This is the definitive work on Americans taken prisoner during the Revolutionary War. The bulk of the book is devoted to personal accounts, many of them moving, of the conditions endured by U.S. prisoners at the hands of the British, as preserved in journals or diaries kept by physicians, ships' captains, and the prisoners themselves. Of greater genealogical interest is the alphabetical list of 8,000 men who were imprisoned on the British vessel *The Old Jersey*, which the author copied from the papers of the British War Department and incorporated in the

appendix to the work. Also included is a Muster Roll of Captain Abraham Shepherd's Company of Virginia Riflemen and a section on soldiers of the Pennsylvania Flying Camp who perished in prison, 1776-1777.

In the "quietest magnificent book I've ever read" (Jim Harrison, author of "Legends of the Fall") Ted Kooser describes with exquisite detail and humor the place he calls home in the rolling hills of southeastern Nebraska--an area known as the Bohemian Alps--where nothing is too big or too small for his attention.

This volume covers the pathophysiology, epidemiology, presentation, diagnosis, medical and surgical management of benign biliary stenosis. The book is uniquely structured in a way that allows areas of controversy to be highlighted through the use of a two chapter format for each topic. Each chapter topic is written by an expert in the field, with a second expert highlighting controversies and offering opposing viewpoints and treatment paradigms through a counterpoint chapter immediately following the primary chapter. The volume also features an array of

diagrams and illustrations. As an authoritative text on the clinical care of patients with benign biliary stenosis, *Management of Benign Biliary Stenosis and Injury: A Comprehensive Guide* is a valuable resource for all practitioners involved in the care of these patients, including gastroenterologists, gastrointestinal surgeons, surgical oncologists, and transplant physicians. *The Biliary Tract* Professional Publishing ADP 6-22 describes enduring concepts of leadership through the core competencies and attributes required of leaders of all cohorts and all organizations, regardless of mission or setting. These principles reflect decades of experience and validated scientific knowledge. An ideal Army leader serves as a role model through strong intellect, physical presence, professional competence, and moral character. An Army leader is able and willing to act decisively, within superior leaders' intent and purpose, and in the organization's best interests. Army leaders recognize that organizations, built on mutual trust and confidence, accomplish

missions. Every member of the Army, military or civilian, is part of a team and functions in the role of leader and subordinate. Being a good subordinate is part of being an effective leader. Leaders do not just lead subordinates—they also lead other leaders. Leaders are not limited to just those designated by position, rank, or authority.

Named U.S. Poet Laureate for 2004-2006, Ted Kooser is one of America's masters of the short metaphorical poem. Dana Gioia has remarked that Kooser has written more perfect poems than any poet of his generation. In *Flying at Night: Poems 1965-1985*, Kooser has selected poems from two of his earlier works, *Sure Signs* and *One World at a Time* (1985). Taken together or read one at a time, these poems clearly show why William Cole, writing in the *Saturday Review*, called Ted Kooser "a wonderful poet," and why Peter Stitt, writing in the *Georgia Review*, proclaimed him "a skilled and cunning writer. . . . An authentic 'poet of the American people.'"

This booklet hardly needs
a preface; the contents, I
think, speak for
themselves. It contains a
short and carefully
brought up to date
resume of all that I, as a
private University
Lecturer in Amsterdam,
have tried to teach my
pupils. It is intended as a
general introduction to
ethno-musicology, before
going on to the study of
the forms of separate
music-cultures. I sincerely
hope that those, who wish
to teach themselves and

to qualify in this branch of
knowledge, will find a
satisfactory basis for self
tuition in the matter here
brought together.

