Even before the EMPs brought down the world, Alex was on the run from the demons of her past and the monster living in her head. After the world was gone, she believed Rule could be a sanctuary for her and those she'd come to love. But she was wrong. Now Alex is in the fight of her life against the adults, who would use her, the survivors, who don't trust her, and the Changed, who would eat her alive. Welcome to *Shadows*, the second book in the haunting apocalyptic *Ashes Trilogy*: where no one is safe and humans may be the worst of the monsters.

From the acclaimed author of *Conquistador* comes this thrilling account of one of history's greatest adventures of discovery. With cinematic immediacy and meticulous attention to historical detail, here is the true story of a legendary sixteenth-century explorer and his death-defying navigation of the Amazon—river of darkness, pathway to gold. In 1541, the brutal conquistador Gonzalo Pizarro and his well-born lieutenant Francisco Orellana set off from Quito in search of La Canela, South America's rumored Land of Cinnamon, and the fabled El Dorado, "the golden man." Driving an enormous retinue of mercenaries, enslaved natives, horses, hunting dogs, and other animals across the Andes, they watched their proud expedition begin to disintegrate even before they descended into the nightmarish jungle, following the course of a powerful river. Soon hopelessly lost in the swampy labyrinth, their numbers diminishing daily through disease, starvation, and Indian attacks, Pizarro and Orellana made a fateful decision to separate. While Pizarro eventually returned home barefoot and in rags, Orellana and fifty-seven men, in a few fragile craft, continued downriver into the unknown reaches of the mighty Amazon, serenaded by native war drums and the

eerie cries of exotic predators. Theirs would be the greater glory. Interweaving eyewitness accounts of the quest with newly uncovered details, Buddy Levy reconstructs the seminal journey that has electrified adventurers ever since, as Orellana became the first European to navigate and explore the entire length of the world's largest river. Levy gives a long-overdue account of the native populations—some peaceful and welcoming, offering sustenance and life-saving guidance, others ferociously hostile, subjecting the invaders to gauntlets of unremitting attack and intimations of terrifying rituals. And here is the Amazon itself, a powerful presence whose every twist and turn held the promise of new wonders both natural and man-made, as well as the ever-present risk of death—a river that would hold Orellana in its irresistible embrace to the end of his life. Overflowing with violence and beauty, nobility and tragedy, *River of Darkness* is both riveting history and a breathtaking adventure that will sweep readers along on an epic voyage unlike any other.

While we may talk back to the empire, we can't talk to each other. Te Moana-nui-a-Kiwa is the great ocean continent. While it is common to understand the ocean as something that divides land, for those Indigenous to the Pacific or the Moana, it was traditionally a connector and an ancestor. Imperialism in the Moana, however, created false divides between islands and separated their peoples. In this BWB Text, Lana Lopesi argues that globalising technologies and the adaptability of Moana peoples are now turning the ocean back into the unifying continent that it once was.

The Panama Canal was the costliest undertaking in history; its completion in 1914 marked the beginning of the "American Century." Panama Fever draws on contemporary accounts, bringing the experience of those who built the canal vividly to life. Politicians engaged in high-stakes diplomacy in order to influence its construction. Meanwhile, engineers and workers from around the world rushed to take advantage of high wages and the chance to be a part of history. Filled with remarkable characters, Panama Fever is an epic history that shows how a small, fiercely contested strip of land made the world a smaller place and launched the era of American global dominance.

Dazzled by the sight of the vast treasure of gold and silver being unloaded at Seville's docks in 1537, a teenaged Pedro de Cieza de León vowed to join the Spanish effort in the New World, become an explorer, and write what would become the earliest historical account of the conquest of Peru. Available for the first time in English, this history of Peru is based largely on interviews with Cieza's conquistador compatriotes, as well as with Indian informants knowledgeable of the Incan past. Alexandra Parma Cook and

Noble David Cook present this recently discovered third book of a four-part chronicle that provides the most thorough and definitive record of the birth of modern Andean America. It describes with unparalleled detail the exploration of the Pacific coast of South America led by Francisco Pizarro and Diego de Almagro, the imprisonment and death of the Inca Atahualpa, the Indian resistance, and the ultimate Spanish domination. Students and scholars of Latin American history and conquest narratives will welcome the publication of this volume.

Newbery-Honor winning author, Jean Fritz, brings history to life once again in 10 true tales of 15th-century European explorers! True tales of our world's greatest 15th century explorers, from Bartholomew Diaz and Christopher Columbus to Juan Ponce de Leon and Vasco Nunez de Balboa, are fascinatingly portrayed, complimented with the softly shaded pencil illustrations of Anthony Bacon Venti. Readers are led through a one-hundred-year period when Europeans explored the world and mapped the globe, while selfishly feeding their own curiosity and greed along the way. Fritz includes astounding details, which provide young readers with an expanded understanding of events and the idiosyncrasies of these colorful characters. Venti's maps clarify the explorers' routes. Count on Jean Fritz to breathe life into these true tales of the Old World's fifteen most extraordinary explorers. It is history written in a refreshingly new way. "While presenting the salient facts, Fritz approaches them with playful irreverence; accordingly, the frequently traveled material can seem refreshingly new."-- Publisher's Weekly

Jack D. Forbes's monumental *Africans and Native Americans* has become a canonical text in the study of relations between the two groups. Forbes explores key issues relating to the evolution of racial terminology and European colonialists'

perceptions of color, analyzing the development of color classification systems and the specific evolution of key terms such as black, mulatto, and mestizo-terms that no longer carry their original meanings. Forbes also presents strong evidence that Native American and African contacts began in Europe, Africa, and the Caribbean.
