This guidebook describes the Grande Escursione Appenninica (GEA), a nearly 400km long, three week trek crossing the Apennines in 23 stages, from Bocca Trabaria to Passo Due Santi on the edge of Liguria. The route dips in and out of Tuscany and Emilia-Romagna, never dropping below 400 metres. Best walked between spring and autumn, it is suitable for any reasonably fit walker, and this guidebook provides step-by-step route descriptions, accompanied by detailed mapping. There are transport options for joining and leaving the walk at a number of points, making it perfect for undertaking in small sections or single-day walks. There are suggestions for accommodation en route in comfortable guest houses and alpine-style huts, making it essential reading for anyone undertaking the GEA. The Apennines are Italy's best-kept secret. Forming the rugged spine of the Italian peninsula, this range provides thousands of

kilometres of marked trails over rocky crests and ridges and explores extensive forests and meadows, following routes established long ago by traders, pilgrims and shepherds and little affected by mass tourism.

This guidebook details 100 walking routes around Ben Nevis and Glen Coe, centred in 10 areas including Fort William and Glen Nevis, the Aonachs, the Mamores, Kinlochleven, Glen Coe, Glen Etive, Black Mount and Ben Cruachan. Routes are graded according to difficulty, and range between short, easy strolls and long, challenging walks with overnight bothy stays. The region's 44 Munro summits are covered, including 2 easy scrambles and the formidable traverse of Aonach Eagach's iconic jagged ridge. Alongside step-by-step route descriptions and mapping, the guide presents practical advice on transport, access, safety and where to stay plus background information on the area's fascinating geology. Many of the routes reflect the author's belief that the best rewards often lie off the popular tourist trails. Yet the highlights are all there: Buachaille Etive Mor, Aonach Eagach, the Mamores, the Grey Corries, Bidean nam Bian, Ben Starav, Carn

Mor Dearg and of course, the mighty Ben Nevis. The book - like Glen Coe itself - encourages exploration and includes a helpful 'summit summary' to show different options and assist with route-planning.

The Salt Path Cicerone Press

An essential guidebook for walking the GR5, one of the world's most spectacular long-distance trails. The GR5 makes its way

through the Alps from the shores of Lac Léman at Geneva to the Mediterranean at Nice. A route of 674km (420 miles), it can be trekked in a month, or split over a series of summer trips. The GR5 is well within the reach of fit and moderately experienced walkers and backpackers. There is good signposting and waymarking, and accommodation, food and drink are all available at regular intervals. The paths and tracks are generally well graded, while steep climbs are tackled on zigzag paths, so the overall gradient is not so severe. Every summer, thousands of walkers embark on this trek. This guidebook also describes some scenic variant routes, including the stunning GR55 through the Vanoise National Park and the delightful GR52 that crosses the Mercantour National Park. Full descriptions and maps are provided for these alternatives. The book includes daily stages, timings, ascents and descents, full-colour mapping and gradient profiles, alongside information about facilities and services along the route. The result is an ideal companion to planning and completing your trek. Two further Cicerone guidebooks cover the remaining sections of the GR5; 'The GR5 Trail - Vosges and Jura', and 'The GR5 Trail - Benelux and Lorraine' which together cover the route from Lac Léman to the Hoek Van Holland.

The Pilgrims' Way Penguin

Just days after Raynor learns that Moth, her husband of 32 years, is terminally ill, their home is taken away and they lose their livelihood. With nothing left and little time, they make the brave and impulsive decision to walk the 630 miles of the sea-swept South West Coast Path. Carrying only the essentials for survival on their backs, they live wild in the ancient, weathered landscape of cliffs, sea and sky. Yet through every step, every encounter

and every test along the way, their walk becomes a remarkable journey. THE SALT PATH is an honest and life-affirming true story of coming to terms with grief and the healing power of the natural world. Ultimately, it is a portrayal of home, and how it can be lost, rebuilt and rediscovered in the most unexpected ways.

