World's Most Powerful Cars The

Rosen Publishing Group, Inc

This is a comprehensive guide to the world's fastest and most powerful sports cars. These machines are the thoroughbreds of the automotive world. Painstaking design and precision engineering combine to create

vehicles that perform to the optimum and thrill and entertain in equal measure. Superior road handling, braking, manoeuvrability, low weight, and high power are the key ingredients of a successful sports car, and this book profiles the most outstanding models currently available. Cars manufactured by the world's automobile giants are featured, such as Ferrari, Maserati, Alfa Romeo, Porsche and Lotus. Alongside these famous names are the models from smaller manufacturers, whose commitment to excellence is just as strong. With stunning colour photography of all the featured models, plus detailed profiles and specification boxes,

this is an essential book for automobile enthusiasts.

Super Sport Cars DK Publishing (Dorling Kindersley)

Explosively fast and notoriously difficult to drive, turbocharged cars blew onto the Formula 1 circuit in 1977; by the mid-1980s, they had evolved into the most powerful cars in the sport's history. This in-depth examination of F1's turbocharged era - 1977 to 1988 -- traces the birth, development, and ultimate demise of the breed. Largely pictorial with explanatory captions, the book utilizes spectacular color

photography to guide the reader through the engineering that enabled such phenomenal performance. Action shots demonstrate the principles of the turbocharged F1 car, presenting the technology in a package that's understandable and invaluable to any F1 enthusiast.

365 Sports Cars You Must Drive Conrad K.

Publishing Waw
Covering the post-World War II era up to the present day, this revised and expanded edition of the best selling 50 years of Classic Sports Cars features no less than 112 cars, and more than 300 photos. The original book's selection of cars is enhanced and brought completely up-to-date

by superb photographs of the most stunning machines of the last few years, from the Porsche 911 Turbo, Jaguar XKR and Ferrari 260 Moden to the Ford Cougar, TVR Tuscan Speed Six and Shelby Series.

Ultimate Sports Car

Crestline Publishing Company
365 Sports Cars You Must Drive puts you in the driver's seat of a century's worth of sports car legends (and a few rather less legendary), each presented with a fun and informative profile and fact-and-spec box. It's the ultimate gearhead's bucket list and poses the challenge: How many have you driven? Whoever coined the phrase "getting there is half the fun" must have owned a sports

car. And the wag who suggested that "it's the journey not the destination"? Probably driving a Lotus or MG at the time. From towering icons like Ferrari, Lamborghini, Porsche, and Corvette to everyman sportsters from Triumph, MG, Sunbeam, and Miata to oddballs like Crosley, Sabra, and DB, sports cars inspire passion and strong opinions as few other vehicles on the road can. In one beautiful book, long-time Road & Truck magazine chief photographer John Lamm, along with other top motoring contributors, gives the reader illustrated profiles of every sports car you've ever dreamed of driving! Now, imagine if you could drive a different sports car—any sports

car—every single day for a year. Which would you choose?

Muscle Cars Hazelton Publishing (UK)

The Art of the Classic Sports Car offers a beautifully illustrated review of decades of high-performance cars from around the globe, all shot in the studio. Sports cars are the athletes of the automotive world. Always nimble and quick, often powerful, sports cars fly where other cars lumber, and dash where others plod. The definition of a sports car is somewhat fluid, still, most car fans feel that

they know a sports car when they see one, and when asked to name a few will rattle off Jaguar, Corvette, Triumph, MG, Aston Martin, Ferrari, Lotus, Alfa-Romeo, BMW, and many others. Sports cars have offered road and track excitement for nearly 100 years. The original cars evolved for racing, but their appeal and popularity ensured that production versions were soon available for those whose sporting intents never left the boulevard or winding back road. The Art of the Classic Sports Car offers enthusiasts a beautifully illustrated review of several decades of high-performance cars, featuring cars from around the globe all shot in the studio to ensure a handsome

book. Each featured car includes a profile discussing the car's place in sports car history along with technical and performance specs as well as a smattering of historical images and period ads.

LeBooks Editora Neo Classics® are rare manufactured vehicles, one-of-a-kind high-end cars, special short-run cars, and "young classics." They are vehicles that become legends--and coveted collectors' items--the moment they leave the factory. Faster, more powerful, more exclusive: whether they're called supercars or hypercars, these are turbo-charged fantasies in chrome. For most of us, however, they will remain dreams on wheels. In this book, René Staud brings the dream a little closer. Page after gleaming page, the "Master of Light" brings these shining stars to our coffee table--from the

Bugatti Chiron to the Lamborghini Huracán Spyder to the Mercedes AMG One. The images are accompanied by expert texts from the seasoned automotive writer and aficionado, Jürgen Lewandowski. René Staud is considered one of the most sought-after automotive photographers and one of the most innovative in the industry. With the Magicflash® lighting system, he has given not only his art, but studio photography in general an important impulse. He has published six volumes with teNeues. With more than 70,000 copies sold, they are in turn classics of automotive literature. With texts by Jürgen Lewandowski, the automotive section
