The Professor Is In McGraw Hill Professional When they prepare for college, few candidates take the time to acquire the caliber of recommendation letters they will need to distinguish themselves in a highly competitive applicant pool.

This book, which was written by an Ivy League admissions expert, offers detailed advice to write (and get) persuasive letters that highlight the personal, academic and professional strengths the committee expects to see. It also includes 45 successful recommendation letters for students who have distinguished themselves as scholars, leaders, volunteers, athletes, and performers.

Finally, there are also persuasive letters that explain extenuating circumstances in a candidate's history (such as disappointing grades and a low SAT score). At top colleges, where the competition is fierce, the quality and depth of a candidate's recommendation letters can make the difference between acceptance and rejection. Whether you are an applicant who

needs a persuasive letter of recommendation, or someone who has been asked to write one, this exceptional book is mandatory reading. College Shortcuts: the Shortcut to Getting Accepted Into Your Dream College Final Draft! College Shortcuts is aimed to help bring the consciousness back to college admissions. All day, I hear about competitiveness

ss, stress, anxiety, and frustration and yelling in homes around the world over this. And, frankly, I disagree with this method. What if you could get in consciously.... Knowing the universe has your back? What if you surrendered a bit and knew that the world is here to support you, and that having a team can help you and your family get through this in a relaxed and strategic way?In this book, I am

going to literally walk you through exactly how to help your child from building a college list, all the way to submitting applications. Just a quick disclaimer, this book is NOT guaranteed to get you into a top college. The truth is that the level of success for children is highly related to their own work, and while I have been an incredible coach and mentor to help mold and shape children's lives

around the world, I will tell you that the relationship I have with students is highly dependent on the child itself. This book is written for both adults and teenagers - but I typically write in a style that is directed towards the teenager - so please keep this in mind if you are a parent. Many parents read this book - and I want you to read it first and hand it over to your teenager afterwards. I

know that getting into college is a family decision and a very important one - and I take this very seriously. The definitive career guide for grad

students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former

academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the

all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what

gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D.,

including: -
When, where, and what to publish -
Writing a foolproof grant application -
Cultivating references and crafting the perfect CV -
Acing the job talk and campus interview -
Avoiding the adjunct trap -
Making the leap to nonacademic work, when the time is right
The Professor Is In addresses all of these issues, and many more.

CreateSpace Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your

life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced

significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I

make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, College Essay Essentials is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

"The supposed extinction of the Indigenous Beothuk people of Newfoundland in the early nineteenth century is a foundational moment in Canadian history. Increasingly under scrutiny, non-Indigenous perceptions of the Beothuk have had especially dire and far-reaching ramifications for contemporary

Indigenous people in Newfoundland and Labrador. Tracing Ochre reassesses popular beliefs about the Beothuk. Placing the group in global context, Fiona Polack and a diverse collection of contributors juxtapose the history of the Beothuk with the experiences of other Indigenous peoples outside of Canada, including those living in former British colonies as diverse as

Tasmania, South Africa, and the islands of the Caribbean. Featuring contributions of Indigenous and non-Indigenous thinkers from a wide range of scholarly and community backgrounds, Tracing Ochre aims to definitively shift established perceptions of a people who were among the first to confront European colonialism in North America."--
