In grade school, she always had her nose in a book. In junior high, the other kids thought she was weird, because she actually liked reading those dusty old novels in literature class. All through high school, Goldilocks dreamed of writing a book of her own someday. But when she went to college, her parents persuaded her to study something practical. Goldilocks hated practical, and secretly she kept reading novels. But she was a very obedient girl, so she did what her parents told her. She got a very practical degree in marketing. After college, she got a job that bored her to tears—but at least it was practical. Then she got married, and within a few years, she had two children, a girl and then a boy. She quit her job to devote full time to them. As the children grew, Goldilocks took great joy in introducing them to the stories she had loved as a child. When her son went off to kindergarten, Goldilocks thought about looking for a job. But her resume now had a seven-year hole in it, and her practical skills were long out of date. The only jobs Goldilocks could qualify for were minimum wage. She suddenly realized that being practical

had made her horribly unhappy. On a whim, Goldilocks decided to do the one thing she had always wanted more than anything else—she was finally going to write a novel. She didn't care if it was impractical. She didn't care if nobody would ever read her novel. She was going to do it just because she wanted to. For the first time in years, she was going to do something just for herself. And nobody was going to stop her.

The Story Grid Simon and Schuster

A powerful secret and a fresh approach to writing bestselling fiction! What's the best way to write a "next level" novel? Some writers start at the beginning and let the story unfold without a plan. They are called "pantsers," because they write by the "seat of the pants." Other writers plan and outline and know the ending before they start. These are the "plotters." The two sides never seem to agree with each other on the best approach. But what if it's not the beginning or the end that is the key to a successful book? What if, amazing as it may seem, the place to begin writing your novel is in the very middle of the story? According to #1 bestselling writing teacher James Scott Bell, that's exactly where you'll find your story's heart and heat. Bell's "Mirror Moment" is the secret, and its power is available to any writer, at any stage of the writing process. Bringing together years of craft study and personal discovery, Bell presents a truly unique approach to writing a novel, one that will stand the test of time and serve you all your writing life. The Idea is a manual for conquering the most important part of the screenwriting or fiction writing process — the first part. Most writers rush too quickly through choosing a story idea, so they can dive into writing it. And it's the biggest reason most projects don't move forward in the marketplace: producers and editors are underwhelmed by the central concept. Multiple Emmy- and Golden Globe-winning screenwriter/producer Erik Bork (HBO's *Band of Brothers*) explains the seven key ingredients in stories that have a chance of selling and reaching a wide audience - in any genre or medium.

Story loves structure...and so do readers! Super Structure represents over two decades of research on what makes a novel or screenplay entertaining, commercial, original, and irresistible. Contrary to what some may think, structure is not a nasty inhibitor of creativity. Quite the opposite. Properly understood and utilized, structure is what translates story into a form readers are wired to receive it. And it is only when readers truly connect with your story that they turn from casual readers into fans. The material in this book greatly expands upon the chapter on structure in *Write Your Novel From the Middle*. Super Structure can be considered a companion to that book, but it also stands alone in its treatment of the elements of a solid and pleasing plot. Here's more good news: Super Structure will work for any type of writer--those who like to outline, those who just fly by "the seat of the pants," and those who do a little of both. That's because Super Structure stresses the concept of "signpost scenes." There are fourteen signpost scenes, or beats, that can be used to create an entire plot, the skeleton of an idea, or a map to help you figure out what to write next. Every signpost is given its own chapter and explanation, along with a section called "Helpful Hints for Plotters and Pantsers," showing you how to apply what you've learned and adapt it to your own style of writing. Never write a weak novel or screenplay again. Super Structure is a proven foundation that never fails. It frees you to add your original voice

and vision, all of which adds up to bestselling fiction and hit screenplays. "I need three things before I tackle a new novel: Diet Coke, a laptop, and my dog-eared copies of James Scott Bell's books on writing craft!" - Kami Garcia, #1 NY Times & International Bestselling author
