The Egyptian Postures of Power are an ancient system of energy healing techniques that were used by the ancient Egyptians in order to maintain optimal wellbeing and vitality. Just like Qigong, Tai Chi, Yoga, & Vedic Mudras; the Egyptian system utilizes the sacred movements, postures and geometry of the body to go in harmonic resonance with different universal energies. These energies are then used for specific purposes of ceremony, wellness, enlightenment, and personal growth. For thousands of years these methods have been utilized to cleanse, balance, and align our physical, mental, emotional, and spiritual bodies with the natural life giving forces of the universe.

The Rime petrose, Dante's powerful lyrics about a woman as beautiful and as hard as a precious stone, are generally acknowledged to be an important moment in his stylistic

development. In this full-length investigation of the poetics of the petrose and of their relation to TheDivine Comedy, Robert M. Durling and Ronald L. Martinez uncover new material, especially from medieval science (astrology and mineralogy), philosophy, and theology. The authors argue that the Rime petrose represent a major turning point in Dante's conception of a "microcosmic poetics" that became the fundamental mode of the Commedia. They demonstrate how Dante here attempts his first full account of his relation to the universe as a whole. This work offers many insights into the intrinsic significance of these remarkable poems and their place in Dante's development. Especially far-reaching are the implications for the interpretation of TheDivine Comedy. Time and the Crystal will interest not only students of Dante but also intellectual historians, historians of science, students of poetics and poetic theory, and all those interested in medieval literature. Archaeologists have always insisted most strenuously that lenses did not exist in ancient times. Robert Temple's real-life detective story proves them wrong. His research began with the discovery that an ancient artifact in the British Museum, believed to be a piece of rock crystal, had, in fact, been ground to form a lens. In this fascinating book, one of the most revolutionary studies in the history of science and civilization to be published for decades, Robert Temple reconstructs the story of light technology in ancient civilization. Dating back at least to 2600 BC to Old Kingdom Egypt, but unknown to modern archaeologists and historians, a science of optics and a sophisticated technology for the manufacture of lenses was widespread and fundamental in ancient times. It inspired awe in cultures who used it, so became encoded in their mythologies and religions.

each stone archetype supports Stones and crystals are our most ancient teachers. The relationships between the mineral kingdom and the human kingdom are as old as life itself, for the mineral kingdom--comprised of beautiful crystals, dense rocks, sands, clays, and everything in-between--is the very foundation upon which life developed on Earth. Supporting humanity through the eons, these teachers offer curative and restorative properties for healing as well as powerful guidance to catalyze spiritual growth. Integrating gemstone lore from around the world with modern mineral science, Nicholas Pearson guides readers on a journey into the inner realm of the mystery teachings of the mineral kingdom, a journey that mirrors the soul's path to perfection. He reveals the archetypal wisdom embodied within 7 essential crystal and gemstone mentors--obsidian, jade, lapis lazuli, emerald, quartz, amethyst, and diamond--examining each stone's mythological, historical, and cultural associations in tandem with their crystalline structure and chemical composition. He explores each stone's healing and spiritual properties, providing practical exercises, esoteric revelations, and meditations on the specific spiritual work each stone archetype supports. Obsidian, for example, is the stone of initiation, revealing our shadow side and guiding us to places in need of light. Diamond, the final perfected stone of the seven, illuminates Divine Love, purifying us and leading our consciousness to enlightenment, cutting through any vestiges of fear or illusion because it is the hardest, sharpest, most luminous teacher the mineral kingdom has to offer. Enabling each of us to harness the power of stones for spiritual evolution and healing, this guide to the mystery teachings of the mineral kingdom shows how the ancient call to evolve with the crystals and stones that surround us lives on in an unbroken legacy.

Birthstones have been used for millennia for luck, abundance, protection, and wisdom. Traditionally, crystals and gemstones were linked to specific astrological signs because their energies resonated. The discovery of new crystals has opened the way for a deeper connection between the earth and the sky. Each sign now has many crystals associated with it. This book describes the crystals linked to each sign and explains how they can be used to enhance self-understanding and personal growth. Crystals can be used to bring out a sign's potential, overcome challenges, and

harmonize discords. They can be used for profound soul growth or for guidance on everyday decisions. Birthstones are gifts from the earth that bring healing and wisdom. For each astrological sign, there are past-life patterns to be dissolved and wisdom to be regained. The use of appropriate crystals facilitates this process. In addition to explaining the links between crystals and both sun and moon signs, *The Crystal Zodiac* explains the crystals associated with the planets and gives instructions for laying out and working with a crystal zodiac mandala.
