Stell dir eine Welt ohne Tiere vor, ohne das Zwitschern von Vögeln und das Summen von Bienen. Es wäre still, nicht wahr? Nur die Maschinen gäben Geräusche von sich. Der siebzehnjährige Paris lebt in einer solchen Welt. Die letzten Tiere hat die Behörde vor neun Jahren eingeschläfert. Das Fleisch kommt aus dem Labor. Die Dörfer – oder was davon geblieben ist –, sind verlassen. Und nur wer arm ist, lebt noch in

den ländlichen Gebieten. Der alte Bauernhof, einer der letzten im Land, ist ihnen geblieben. Noch. Eines Tages hört Paris ein Jaulen. War es der Wind? »Eine Geschichte, die nachdenklich macht und einen die Tiere mit anderen Augen sehen lässt.« Ein bewegendes Buch über die Wunder unserer Welt Paris treibt sich in seiner Freizeit in den verlassenen Häusern im Dorf rum, beobachtet Insekten (die, die überlebt haben) und verkauft sein Blut in der Stadt. Ach, und er liefert sich Wettrennen

(auf einem rostigen Fahrrad) mit der Behörde. Ganz besonders (un)gerne mit dem garstigen Schmidt, der nichts Besseres zu tun hat, als durch den Distrikt zu fahren und Ausschau zu halten, nach nichts. Das ist Paris Leben, bis sich eines Tages alles ändert. Interessantes über den Autor: Alexander Levin Aurel stammt selbst von einem Bauernhof in Norddeutschland. the topic, allowing readers to quickly master mmW technology. This book: Introduces basic concepts such as metamaterials Huygens's surface, zero-index structures, and pattern synthesis Describes prototyping in the form of fabrication based on printed-circuit-board, low-temperature-co-fired-ceramic and micromachining Explores applications for next-generation radar and imaging systems such as 24-GHz and 77-GHz vehicular radar systems Elaborates design

methods including waveguide-based feeding network, three-dimensional feeding structure, dielectric loaded aperture antenna element, and low-sidelobe synthesis The mmW is one of today's most important emerging technologies. This book provides graduate students, researchers, and engineers with the knowledge they need to deploy mmW systems and develop new antenna designs with low cost, low loss, and low complexity. *Wulfenia* Springer-Verlag

Since 1997, FORUM is an integral part of the journal landscape of European Studies. In addition to facts of contemporary history, it offers deep insights into the history of ideas, reflects current discussions, and provides reviews of books on Central and Eastern European history. Especially on the history of ideas and contemporary history it offers more than ?just? history -- e.g. interdisciplinary discussions by political scientists, literary, legal,

and economic scholars and philosophers. FORUM sees itself as a bridge between East and West. Through the translation and publication of documents and contributions from Russian, Polish, and Czech researchers it offers the Western reader insight into the scientific discourse within Eastern Europe. Volume 18, Issue 1: The way the Federal Republic of Germany dealt with its past is seen by some as a role model for many post-authoritarian and post-

totalitarian transition countries in East and West, despite some downsides of the long process of coping with the past after the German "zero hour". The current FORUM issue focuses on the comparison of the specifics of German memory culture with those of the Eastern European countries, especially Poland and Russia, since the beginning of their de-Stalinization debates. Seit 1997 ist das FORUM fester Bestandteil der Zeitschriftenlandschaft

der Osteuropaforschung. Neben Fakten der Zeitgeschichte bietet es tiefe Einblicke in die Ideengeschichte, spiegelt aktuelle Diskussionen wider und liefert Rezensionen zu Werken der mittel- und osteuropäischen Zeitgeschichte. Gerade in den Rubriken Ideengeschichte und Zeitgeschichte bietet es mehr als "nur" Geschichte -- fächerübergreifend kommen u.a. Politologen, Literatur-, Rechts- und Wirtschaftswissenschaftler sowie Philosophen zu

