“Meticulously researched, detailed and documented, this long awaited overview justly establishes Konitz as one of the most consistently brilliant, adventurous and original improvisers in the jazz tradition—a genius as rare as Bird himself.” —John Zorn
 “Hamilton’s work may well mark the inception of a format new to writing on Western music, one which avoids both the self-aggrandizing of autobiography and the stylized subjectification of biography.” —The Wire
 “An extraordinary approach to a biography, with the man himself speaking for extended sessions. The main vibration I felt from Lee’s words was total honesty, almost to a fault. Konitz shows himself to be an acute observer of the scene, full of wisdom and deep musical insights, relevant to any historical period regardless of style. The asides by noted musicians are beautifully woven throughout the pages. I couldn’t put the book down—it is the definition of a living history.” —David Liebman
 The preeminent altoist associated with the “cool” school of jazz, Lee Konitz was one of the few saxophonists of his generation to forge a unique sound independent of the influence of Charlie Parker. In the late 1940s, Konitz began his career with the Claude Thornhill band, during which time he came into contact with Miles Davis, with whom he would later work on the legendary Birth of the Cool sessions. Konitz is perhaps best known through his association with Lennie Tristano, under whose influence much of his sound evolved, and for his work with Stan Kenton and Warne Marsh. His recordings have ranged from cool bop to experimental improvisation and have appeared on such labels as Prestige, Atlantic, Verve, and Polydor. Crafted out of

numerous interviews between the author and his subject, the book offers a unique look at the story of Lee Konitz’s life and music, detailing Konitz’s own insights into his musical education and his experiences with such figures as Miles Davis, Stan Kenton, Warne Marsh, Lennie Tristano, Charles Mingus, Bud Powell, and Bill Evans. Andy Hamilton is a jazz pianist and contributor to major jazz and contemporary music magazines. He teaches philosophy, and the history and aesthetics of jazz, at Durham University in the United Kingdom. He is also the author of the book *Aesthetics and Music* (Continuum 2007). Joe Lovano is a Grammy Award-winning tenor saxophonist. His most recent album is *Streams of Expression*.

 Quali sono le caratteristiche di un bravo venditore? Come fare per convincere un cliente ad acquistare un determinato prodotto, su cosa puntare? Incredibilmente: sul cliente stesso. Un saggio romanzato che, attraverso un botta e risposta, ci trasporta nel

mondo dei venditori, spesso osteggiato e guardato con sospetto; eppure, per essere un bravo venditore, bisogna anzitutto essere una brava persona, in grado di ascoltare attivamente e provare empatia, dotata di determinazione, ambizione e molta, molta pazienza. La missione di Riccardo, il protagonista, è proprio quella di insegnare ai venditori ad esaltare le loro migliori qualità e stimolarli a tirare fuori quelle che credono di non possedere, al fine di costruire una relazione con i clienti che superi i limiti della compravendita ed entri in una sfera umana, indubbiamente quella che garantisce risultati migliori e più soddisfacenti. Standard of Excellence Enhanced Comprehensive Band Method

The massive international bestseller—an epic historical novel that chronicles the birth and rise of fascism in Italy, witnessed through the eyes of its founder, the terrifyingly charismatic figure who would become one of the most notorious dictators of the twentieth century, Benito Mussolini. It is 1919, and the Great War that has ravaged Europe is over. In Italy, the people are

exhausted. Tired of the political class. Tired of vague promises, inept moderates, and the agonizing machinations of a democracy that has failed ordinary citizens. While elite leaders have sat idly by, achieving nothing, one outsider—the director of a small opposition newspaper and a tireless political agitator—is electrifying the masses, promising hope for a demoralized nation hungry for change. A former socialist leader ousted by his own party, he is a drifter who knows what it is to feel lost. His voice speaks for the misfits and the outcasts; he is a protector of those who are forgotten. He is Benito Mussolini. And soon Italy—and the world—will be forever remade. In *M: Son of the Century*, Antonio Scurati tells the story of fascism from within the mind of its founder, the man known to his followers as Il Duce. Steeped in historical detail and interspersed with period documents and sources, this masterful saga explores the seductive power of nationalism and idolatry, revealing how authoritarianism took hold and a nation bent to the will of one ruthless strongman. Provocative and resonant, *M* is a chilling reminder that the past is never gone, and that it holds urgent lessons for us today.