Regarding the possibility
of a new edition, any
critical remarks or infor-
mation as to possible
desiderata would be very
gratefully received. J.K.
PREFACE TO THE SECOND
EDITION My request for
critical remarks and
desiderata has not been
ignored. My sincere
thanks to all who took the
trouble to let me know
what they missed in my
booklet. Through their
collaboration the contents
have undergone a
considerable
improvement and
enlargement as compared
to the original edition
issued in 1950 by the
Royal Tropical Institute,
Amsterdam, under the
title 'Musicologica'. I have
taken care to add many
particulars from non-
European sources, with
the result that now the
book is no longer so
Europe-centric as it was.

He is a haiku-like imagist who imbues his poems with "tender wisdom," and draws inspiration from the overlooked details of daily life. Praise for *Delights and Shadows*: "Ted Kooser...has a genius for making the ordinary sacred."—The New York Times "A sense of wonder and compassion runs through this Pulitzer Prize winning volume... Kooser's poetry is understated yet manages to skillfully illuminate the small moments of

life."—Christian Science Monitor "[Kooser] brushes poems over ordinary objects, revealing metaphysical themes that way an investigator dusts for fingerprints. His language is so controlled and convincing that one can't help but feel significant truths behind his lines."—The Philadelphia Inquirer "There is a sense of quiet amazement at the core of all Kooser's work, but it especially seems to animate his new collection of poems, *Delights & Shadows*. Every delight is shadowed by darkness in this book of small wonders and hard dualisms."—Edward Hirsch, The Washington Post "Delights and Shadows is a book with a deep stillness at its center, perfectly self-contained."—Carol Muske-Dukes, Los Angeles Times "Kooser's ninth collection of poems reflects the simple and remarkable things of everyday life. That he often sees things we do not would be delight enough, but more amazing is exactly what he sees. Nothing escapes him; everything is illuminated.... Highly recommended."—Library Journal "Few poets depict the Midwest so accurately or with such tender

regard... Kooser excels at the brief, imagistic poem."—The Kansas City Star "Delights and Shadows raises the voice of the poet above everything else. Each short, vivid poem on the page reads as if it were being spoken aloud. Details about cemeteries, dictionaries, a doctor's waiting room, and a jar of buttons bristle with sound and awareness. Kooser's ability to use brief lyrics to compose a music of discovery and regeneration makes his work radiant and consuming... This is not an extended, complex or experimental kind of writing, but poetry that rings true, allowing the human sound of being to exist on the page."—Bloomsbury Review "Here is the gift and fragility of life."—The Wichita Eagle "Kooser is a master of the subjective description. Empathetic without sentimentality, his eye ranges over all sorts of everyday subjects and finds material everywhere... wherever the unpredictable particularity of the world can be glimpsed... Perhaps Kooser's success lies in his determination to see the... things of this world with such clarity and passion that their

underlying mysteries, delights, and shadows also become clear, if only for a moment."—The Georgia Review "You can almost see Kooser behind the poems, watching the world like a sketch artist... Kooser displays the same kind of fluid strokes Degas used in his ballet pictures...He is an exquisite miniaturist of daily life."—The Hartford Courant "The poet finds magic in activities and objects typically considered mundane... Metaphors are the treasure of these short, imagistic poems, emphasizing the wonder and delight latent in what is often merely taken for granted."—Harvard Review "Kooser has written more perfect poems than any poet of his generation." —Dana Gioia "Kooser is straightforward, possesses an American essence, is humble, gritty, ironic and has a gift for detail and a deceptive simplicity."—Seattle Post-Intelligencer As Poet Laureate of the United States, Ted Kooser launched the weekly

poetry column "American Life in Poetry," which appears in over 100 newspapers nationwide. He is the author of ten books of poems, including the collaboration with Jim Harrison, *Braided Creek: A Conversation in Poetry* (isbn 9781556591877). The authors document the ways in which women suffer from technological development in industrialized and developing countries and assess how technological developments perpetuate inequalities between nations, regions, classes, and sexes. They discuss the implementation of modern technology in agriculture and its effects on rural women, look at the position of women in the basic and applied sciences and in science policymaking, and analyze the place of women in selected technology-based industries.
