Mike Gane provides an introduction to  
Baudrillard's cultural theory: the  
conception of modernity and the complex  
process of simulation. He examines  
Baudrillard's literary essays: his  
confrontation with Calvino, Styron, Ballard  
and Borges. Gane offers a coherent  
account of Baudrillard's theory of cultural  
ambience, and the culture of consumer  
society. And it provides an introduction to  
Baudrillard's fiction theory, and the  
analysis of transpolitical figures. The book  
also includes an interesting and  
provocative comparison of Baudrillard's  
powerful essay against the modernist

Pompidou Centre in Paris and Frederic  
Jameson's analysis of the Bonaventure  
Hotel in Los Angeles. An interpretation of  
this encounter leads to the presentation of  
a very different Baudrillard from that  
which figures in contemporary debates on  
postmodernism.

This book examines the influence of the early modern period on Antonin Artaud's seminal work *The Theatre and Its Double*, arguing that Elizabethan and Jacobean drama and their early modern context are an integral part of the Theatre of Cruelty and essential to its very understanding. The chapters draw links between the early modern theatrical obsession with plague and regeneration, and how it is mirrored in Artaud's concept of cruelty in the theatre. As a discussion of the influence of Shakespeare and his contemporaries on Artaud, and the reciprocal influence of Artaud on contemporary interpretations of early modern drama, this book is an original addition to both the fields of early modern theatre studies and modern drama.

Moscow Diary

One of the most well-known and influential autobiographies ever written, *The Education of Henry Adams* is told in the third person, as if its author were watching his own life unwind. It begins with his early life in Quincy, the family seat outside of

Boston, and soon moves on to primary school, Harvard College, and beyond. He learns about the unpredictability of politics from statesmen and diplomats, and the newest discoveries in technology, science, history, and art from some of the most important thinkers and creators of the day. In essentially every case, Adams claims, his education and upbringing let him down, leaving him in the dark. But as the historian David S. Brown puts it, this is a "charade": The Education's "greatest irony is its claim to telling the story of its author's ignorance, confusion, and misdirection." Instead, Adams uses its "vigorous prose and confident assertions" to attack "the West after 1400." For instance, industrialization and technology make Adams wonder "whether the American people knew where they were driving." And in one famous chapter, "The Dynamo and the Virgin," he contrasts the rise of electricity and the power it brings with the strength and resilience of religious belief in the Middle Ages. The grandson and great-grandson of two presidents and the son of a politician and diplomat who served under Lincoln as minister to Great Britain, Adams was born

into immense privilege, as he knew well: "Probably no child, born in the year, held better cards than he." After growing up a Boston Brahmin, he worked as a journalist, historian, and professor, moving in early middle age to Washington. Although Adams distributed a privately printed edition of a hundred copies of *The Education* for friends and family in 1907, it wasn't published more widely until 1918, the year he died. The book won the Pulitzer Prize for biography in 1919, and in 1999 a Modern Library panel placed it first on its list of the best nonfiction books published in the twentieth century. This

book is part of the Standard Ebooks project, which produces free public domain ebooks.

#### **The Education of Henry Adams**

As an American author who chose to live in Europe, Henry James frequently wrote about cultural differences between the Old and New World. The plight of bewildered Americans adrift on a sea of European sophistication became a regular theme in his fiction. This collection of twenty-four papers from some of the world's leading James scholars offers a comprehensive picture of the author's cross-cultural aesthetics. It provides detailed analyses of James's perception

of Europe - of its people and places, its history and culture, its artists and thinkers, its aesthetics and its ethics - which ultimately lead to a profound reevaluation of his writing. With in-depth analysis of his works of fiction, his autobiographical and personal writings, and his critical works, the collection is a major contribution to current thinking about James, transtextuality and cultural appropriation.