According to Larry Teal, the best method of learning to play the saxophone is to study with a competent teacher. Teal's studies were mostly of instruments other than the saxophone, but as a student at a Chautauqua summer session, he came under the influence of Georges Barrère, the eminent French flutist. He played bass clarinet with the Detroit Symphony, but he continued to be absorbed by the saxophone. As a result of his acquired expertise and growing reputation, he was appointed to a full-time faculty position as a saxophone teacher by the University of Michigan -- the first ever to receive such an appointment from a major university. During his 21-year tenure, he attracted students from all over, thus exerting an ever widening influence on saxophone teaching and performing.

Anatomy of the Voice Hal Leonard Corporation

This method synthesizes a work I began in 1987 which involved several vocal ensembles. Above all, I would like to mention "Gaudium choir" to whom are dedicated most of these exercises. This method has been thought as a sort of "ideal journey" that can be done by a choir or vocal ensemble for a period of a decade at least. These exercises have been written with the aim to fill in, until a certain extent, choir-singers technical and musical

deficiencies, as my choir has. Many of the singers with whom I have worked, seem to have problems in reading or learning music, in particular in memorizing texts. They were often lacking a sense of rhythm, besides having a musical ear to improve as a result of many intonation problems (ex. diatonic intervals within the same pure octave). Sometimes our amateur choirs, but also professional ones, are lacking in some important parts considered essential for a musician background however underestimated or even ignored by many choirmasters. I have decided to entitle this book: "New practical method: functional exercises for choir" because each exercise has been thought to improve a specific musical matter as vocal training, musical phrasing and intonation. Exercises are not in a progressive order, as usual, but alternately according to their musical and didactic function. The method shows a sort of "general plan" which can be followed by a choirmaster; however, it can be used also, as a kind of "Reference book", that I wish can be useful to improve choir musical skills. In my opinion, methods that are structured according to ascending levels of difficulties, are never going to be done until the end. Usually, the simpler exercises are carefully chosen from the index by students to avoid the most difficult ones, which are obviously omitted. This necessarily means that a student will not improve as much as he could do from his initial stage of knowledge. Each exercise has been thought to solve one by one choir problems and those of a single voice. This manual is divided into four sections: the first part contains vocalizes and preparatory exercises or a series of exercises that can be learned by a group in a very short time if they are practiced with patience, constant effort and methodology. In the second section you can find "Exercises to sung reading on different tempos". These pieces are written following the main harmonic-scheme: I-IV-I (2r) V-I of major scale and can be performed also in minor keys as all the other exercises of this method. Voices can be freely moved around to obtain various choral sounds and also many other ways to solve vocal intonation problems of a choir. When a choir-singer will have learned the basic harmonic-scheme he can concentrate on rhythm and different tempos that are going to change for each exercise. In this way, choir singer will improve his reading skills in a natural way. Third section is on "Polyphonic singing". Based on the same harmonic-scheme, these exercises are at a higher level with a contrapuntal writing inside. Then we get to the "heart" of

this method: "Practical exercises for choir". It consists in different exercises for choral singing, using specific techniques to raise the level of the choir from both a technical and musical point of view. These techniques combine intonation as psycho-acoustic features, without forgetting a careful ear-training and an effective memorization. Each exercise should be practiced using all

possible phonemes. For this reason it is necessary that the choirmaster changes consonants and vowels articulation to solve specific problems of the choir. I hope it is quite clear that the use of consonants and vowels in the exercises, as well as dynamics, are merely intended as suggestions and can be changed at any time. I wish with this method to be able to help any choir to improve and get better. One's never have to forget that a chorus

is a wonderful, but at the same time, mysterious instrument. Here you can express the deepest feelings of human beings, make closer friends, improve your temperament and much more. At last, I must say, that a choir is mainly a "school of life" that is the highest way to practice "Great music", without forgetting that is also the most economical one! Daniele Venturi
