JOCELYN KASH

Kiki & Jax Simon and Schuster Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in

common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Author Nagisa Tatsumi urges us to reflect on our attitude to possessing things and to have the courage and conviction to get rid of all the stuff we really don't need, offering advice on how to tackle the things that

pile up at home and take back control. By learning the art of discarding you will gain space, free yourself from "accumulation syndrome," and find new joy and purpose in your clutter-free life.

You can follow the beaten path and call yourself an entrepreneur or you can blaze your own trail and really be one. When Derek Sivers started CD Baby, he wasn't planning on building a major business. He was a successful independent musician who just wanted to sell his CDs online. When no one would help him do it, he set out on his own and built an online store from scratch. He started in 1998 by helping his friends sell their CDs. In 2000, he hired his first employee. Eight years later, he sold CD Baby for \$22 million. Sivers didn't need a business plan, and neither do you. You don't need to think big; in fact, it's better if you don't. Start

with what you have, care about your customers more than yourself, and run your business like you don't need the money.

The Life-Changing Magic of Tidying Up
Ten Speed Press

This unconventional and lighthearted introduction to the ideas of the major Western philosophers examines *The Simpsons* — TV's favorite animated family. The authors look beyond the jokes, the crudeness, the attacks on society — and see a clever display of irony, social criticism, and philosophical thought. The writers begin with an examination of the characters. Does Homer actually display Aristotle's virtues of character? In what way does Bart exemplify American pragmatism? The book also examines the ethics and themes of the show, and concludes with discussions of how the series reflects the work of Aristotle, Marx, Camus, Sartre, and other thinkers.

In the vein of *The Alchemist* and *The Celestine Prophecy*, *The Dreamseller*, *The Calling* is an inspirational fable about a mysterious man who calls himself *The Dreamseller*. Wherever he goes, he enchants people and inspires them to search for the most important thing: the heart of the human soul. Every person he meets is someone who has abandoned their dreams and is going

through a difficult time. Through his questioning, he helps them to overcome their turmoil by getting to the root of their unhappiness. The story begins with an accomplished university professor who threatens to leap off a building and end his life. He is so stirred by The Dreamseller that he follows him and becomes a dreamseller himself. Through the remainder of the story, we meet an alcoholic who has lost his family, and an overweight woman who believes she will never find true love. At the end of this moving tale the true identity of The Dreamseller is revealed. He is the owner of one of the biggest companies in the world, who married the love of his life and had two beautiful children. But he was always too busy to spend time with them. He finally planned a vacation but at the last minute there was a problem at work and he stayed behind. Before they left for the airport his nine year old son said: 'You are the best dad in the world and the busiest one too.' That was the last time he saw his family. The plane crashed. After losing the most important part of his life, the businessman decided to search inside his soul and to share his story with the world. This is how The Dreamseller was born. This moving fable brilliantly shows us how we should reflect on the purpose of life and to value those we love the most.

The unique feature of this book is its down-to-earth practicality Here you are presented with simple, usable techniques and formulas, which you can easily apply in your workaday world. I have taught these simple processes to men and women all over the world, and recently over a thousand men and women of all religious affiliations attended a special class in Los Angeles where I presented the highlights of what is offered in the pages of this book. Many came from distances of two hundred miles for each class lesson. The special features of this book will appeal to you because they show you why oftentimes you get the opposite of what you prayed for and reveal to you the reasons why. People have asked me in all parts of the world and thousands of times, 'Why is it I have prayed and prayed and got no answer??' In this book you will find the reasons for this common complaint. The many ways of impressing the subconscious mind and getting the right answers make this an extraordinarily valuable book and an ever present help in time of trouble.