Cyprus is not only famous for its cultural heritage and 9000 year old past - "Aphrodite's Island" is one of the most popular hiking destinations in the eastern Mediterranean. The centre of the island is dominated by the Troodos mountain measuring some 2000 m in height, which despite its considerable altitude is more reminiscent of European low mountains, due to its softly rounded and forested peak. This Rother hiking guide proposes 50 routes mostly ranging from easy to medium level. Next to mountain tours, it also includes a selection of coastal paths along bizarre cliffs and adventurous ravine tours. Forest paths and nature trails lead through aromatic cedar woods, silent valleys and to remote Byzantine churches and monasteries. Classic spring tours are those which take visitors across the peninsula of Akamas, when

colourful carpets of flowers and orchids blossoming by the wayside unveil their typical Mediterranean charm.

A lovely small-trim edition of the award-winning Atlas of Remote Islands The Atlas of Remote Islands, Judith Schalansky's beautiful and deeply personal account of the islands that have held a place in her heart throughout her lifelong love of cartography, has captured the imaginations of readers everywhere. Using historic events and scientific reports as a springboard, she creates a story around each island: fantastical, inscrutable stories, mixtures of fact and imagination that produce worlds for the reader to explore. Gorgeously illustrated and with new, vibrant colors for the Pocket edition, the atlas shows all fifty islands on the same scale, in order of the oceans they are found. Schalansky lures us to fifty remote destinations—from Tristan da Cunha to Clipperton Atoll, from Christmas Island to Easter Island—and proves that the most adventurous journeys still take place in the mind, with one finger pointing at a map.

Sad Topographies is an illustrated guide for the melancholic among us. Dispirited travellers rejoice as Damien Rudd journeys across continents in search of the world's most joyless place names and their fascinating etymologies. Behind each lugubrious place name exists a story, a richly interwoven narrative of mythology, history, landscape, misadventure and tragedy. From Disappointment Island in the Southern Ocean to Misery in Germany, across to Lonely Island in Russia, or, if you're feeling more intrepid, pay a visit to Mount Hopeless in Australia - all from the comfort of your armchair. With hand drawn maps by illustrator Kateryna Didyk, Sad Topographies will steer you along paths that lead to strange and obscure places, navigating the terrains of historical fact and imaginative fiction. At turns poetic and dark-humoured, this is a travel guide quite like no other. Damien Rudd is the founder of the hugely popular Instagram account @sadtopographies.

Bradt's fully illustrated wildlife guides focus on regions of the world particularly celebrated for their amazing and often unique species. With spectacular photography or exclusive watercolour

drawings throughout, each visitors' guide provides an introduction to the region's principal flora and fauna alongside suggested wildlife itineraries, practical information on when to go and what to take and photography tips. Written in a deliberately engaging way, they offer something different from dry field guides, and will appeal to the interested layman as much as the wildlife devotee. Ideal as a lightweight companion to any wildlife trip they also make a handsome souvenir. Beautifully illustrated with full-colour photographs throughout, Madagascar Wildlife is a celebration of the unique fauna of a remarkable island. Featuring over 250 species - from lemurs to millipedes - this guide is ideal for natural history enthusiasts and travellers alike. Newly discovered species and recently protected habitats are all covered in this fully revised edition. Also included is practical advice on visiting the key national parks and reserves plus special features on the evolution, camouflage, night-time wildlife and conservation issues.

This guidebook details the Pilgrims' Way, an historic pilgrimage route to Canterbury Cathedral in Kent, home of the shrine of the martyred archbishop, St Thomas Becket. The route is described both from Winchester in Hampshire (138 miles) and London's Southwark Cathedral (90¼ miles), with an optional spur to

Rochester Cathedral. With relatively easy walking on ancient byways, the route from Winchester is presented in 15 stages of 5-14 miles: it can be comfortably completed in under a fortnight. It follows a major chalk ridge through scenic countryside, taking in characterful towns and villages and historic churches. The route from Southwark is described in 10 stages and includes a visit to the ruined Lesnes Abbey. Detailed route description is accompanied by 1:50,000 OS mapping, advice on making the most of a trip and information on the historical background to the pilgrimage, key historical figures and local points of interest. Accommodation listings and details of facilities and transport

links can be found in the appendices. Pilgrimages to Becket's shrine began within a few years of his death in 1170, although Canterbury was a popular destination even before this time due to the nearby shrine of St Augustine. The route has featured in literature, drama and film, and forms the setting for Geoffrey Chaucer's famous Middle English work, *The Canterbury Tales*.
