who set the course of American

foreign policy for the 21st century, and whose ideological heirs we continue to battle today. In *The Rise and Fall of Osama bin Laden*, Peter Bergen provides the first reevaluation of the man responsible for precipitating America's long wars with al-Qaeda and its descendants, capturing bin Laden in all the dimensions of his life: as a family man, as a zealot, as a battlefield commander,

as a terrorist leader, and as a fugitive. The book sheds light on his many contradictions: he was the son of a billionaire, yet insisted his family live like paupers. He adored his wives and children, depending on two of his wives, both of whom had PhDs, to make important strategic decisions. Yet he also brought ruin to his family. He was fanatically religious, yet willing to kill thousands of

civilians in the name of Islam. He inspired deep loyalty yet, in the end, his bodyguards turned against him. And while he inflicted the most lethal act of mass murder in United States history, he failed to achieve any of his strategic goals. The lasting image we have of bin Laden in his final years is of an aging man with a graying beard watching old footage of himself, just another dad flipping through the

channels with his remote. In the end, bin Laden died in a squalid suburban compound, far from the front lines of his holy war. And yet despite that unheroic denouement, his ideology lives on. Thanks to exclusive interviews with family members and associates, and documents unearthed only recently, Bergen's portrait of Osama will reveal for the first time who he really was and why he

continues to inspire a new generation of jihadists. American Family&friends 2e 3 Workbook Kumon Pub North America Limited This book identifies and analyzes the impact of the various ways in which local people are responding, taking stands, recapturing their culture, and saying 'stop' to the violent extremism that has manifested over the past decade (even longer) in Pakistan.

Local groups throughout Pakistan are engaging in various kinds of social negotiations and actions to lessen the violence that has plagued the country since the 1979 Soviet invasion of Afghanistan which let loose a barrage of violence that overflowed into its borders. In so many ways, Pakistanis are engaging in powerful actions that transform how people think about their own society,

impeding extremists' rants while acting on 'envisioning alternative futures'. This book, hence, focuses on finding the sparks of hope that local people are creating to counter violent extremism based on close ethnographic study of ground realities about not only what people are doing but why they are selecting these kinds of actions, how they are creating

alternative narratives about culture and identity, and their vision of a future without violence. This book is also designed to celebrate what is flourishing in cultural performances, music, social activism, and the like in Pakistan today because of people's commitment to take stands against extremism. *A Novel/ Spectra* The Essential Mathematics for Cambridge Secondary 1 series has

been created for the international student. Written by an expert author team with an experienced examiner, it provides complete coverage of the latest Cambridge syllabus. The Student Book contains comprehensive coverage of the curriculum framework content and provides engaging exercises that promote problem solving and investigative strategies. Inclusion of summary and

review sections after each topic help students retain learning, while Checkpoint-style questions assist their preparation for assessment. Learning Outcomes are provided at the start of each chapter to clearly map topics in the text to the syllabus. Numerous exercises are included, with clear progression, and problem-solving and real life applications embedded

throughout. Helpful hints throughout the text guide students and remind them of the key pieces of information required. *Optimal Birth: What, why and how* Little, Brown Spark Place your young learners at the right level quickly and reliably. By offering the right mix of challenge and fun, your students enjoy a positive testing experience. The Oxford English Dictionary Lexington

Books
Organized in the immediate aftermath of World War Two by the victorious Allies, the Nuremberg Trials were intended to hold the Nazis to account for their crimes and to restore a sense of justice to a world devastated by violence. As Francine Hirsch reveals in this immersive, gripping, and ground-breaking book, a major piece of the Nuremberg story has routinely been omitted from standard accounts: the part the Soviet Union played in making the trials happen in the first place. Soviet Judgment at Nuremberg offers the first complete picture of the International Military Tribunal (IMT), including the many ironies brought to bear as the Soviets took their place among the countries of the prosecution in late 1945. Everyone knew that Stalin had allied with Hitler before the Nazi invasion of the Soviet Union in 1941. The Molotov-Ribbentrop Pact hung heavy over the courtroom, as did the suspicion that the Soviets had falsified evidence in an attempt to pin one of their own war crimes, the mass killing of Polish officers in the Katyn Forest, on the Nazis. Moreover, key members of the Soviet delegation, including the Soviet judge

and chief prosecutor, had played critical roles in Stalin's infamous show trials of the 1930s. For the American prosecutor Robert H. Jackson and his colleagues in the British and French delegations, Soviet participation in the IMT undermined the credibility of the trials and indeed the moral righteousness of the Allied victory. Yet without the Soviets Nuremberg would never have taken

place. Soviet jurists conceived of the legal framework that treated war as an international crime, giving the trials a legal basis. The Soviets had borne the brunt of the fighting against Germany, and their almost unimaginable suffering gave them moral authority. They would not be denied a place on the tribunal and moreover were determined to make the most of it. However, little

went as the Soviets had planned. Stalin's efforts to steer the trials from afar backfired. Soviet war crimes were exposed in open court. As relations among the four countries of the prosecution foundered, Nuremberg turned from a court of justice to an early front of the Cold War. Hirsch's book provides a front-row seat in the Nuremberg courtroom, while also guiding readers

behind the scenes to the meetings in which secrets were shared, strategies mapped, and alliances forged. Soviet Judgment at Nuremberg offers a startlingly new view of the IMT and a fresh perspective on the movement for international human rights that it helped launch.

Anxiety comes with life. But it doesn't have to dominate your life. Do you ever have an

overwhelming sense of dread? Bombarded with "what-if's," always on edge, preparing for something bad to happen? According to one research program, anxiety-related issues are the number one mental health problem among women and are second only to alcohol and drug abuse among men. Even students are feeling it. One psychologist reports that the average

high school kid today has the same level of anxiety as the average psychiatric patient in the early 1950s. Chances are, you or someone you know seriously struggles with anxiety. New York Times bestselling author and pastor Max Lucado knows what it feels like to be overcome by the worries and fear of life, which is why he is dedicated to helping readers take back control of their minds and, as a

result, their lives. In this 64-page booklet based on one of Max's bestselling books, *Anxious for Nothing*, you'll find: An 11-week practical plan to overcome anxiety
 Weekly Scripture verses for meditation
 Weekly prayers to reframe anxious thoughts
 Stop letting anxiety rule the day and join Max on the journey to true freedom by the power of the Spirit.

reproductive health care, antenatal care provides a platform for important health-care functions, including health promotion, screening and diagnosis, and disease prevention. It has been established that, by implementing timely and appropriate evidence-based practices, antenatal care can save lives. Endorsed by the United Nations Secretary-General, this is a

comprehensive WHO guideline on routine antenatal care for pregnant women and adolescent girls. It aims to complement existing WHO guidelines on the management of specific pregnancy-related complications. The guidance captures the

complex nature of the antenatal care issues surrounding healthcare practices and delivery, and prioritizes person-centered health and well-being --- not only the prevention of death and morbidity --- in accordance with a human rights-based

approach. Global Warming Oxford University Press - Children Forensic Microscopy Truth Under the Lenses CRC Press St. Martin's Press A course which bridges the gap between intermediate level and the FCE exam.
