Yahweh's Breath is a unique Bible. In original Hebrew language it would be Yahweh's Nshamah meaning, 'Yahweh's puff or breath of divine inspiration'. It was written in the Literal form of the original languages of Hebrew and Greek and then matched with the New Strong's Exhaustive Concordance of the Bible, a thorough verbal index to the Holy Scriptures. It's one of a kind format puts the Sacred Name of our Father/Creator back into the text where it had been removed nearly 6,000 times by the scribes and translators throughout history. An outstanding feature also makes those hard to pronounce Biblical names easy as they were written in the original language of the script with the pronunciation following the name. Also, the meanings of some of the names follows the pronunciation. Using the wording from the Strong's Exhaustive Concordance of the Bible gives His Word a detailed 'come to life' picture in your mind. At times you can see the glistening green grass or smell the fragrant smoke of spices. If you listen carefully you can hear the vibrating trumpet ram's horns or taste the sticky gummy syrup of honey. You might even be able to feel with your finger the scar from the spikes in the hands and feet of the Messiah. Another feature of this version of His Word, the Bible, is that any added text by our Romanized translations that was not in the original text languages has been put back into its original form. Above all, this version makes reading and understanding His love letter to us about His Son easy and enjoyable.

This title was first published in 2003. The contributing authors have sought to integrate a gender perspective into their respective fields without isolating it from other theoretical

accounts. The chapters attempt to employ insights from feminist work and gender studies in general, yet insist on criticizing monolithic accounts of masculinity and elaborating on more differentiated, historically and socially embedded accounts of men's lives and their construction of masculinities. The volume is the result of interdisciplinary workshops focusing on questions of male sexuality, the male body and masculine representations - primarily investigating the relationship between change and continuity within western patriarchal society and the theoretical (rather than political) implications of the new research in men and masculinities. This volume differs from the first in that it deals with the construction of masculine identities on an individual level - the individual man's relationship with his own body and sexuality.