Wort. Das FORUM versteht sich als Brücke zwischen Ost und West. Durch die Übersetzung und Veröffentlichung von Dokumenten und Beiträgen aus dem Russischen, Polnischen und Tschechischen bietet es dem westlichen Leser Einblicke in den wissenschaftlichen Diskurs Osteuropas. Heft 1/2014: Der lange Abschied vom totalitären Erbe Das Modell der bundesrepublikanischen Vergangenheitsbewältigung gilt als Vorbild für viele postautoritäre bzw.

posttotalitäre Transformationsstaaten in Ost und West, ungeachtet mancher Schattenseiten des langwierigen Prozesses der deutschen Vergangenheitsbewältigung nach der "Stunde Null". Das aktuelle Forum-Heft vergleicht in seinem thematischen Schwerpunkt die Spezifika der deutschen Erinnerungskultur mit denjenigen der osteuropäischen Länder, vor allem Polens und Russlands, seit dem Beginn der Entstalinisierungsdebatte

A rich and fascinating account of one of music history's most ancient, varied, and distinctive instruments From its origins in animal horn instruments in classical antiquity to the emergence of the modern horn in the seventeenth century, the horn appears wherever and whenever humans have made music. Its haunting, timeless presence endures in jazz and film music, as well as

orchestral settings, to this day. In this welcome addition to the Yale Musical Instrument Series, Renato Meucci and Gabriele Rocchetti trace the origins of the modern horn in all its variety. From its emergence in Turin and its development of political and diplomatic functions across European courts, to the revolutionary invention of valves, the horn has presented in innumerable guises and forms. Aided by musical examples and newly discovered sources, Meucci and Rocchetti's

book offers a comprehensive account of an instrument whose history is as complex and fascinating as its music. *E&G - Quaternary Science Journal Vol. 58 No 2* via torino media Culture, Civilization and Human Society theme is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems (EOLSS), which is an integrated compendium of twenty one Encyclopedias. Nadja Schwendemann untersucht in ihrer qualitativ-rekonstruktiven Studie die Lehrpraxis von Dozierenden in der Erwachsenenbildung und fragt nach den zugrundeliegenden Werten. Dabei zeigen sich biografische, fachkulturelle und

organisationalen Handlungsbezüge sowie Wertekonflikte, die für die Lehrpersonen selbst schwer zu reflektieren sind. Die Ergebnisse machen deutlich, dass implizites normatives Handeln als Normalität erwachsenenbildnerischen Lehrens angenommen werden muss. Die neu gewonnenen Erkenntnisse liefern wichtige Grundlagen für die Professionalitätsdebatte und den Normativitätsdiskurs in der Erwachsenenbildung und

Originally published in 1933, this book provides a detailed history of the piano-forte from its invention in Italy in the eighteenth century until the presentation of the first European cast-iron frame for a piano at the 1851 Great Exhibition. Harding also analyses the role of the piano as a

replacement for a chamber orchestra and its history as a domestic instrument. The text is richly illustrated with images of pianos produced by a variety of makers over time, as well as with images of piano machinery taken from patent registrations. This thoroughly-researched book will be of value to anyone with an interest in one of the most ubiquitous instruments in the Western world and the history of its development.

This book intends to identify and publicize the unique features of Austrian geomorphology. In a country, which stretches from the core of the European Alps to the Hungarian plain, there is

huge variety of landforms and landscapes. This book reveals that variety. Part 1 sets the context of the Austrian landscape as a whole. Part 2 is the core of the volume and comprises a careful selection of the most outstanding landscapes in Austria. Each of the chapters results from detailed research conducted by an author over many years. Austria's landscapes are especially attractive because of the great variety of topographic slopes, geologic

foundations and the special landscape legacy from the Quaternary period. Glacial and Karst landscapes dominate, but there are superb examples of granite weathering landscapes and geologically recent volcanism. The book is lavishly illustrated with about 350 color images and is securely based on scientific scholarship.
